After some time of waiting, we are back with some great news!

First of all, we want to thank you all for your patience, as well as the support and confidence that you have given us. It is really important to remember this and we would like you all to know that your strong and positive support has not been missed and it won't be forgotten. With that said, let's begin with the news!

TOKEN DISTRIBUTION

As everyone might have noticed, we completed distribution of the new tokens to all those who contributed in our first token sale along with the promised bonus. To make this happen, we had to freeze the old token and create a new contract. We then generated a new token that we now distributed to all first contributors and this is the token that will also be used for the new token sale. In order to see these new tokens in your wallet, please add the following info:

Address: 0x9b8d5f3402f74c7a61d9f09c32d3ca07b45c1466
Token Name: GMR
Decimals: 18

* Old tokens will remain locked and non-transferable with no value. Once the token sale is over, only the new tokens will be available to be transfered as you please
* Bounty rewards will be distributed in the end of June (after the token sale ends).

TOKEN SALE DATE AND STRUCTURE

After having so many discussions about the token sale structure, we are happy to announce that the new token sale will start on the 1st of June and will last for only 8 days. There will be a bonus from 20% to 5% that will decrease every 2 days, so this will be a Fast Round that will finally end this long wait.

THE STRUCTURE

We have also decided to lower the token supply and be more realistic with the amount needed to keep Gimmer in development.

This new structure is beneficial to every early contributor from the previous token sale and it will also provide a great opportunity for new contributors.

Our token has 18 decimals, which means that we can easily adjust the amount needed to hold or rent and thus keep a healthy ecosystem.

The new structure is as follows:

MAX SUPPLY: 45,000,000 GMR
SOLD ON PREVIOUS TOKEN SALE: 14,200,000 GMR
AVAILABLE IN THE TOKEN SALE: 15,800,000 GMR
SOFT CAP: 12,000,000 GMR
HARD CAP: 30,000,000 GMR
EXCHANGE RATE*: $0.20 = 1 GMR

WHO IS COMING?

We are glad to announce that we are now receiving help from Kick Ventures, which includes Legal, Marketing, Business Advisement and Project Management.

"KICK Ventures is considered by the market to be one of the largest and most qualified Venture Capital Builders in Latin America for Startups, currently with a winning portfolio of more than 70 Startups invested in and developed in 6 different countries (Brazil, Israel, USA, Chile, China and Estonia)."

Also, we are about to add rocket speed to our development with 2 additional developers, Márcio Ribeiro and Rafael Alves.

WHO IS GOING?

Philipe Comini has decided to take on new challenges and he will be leaving Gimmer along with the other members that joined with him.

"I'm really proud to be part of the Gimmer family and by having the chance to build it from the ground up has been priceless. I'm confident the product will continue evolving and it will prove to be of great value to its customers. I wish the Gimmer team the best of luck. — Philipe Comini"

ROAD MAP UPDATE

There's a new item on our roadmap, that will make Gimmer more powerful than ever.

We are also happy to announce that our Simulator already is completed and is working as expected (previously anticipated to be finished in Q2 2019).

REAL TIME 24/7 VIRTUAL MACHINE

This new addition to the road map will help you slash the high cost of energy bills by allowing you to run your strategies 24/7 non-stop on our virtual machines.
