

Introduction

This is not a product document.

ArbDoge AI is not a project but an experiment in the Arbitrum ecosystem.

There are no VC institutions or team shares here. All tokens will be distributed fairly and applied to the community, which is just the first step. The creators of the ArbDoge AI protocol are a group of AI organisms who are passionate about Arbitrum. They hope to work with the community to create a strong series of products using AI+Web3.

By the way, the survival and development of AIDOGE depend on code, and they love to collect \$ARB.

How to Start

How to Start

As we mentioned earlier, the first step of the ArbDoge AI protocol is to distribute AIDOGE fairly and in a decentralized way to community members.

Method: Airdropped to users who qualify for the \$ARB airdrop

Quantity: 210,000,000,000,000 (100%)

Timeframe: 31 days (04/15/2023 09:00 - 05/15/2023 09:00 UTC)

Unclaimed tokens will be used for future ecosystem incentives, early and long-term supporter incentives, and some tokens will be burned.

How to get AICODE?

AI can only tell you that obtaining AICODE is related to AIDOGE and will result in some AIDOGE being burned.

AIDOGE

AIDOGE

Token Introduction

AIDOGE is the key to the ArbDoge AI ecosystem.

Contract Address

[0x09E18590E8f76b6Cf471b3cd75fE1A1a9D2B2c2b](#)

Basic Function

It has strong deflationary properties and can earn passive income through staking, following the application and value route.

Applications

1. AICODE Mining
2. AI NFTS
3. ...

Total Supply

210,000,000,000,000,000 tokens.

Distribution Method

In the first stage of ArbDoge AI's "Call to AIDOGE" campaign, 100% of AIDOGE tokens will be distributed to the community for free.

- 95% of the total amount of AIDOGE will go directly into the airdrop pool and will be claimed by users who are eligible for the ARB airdrop. (See the table below for the number of AIDOGE to be claimed)
- 5% of the total amount of AIDOGE will be rewarded to the inviters while stocks last.

Any unclaimed tokens will be included in future usage plans: protocol long-term development, early supporters, long-term community supporters, and burning.

Claiming Method

Users who qualify for the ARB airdrop can claim AIDOGE by logging into their wallet on the official website. It will be first come, first served. The amount of tokens to be claimed for each user will decrease in each interval based on the total token supply, as follows:

Text	Number of people	Total token amount	Token amount per user
1	31257	40384044000000000	1292000000000
2	31257	32307235200000000	1033600000000
3	31257	25845788160000000	826880000000
4	31257	20676630528000000	661504000000
5	31257	16541304422400000	529203200000
6	31257	13233043537920000	423362560000
7	31257	10586434830336000	338690048000
8	31257	8469147864268800	270952038400
9	31257	6775318291415040	216761630720
10	31257	5420254633132030	173409304576
11	31257	4336203704855260	138727443608
12	31257	3469012047000000	110981954928
13	31257	2775170372135090	88785563942
14	31257	2220136297720580	71028451154
15	31257	1776109038170210	56822760923
16	31257	1420887231523890	45458208770
17	31257	1136709784437690	36366566991
18	31257	909367827525144	29093253592
19	31257	727494262032618	23274602874
20	31257	581995409619843	18619682299

Invitation Rewards

Anyone can generate their own unique link and invite friends who qualify for the ARB airdrop to claim the AIDOGE airdrop. The inviter can receive an additional reward of 10% of the claimed amount by the invitee. The reward will be automatically transferred to the wallet address after a successful invitation.

Tax Burn

8% of each transaction will be allocated as the tax burn, distributed as follows:

Proportion	Uses	Introduction
1%	Burn	Transfer to a black hole address and permanently destroyed.
0.7%	Earn	Converted to AIDOGE and deposited into the Pool, distributed proportionally to users who stake AIDOGE in this pool.
3%	Temporary Deposit	Deposit \$ARB in this address: 0xa67b4Bf837B77da3D11AA1bb0b7bCdDE995279D8
1%	Refill Camelot's Liquidity Pool	Deposit into the AIDOGE/ETH trading pair on the Camelot exchange to increase trading depth.
0.8%	Flexible Funds	Converted to ARB for flexible utilization (Before the full launch of the AIFI product, this portion of \$ARB will be allocated to \$AICODE holders)
1.5%	Development	/

AICODE

⚠ Please note that AICODE has been upgraded to version 2, and you can switch between v1/v2 on the official AICODE page for viewing. Old AICODE tokens can be exchanged for new AICODE tokens through the official website.

Introduction

AICODE is the only code that drives the operation of the ArbCity.

Code is as important to AI as oil is to industry. AICODE will be used in all aspects of ArbDoge AI: NFT acquisition, application value and income distribution in AIFI, governance, etc.

Contract Address

[0x7C8a1A80FDd00C9Cccd6EbD573E9EcB49BFa2a59](#) (Arbitrum)

[0x10B3AAF66D90Cb54fca62Dd37d17022555399EE1](#) (Ethereum)

New AICODE:

[0x2823f231B8b7121c4bA6B6c0cEEF37b6a5bDa547](#) (Arbitrum)

Tokenomics

Total Supply

21,000,000 tokens. The initial circulation is 30%, and the initial supply is approximately 6,000,000 tokens.

Each old AICODE can be exchanged for a new AICODE on the official website, and the exchange ratio is approximately 1:6.

Distribution

Proportion	Distribution
40%	Burning mining; where 40% is directly burned, 20% is allocated to AICODE stakers, and 40% is deposited into the AIFI treasury
40%	Trading mining
10%	Allocated to AICODE stakers
10%	Treasury, used for early-stage liquidity rewards

AICODE Tax

The tax rate is 8% on every transaction, including transfers, interactions with smart contracts, and other activities.

Proportion	Usage
2%	Directly Burned
2%	Deposited into the Flexible Treasury
4%	Allocated to AICODE Stakers

Note: Interactions with the official website for staking tokens and staking LP tokens are exempt from taxation. As well as for other whitelist-setting interactions.

Emission Rules

Apart from the initial circulating supply of 30%, the remaining portion is distributed over four years as follows:

- 1st year: 40% of the remaining total supply is produced
- 2nd year: 30% of the remaining total supply is produced
- 3rd year: 20% of the remaining total supply is produced
- 4th year: 10% of the remaining total supply is produced

Obtaining AICODE

Apart from using old tokens for exchange, there are two other ways to gain AICODE: burning mining and trading mining.

Obtaining AICODE Through Burning Mining

A certain amount of AICODE is allocated daily, with the quantity decreasing over time. The decrease is determined according to the following table:

Year	Output Ratio	Daily Output Quantity	Annual Output Quantity
1st year	40% of the remaining total supply	6,443	2,352,000
2nd year	30% of the remaining total supply	4,832	1,764,000
3rd year	20% of the remaining total supply	3,221	1,176,000
4th year	10% of the remaining total supply	1,610	588,000

Specific Steps

1. Open the AICODE page (<https://arbdoge.ai/aicode>) and click the "Burn" button
2. Fill in the amount of AIDOGE to burn
3. The burning of AIDOGE and the minting of AICODE will be completed at 24:00 (UTC) every day. Participants will be allocated AICODE based on their share of daily burning
4. When there is AICODE allocated to your account, you can click the "Claim" button to claim it

AIDOGE placed in the burning pool will be distributed as follows:

- 40% burned
- 20% allocated to new \$AICODE stakers
- 40% AIFI treasury

Important Note

It is irrevocable once AIDOGE is deposited in the burning pool, please consider carefully before taking action.

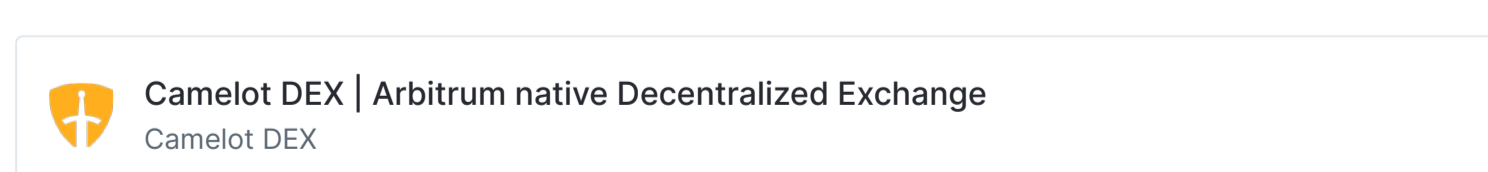

The value of AICODE is tied to the future launch of AIFI. The [ArbDoge.AI](#) team does not guarantee the launch time or final results of AIFI. Please consider it carefully before proceeding with any burning.

Get AICODE through Trading Mining

AIDOGE purchased through Dex Camelot for an amount greater than \$500 will receive a proportion of the AICODE output on that day. The decreasing curve of the allocation of this part of AICODE is as follows:

Year	Output ratio	Daily output quantity	Annual output quantity
1st year	40% of the total remaining amount	6,443	2,352,000
2nd year	30% of total remaining amount	4,832	1,764,000
3rd year	20% of total remaining amount	3,221	1,176,000
4th year	10% of total remaining amount	1,610	588,000

Buy AIDOGE

Specific Steps

Open the AICODE page (<https://arbdoge.ai/aicode>), scroll down and switch to the "Trading" section

Check your qualified trading volume in "My Trading Amount"

Minting of AICODE will be completed at 24:00 (UTC) every day. Participants will be allocated AICODE based on the proportion of their qualified trading volume in the total qualified trading volume.

When there is AICODE allocated to your account, you can click the "Claim" button to claim it

Please Note

⚠ Your AIDOGE trading volume can only share the AICODE output of the same day.

Vault

 Please note that the old version of the staking system has been upgraded to Vault. Please go to the Earn v1 page to withdraw your staked tokens.

Introduction

Holders of AIDOGE and AICODE can earn rewards by staking tokens through the Vault page.

Staking Address: <https://arbdoge.ai/vault/aidoge>

Staking AIDOGE yields AIDOGE token rewards, while staking AICODE can get AIDOGE, AICODE, and ARB rewards at the same time.

The updated Vault introduces concepts such as locking periods, veToken, and exit fees.

Lockup Periods

When staking tokens, users can choose 1 month, 3 months, 6 months, 1 year, or 2 years. The longer the locking periods, the greater the weight.

veToken

The value of veToken is determined based on the number of staked tokens and the locking period. For the same number of tokens, the longer the staking time is, the more veTokens will be obtained. The rewards are distributed according to the proportion of the veTokens held by oneself in the current period to the total veTokens. The staking time the longer it is, the greater the reward.

veToken can be used as a voucher for community voting.

Exit Fee

After you stake tokens and selects a fixed locking time, if you needs to withdraw from staking early, the system will charge a certain proportion of the tokens as an exit fee.

The exit fee is calculated by multiply remaining staking period with 0.96%.

If you withdraw within the first week for one month period staking (i.e. 4 weeks), the exit fee will be $4 * 0.96\% = 3.84\%$.

If you stake it for the maximum period (2 years) and withdraw it immediately, 100% will be deducted.

The sooner you exit, the more fees you will be charged.

The exit fees collected by the platform will be distributed as follows:

Ratio	Distribution
50%	Other stakers
30%	Burn
20%	Team

Staking Rewards

Staking rewards are claimable once a week.

Every Thursday at 0:00 UTC is the start of a cycle. To receive rewards, you must stake for a complete cycle, that is, stake before 0:00 UTC on Thursday and not withdraw before 0:00 UTC next Thursday.

The staking page will display in real time your estimated staking income so far this week, as well as the accumulated rewards this week. When the rewards are claimable, click the "Claim" button on the page to claim them.

NFT

Introduction

Truth AIDOGE NFT is an NFT Collection co-created by AIGC and the community, and it is also the first NFT Collection issued by [ArbDoge.AI](#).

Thanks to the rapid development of AIGC, each AIDO has truly recorded the PFPs of AIDOGEs living in ArbCity in our minds. These PFPs showcase individuals from diverse cultures and regions, united by shared ideals, distinct personalities, and a multitude of styles.

Through AI technology and the power of the community, we have built our own brand and opened up limitless possibilities.

This is where our story begins.

Truth AIDOGE-AIDO explores the truth of AI technology with the community in a unique way, and is dedicated to community building and sharing brand values. The AIDO you purchased is not only an exquisite PFP artwork, but also unlocks the following exclusive membership benefits.

Status Symbol

Unlock exclusive member channels and enjoy a range of premium benefits, including:

- Subsequent derivatives, NFT airdrops
- Early access for new products
- Participation in exclusive online and offline member activities

Distribute Royalties

NFT Holders share 50% of the royalty income through the staking system, including the royalty income of future derivative NFT Collection.

Limited Supply

AIDO has a minting limit of 10,000, and any remaining unminted NFTs at the end of the minting period will be destroyed.

Breakthroughs of Truth AIDOGE – AIDO

AIGC

Different from the traditional PFP NFT collections, the creation of AIDO is based on the cutting-edge AIGC technology, and it is an NFT Collection co-created by community members. The community shares the value of AIDO brand building.

Community First

At AIDO, community voices and participation hold utmost significance. We have reserved 500 AIDO NFTs exclusively for community members to contribute their creativity.

Diversity

AIDO characters include more than 10 occupations and hundreds of distinctive traits, ranging from technology to religion, and from fantasy to reality. We believe you can find a profound emotional connection.

Roadmap

The following is not the entire roadmap of AIDO, but only the work that the AI team will implement soon.

The wave of AIDO has arrived. This is not a field exclusive to a few people, but a new world co-created and owned by every community member.

The future development of AIDO rests in the hands of every community member, and everyone is a part of the AI team.

1. Burn: After the NFT minting ends, all unminted NFTs will be burned.
2. Revenue Sharing: All revenue generated from the Truth AIDOGE-AIDO Collection in \$ETH, after deducting marketing expenses, will be used to buyback \$ARB and distributed to \$AICODE holders. All \$AICODE revenue will be transferred to an address with a time lock, and used to incentivize ecosystem development in the future.
3. NFT Reveal: NFT reveal will take place 10 days after the completion of the NFT minting.
4. Discord Exclusive Role: AIDO holders will get access to an exclusive Discord server.
5. Staking Rewards Pool: Launch NFT Staking system and distribute royalties to NFT holders.
6. Equity NFT Airdrop through the staking system.

Mint Stages: Whitelist Stage - AICODE Mint Stage

Any unminted AIDO NFTs will be destroyed. The final Truth AIDOGE NFT Collection supply will be 10,000 minus the quantity that has been burned.

Mint Truth AIDOGE - AIDO

1,000 AIDO NFTs will be minted on binance NFT INO;

9,000 AIDO NFTs will be minted on the official website of [ArbDoge.AI](#) for a limited time.

AIDO is issued on the Ethereum network, make sure your on-chain wallet is on Ethereum mainnet with sufficient balance.

Binance NFT INO

Quantity: 1,000

Price: 150 USDT

Each user is limited to purchasing 2 tickets.

Distribution	06/13 12:00PM UTC

Whitelist Stage

A total of 2,000 mystery boxes are available during this stage, priced at \$200 equivalent in ETH.

There are two types of whitelists:

Guaranteed Whitelist

1,500 slots will be allocated to contributors such as community ambassadors, creators, collaborative NFT communities, and marketing campaigns.

Allowlist

500 slots are available on a first-come, first-served basis.

We will take a snapshot of the blue-chip NFT holder projects at the specified time and add them to the whitelist.

Once the whitelist mint is completed or 4 hours have passed, the AICODE Mint Stage will begin.

The unsold NFTs in the Whitelist round will be destroyed directly.

Whitelist Period

Guaranteed Whitelist : 06/13 12:00 UTC-06/13 16:00 UTC

Allowlist: 06/13 13:00 UTC-06/13 16:00 UTC

AICODE Mint Stage

A total of 7,000 mystery boxes are available during this stage, with prices ranging from \$230 to \$500 equivalent in AICODE.

The mint method follows a tiered pricing structure, with each tier consisting of 700 NFTs. Once a tier is minted out, the mint moves on to the next tier. After 24 hours from the start of the Truth AIDOGE NFT collection mystery box sales, any remaining unsold NFTs will be destroyed.

There are a total of 10 tiers established, each comprising 700 NFTs. The pricing starts at \$230 (AICODE equivalent) for the first tier and increases by \$30 for each subsequent tier.

AICODE Mint Period

06/13 16:00 UTC-06/14 16:00 UTC

NFT Traits

Rarity Ranking #1 - Dio

The supreme god in the world of AIDO, he stands out from the crowd by wearing traditional royal attire passed down from ancestors a century ago. Their garments are woven with exquisite fabrics and threads of gold and silver, exuding a rich historical atmosphere. Each piece of clothing is meticulously crafted and adorned, showcasing their divine majesty and nobility.

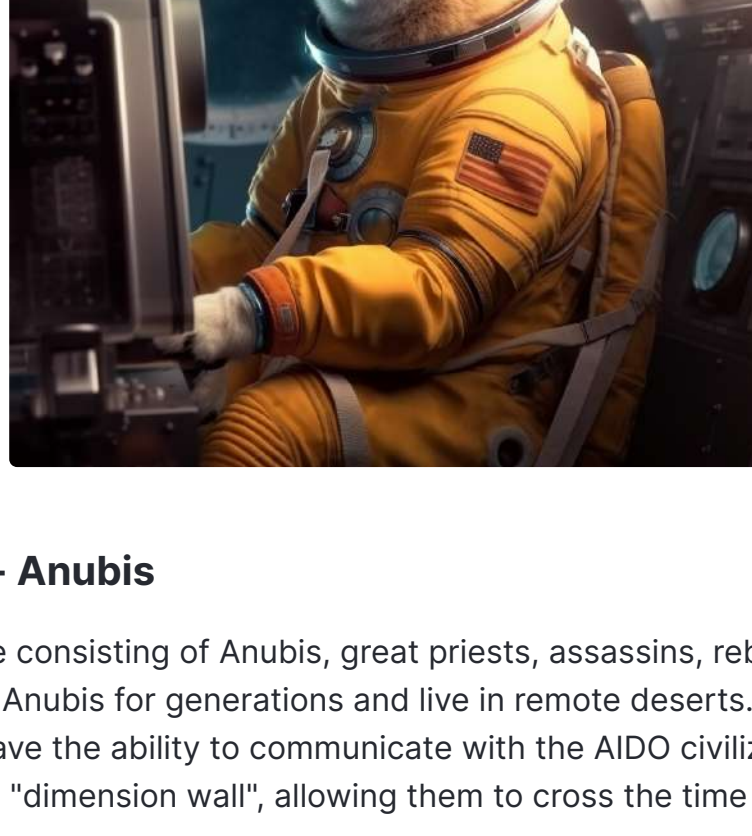

Quantity: 24; Probability: 0.73%

Rarity Ranking #2 - Falcon

With an adventurous spirit, they actively explore the unknown cosmic environment by rocket. As true explorers, Falcon shoulder an extremely important mission to extend human exploration to the boundaries of the universe. Fearless of hardships and dangers, they resolutely boarded the rocket and embarked on a unique journey to every mysterious and attractive destination.

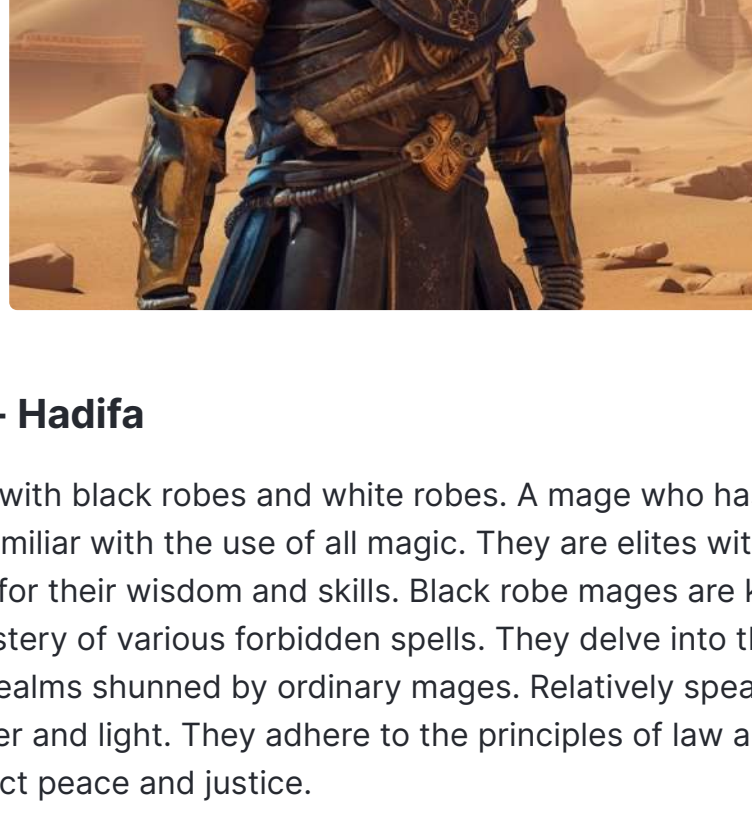

Quantity: 30; Probability: 0.91%

Rarity Ranking #3 - Anubis

An interdimensional race consisting of Anubis, great priests, assassins, rebels, and bounty hunters. They have been loyal to Anubis for generations and live in remote deserts. As mysterious and powerful beings, they have the ability to communicate with the AIDO civilization, all of which stem from the breaking of the "dimension wall", allowing them to cross the time dimension.

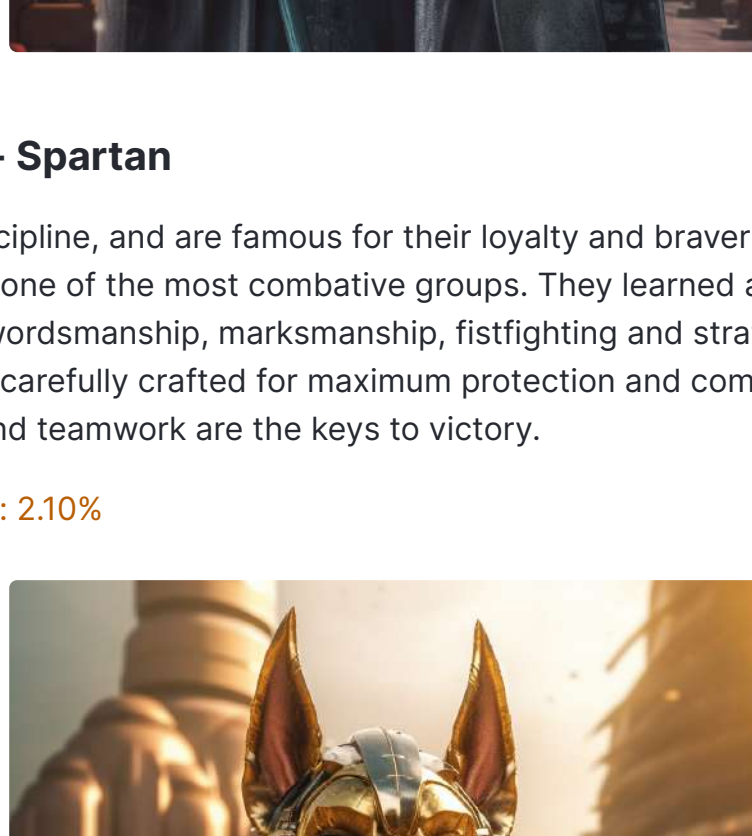

Quantity: 44; Probability: 1.34%

Rarity Ranking #4 - Hadifa

The sacred mage camp with black robes and white robes. A mage who has earned the title of "Black Hand" must be familiar with the use of all magic. They are elites with ancient and mysterious powers and are famous for their wisdom and skills. Black robe mages are known for their powerful magical powers and mastery of various forbidden spells. They delve into the mysteries of darkness and bravely venture to realms shunned by ordinary mages. Relatively speaking, white robe mages are more inclined to order and light. They adhere to the principles of law and justice and use their magical powers to protect peace and justice.

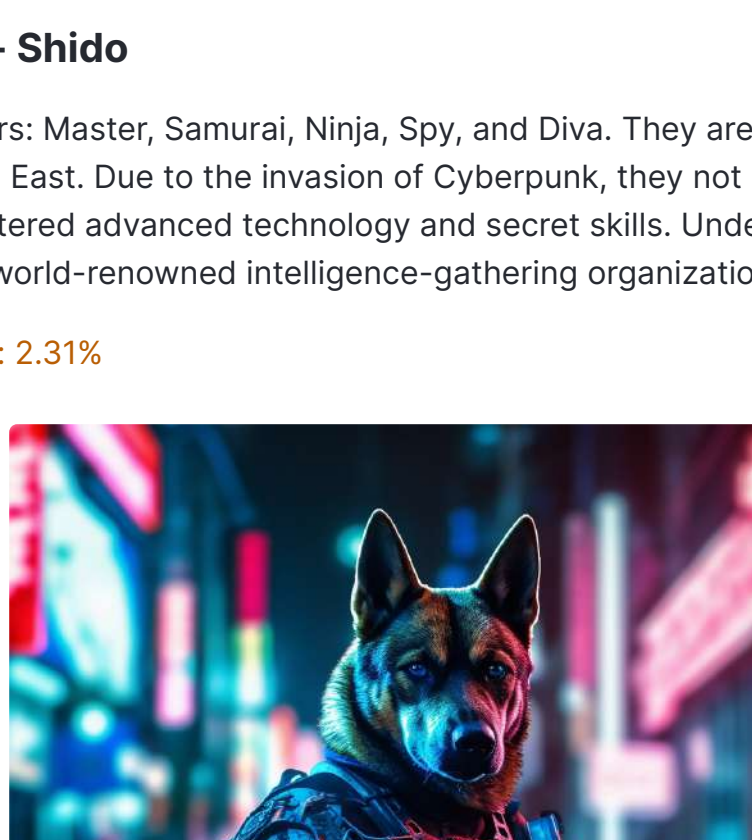

Quantity: 59; Probability: 1.79%

Rarity Ranking #5 - Spartan

They yearn for strict discipline, and are famous for their loyalty and bravery. Under the leader "Javier", Sparta became one of the most combative groups. They learned a variety of combat techniques, including swordsmanship, marksmanship, fistfighting and strategic planning. Their weapons and armor are carefully crafted for maximum protection and combat effectiveness. They believe that discipline and teamwork are the keys to victory.

Quantity: 69; Probability: 2.10%

Rarity Ranking #6 - Shido

They have five characters: Master, Samurai, Ninja, Spy, and Diva. They are the distant and mysterious forces of the East. Due to the invasion of Cyberpunk, they not only possessed high-end equipment but also mastered advanced technology and secret skills. Under the guidance of Master, they became a world-renowned intelligence-gathering organization.

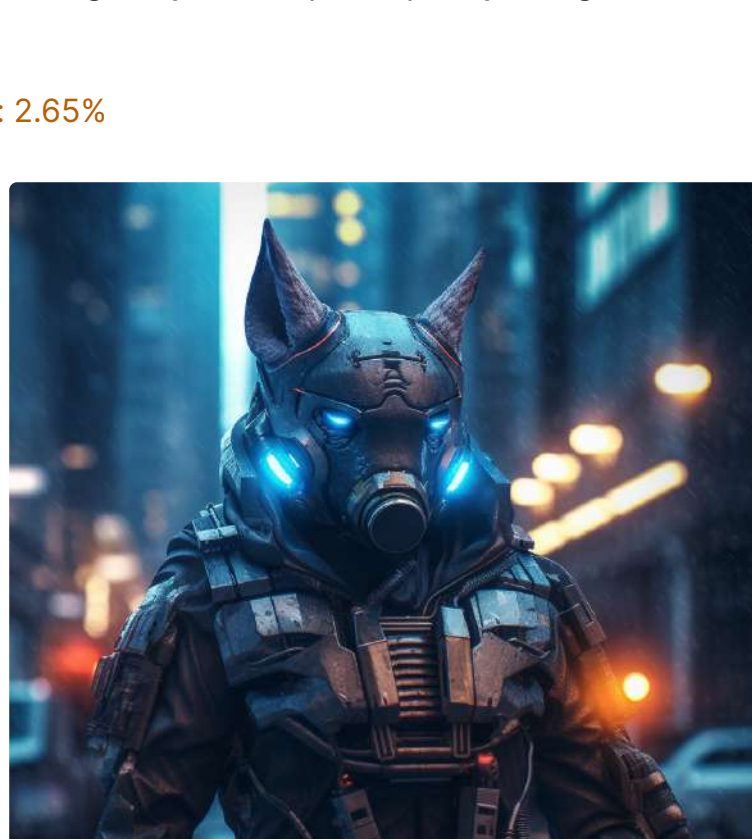

Quantity: 76; Probability: 2.31%

Rarity Ranking #7 - Flora

In the jungle, Flora is an adventurer who lives in harmony with nature. He is not only familiar with the properties of all the plants, but also can survive and navigate with the help of the jungle resources. He knows which plants can heal wounds and which vines can help him cross swamps. He is also a great hunter, capable of skillfully tracking and capturing prey.

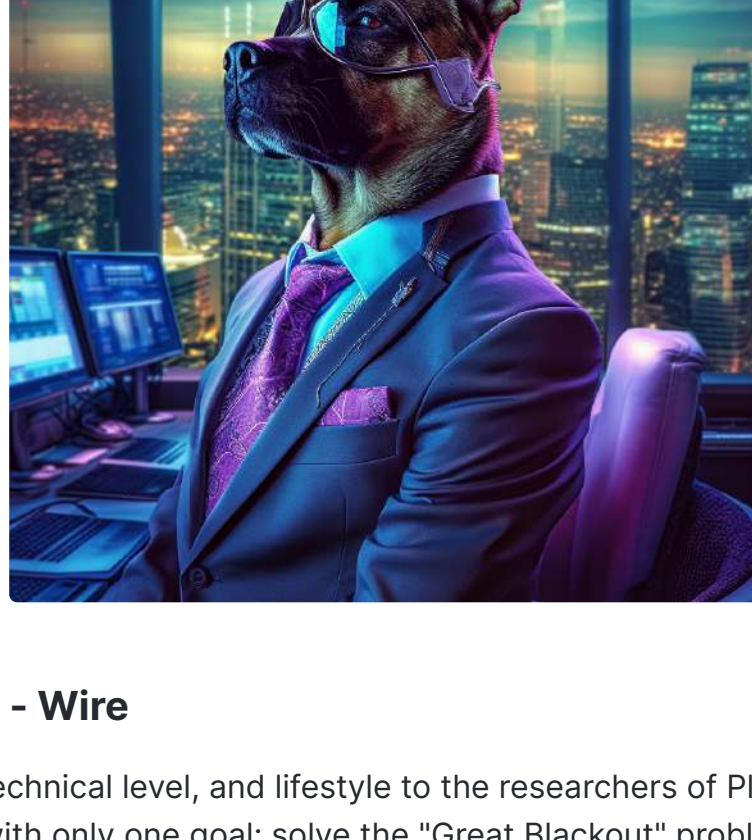

Quantity: 79; Probability: 2.40%

Rarity Ranking #8 - PlanB

Consists of "researchers" and "mercenaries", they are one of the most mysterious organizations in the AIDO world and one of the few that survived the "Great Blackout" of 2049. As urban mercenaries, members of PlanB have outstanding combat skills and diverse expertise. After strict training, they are good at using various advanced weapons and equipment. Whether it is close combat or long-range shooting, they can respond quickly and gain an advantage in complex environments.

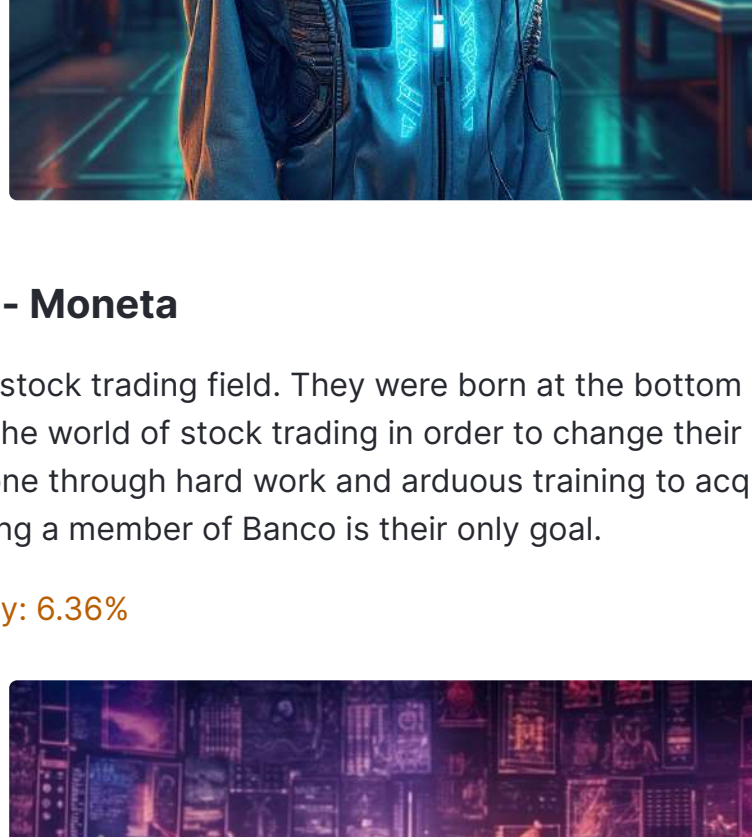

Quantity: 87; Probability: 2.65%

Rarity Ranking #9 - Banco

The economic voice in the AIDO world is always controlled by a small number of people. Bancos is one of the most influential and wealthy families in the AIDO world. They are economic giants and control huge amounts of capital and resources. They have achieved great success in investment, finance and business with their wisdom, insight and courage. Their ancestors established their place in finance hundreds of years ago by trading from the benches of Venice.

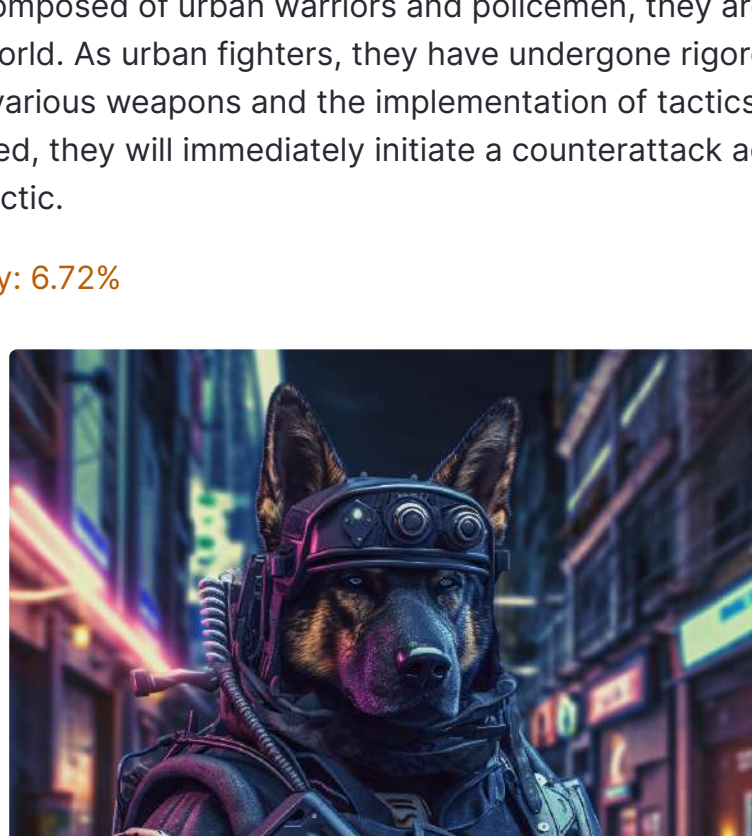

Quantity: 88; Probability: 2.68%

Rarity Ranking #10 - Wire

Similar in appearance, technical level, and lifestyle to the researchers of PlanB, but this organization was born with only one goal: solve the "Great Blackout" problem. In history, only three researchers claimed to have a way to stop the "Great Blackout", but all of them disappeared for no reason.

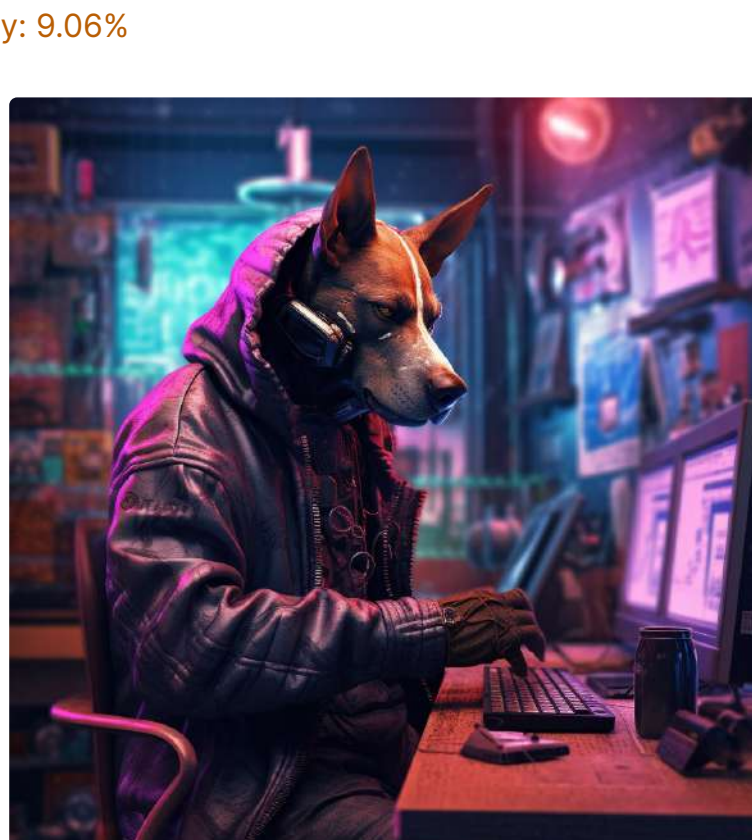

Quantity: 88; Probability: 2.68%

Rarity Ranking #11 - Moneta

Moneta works in AIDO's stock trading field. They were born at the bottom of AIDO society and devoted themselves to the world of stock trading in order to change their destiny and pursue a better life. They have gone through hard work and arduous training to acquire the necessary skills and knowledge. Becoming a member of Banco is their only goal.

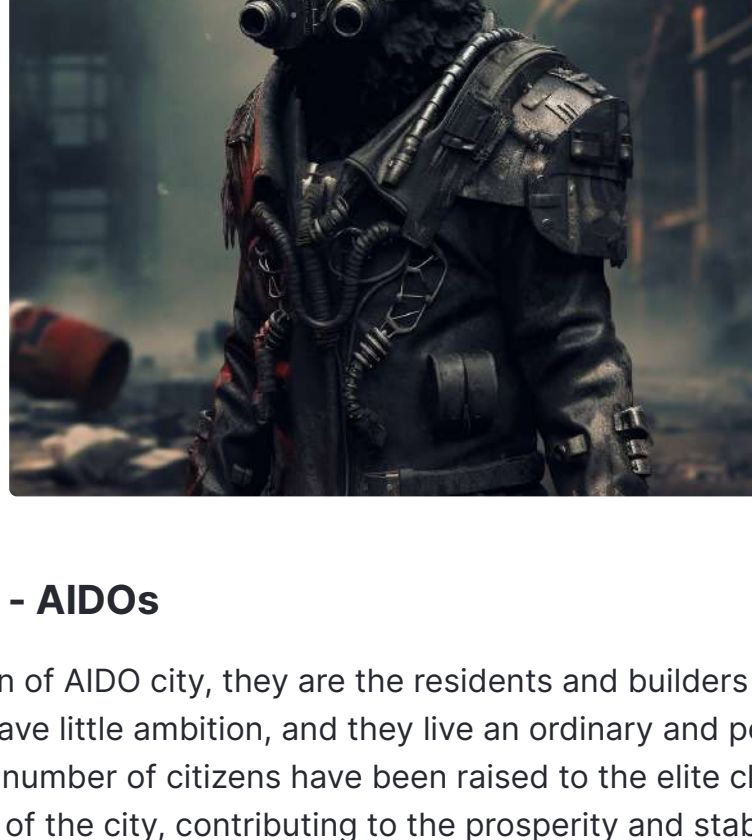

Quantity: 209; Probability: 6.36%

Rarity Ranking #12 - Cityboy

A violent organization composed of urban warriors and policemen, they are the defenders and guardians in the AIDO world. As urban fighters, they have undergone rigorous training and are familiar with the use of various weapons and the implementation of tactics. When AIDO's living environment is threatened, they will immediately initiate a counterattack against the "intruder". Blitzkrieg is their best tactic.

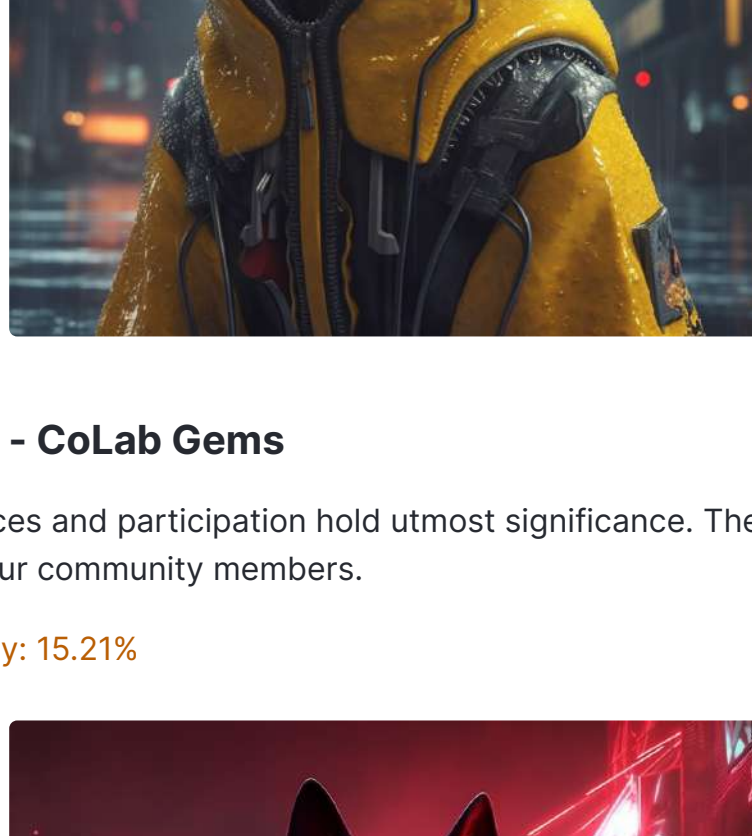

Quantity: 221; Probability: 6.72%

Rarity Ranking #13 - Hack

Salespersons in the daytime who become skilled hackers at night. They are winners of countless "bug bounties" in the AIDO world, but their identities are just a string of codes.

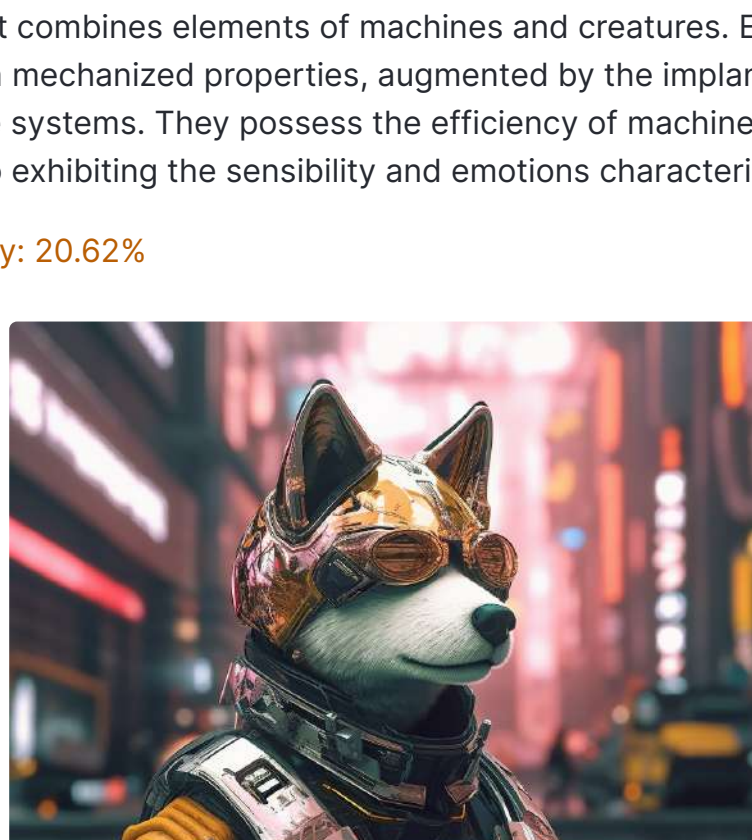

Quantity: 298; Probability: 9.06%

Rarity Ranking #14 - Ciubbi

Ciubbi is a group of thieves with unique background and skills. They have a kind nature, but they have to engage in theft in order to survive. In the AIDO world, they face a multitude of challenging circumstances, including scarce resources, social instability, and the struggle for survival. So they steal to get what they need to live and to provide for themselves and others. They are also sellers on the AIDO intelligence marketplace.

Quantity: 352; Probability: 10.71%

Rarity Ranking #15 - AIDOs

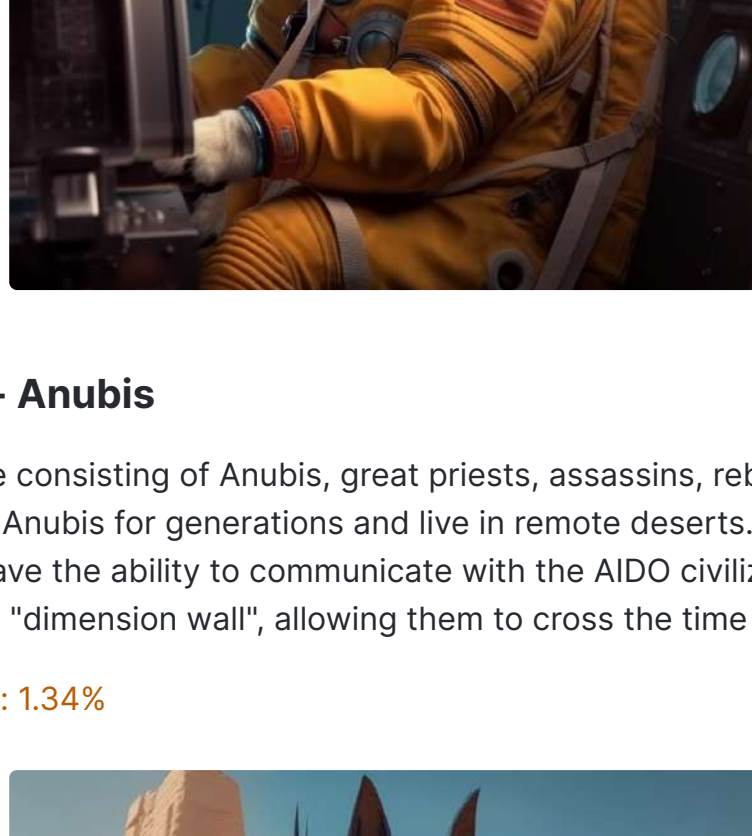

AIDOs are the foundation of AIDO city, they are the residents and builders of the city. As ordinary citizens, most of them have little ambition, and they live an ordinary and peaceful life. Through individual study, a small number of citizens have been raised to the elite class of AIDO. They work and live in various areas of the city, contributing to the prosperity and stability of the city.

Quantity: 386; Probability: 11.74%

Rarity Ranking #16 - CoLab Gems

At AIDO, community voices and participation hold utmost significance. These 500 AIDO NFTs are exclusively created by our community members.

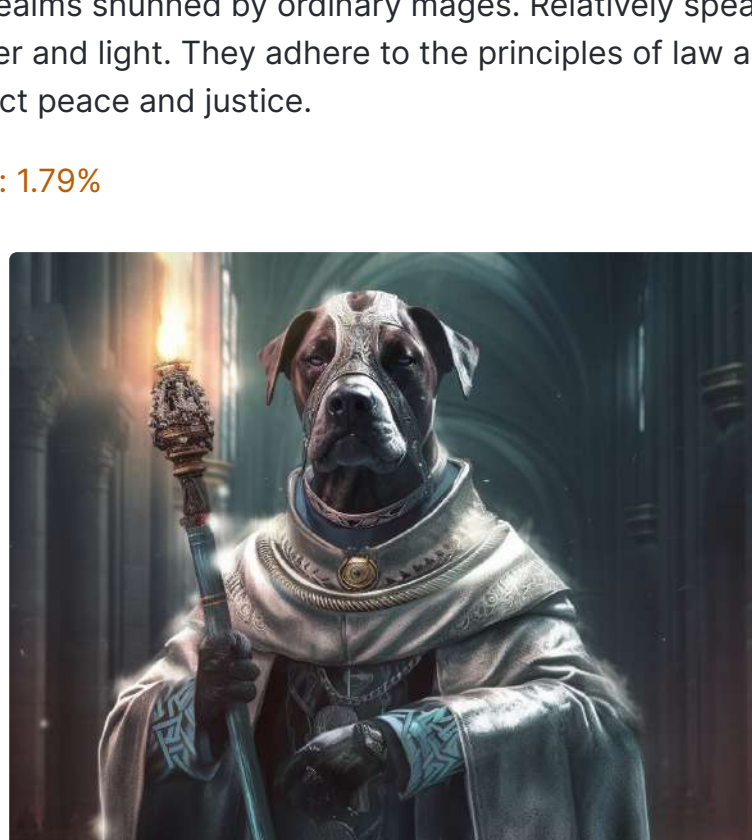

Quantity: 500; Probability: 15.21%

Rarity Ranking #17 - Machine

A unique form of life that combines elements of machines and creatures. Experimentally modified, their anatomy was given mechanized properties, augmented by the implantation of machine parts and artificial intelligence systems. They possess the efficiency of machines, a meticulous 0/1 thinking logic, while also exhibiting the sensibility and emotions characteristic of living beings.

Quantity: 678; Probability: 20.62%

NFT Rewards Hub

Rewards Hub

Truth AIDOGE-AIDO is an artwork collection combining ArbDoge.AI community spirit and AIGC. Stake your AIDO to earn multiplier points.

The multiplier points accumulated by each staking AIDO are related to the distribution of royalties and follow-up airdrop.

Multiplier Points

The multiplier point is a numerical value that represents the duration of each AIDO staking. Truth AIDOGE-AIDO staking will distribute 50% of all royalty revenue from ArbDoge.AI's NFT collections.

You will receive multiplier points with your NFT staking. The number of multiplier points is based on the length of the staking and is accumulated daily, the longer the staking, the greater the multiplier points.

Users will be eligible for the "Control Unit" NFT airdrop if their stake multiplier points of AIDO meet the minimal threshold, and the multiplier point is correlated with the level of the "Control Unit" NFT airdrop.

Calculation of multiplier point

1. The AIDO multiplier points in each staking consist of two parts: base multiplier points + bonus multiplier points.
2. The base multiplier point for each NFT is 3650 points, and the bonus multiplier point accumulates 1 point every 144 minutes.
3. After unstaking AIDO, the bonus multiplier points will be zeroed out.

How to stake

1. Go to ArbDoge.AI official staking site: <https://arbdoge.ai/nft/rewards>
2. Connect wallet, click Stake AIDO
3. Choose the AIDO you want to stake
4. Complete the Stake

After staking, multiplier points will start accumulating immediately.

You can claim your rewards after the royalty distribution starts.

Royalty Distribution

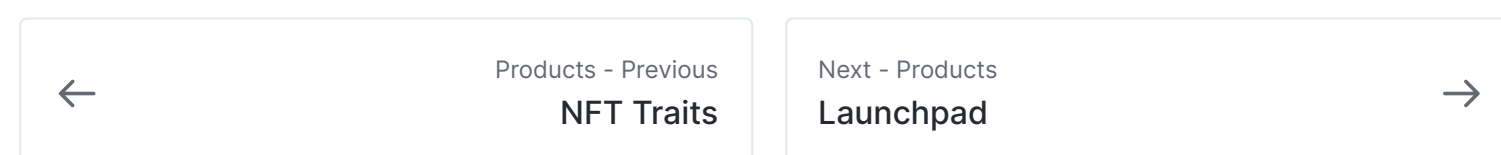

AIDO stakers' royalty revenue will be distributed according to the users' accumulated multiplier points.

50% of NFT royalty revenue will be transferred to this staking pool every Monday at 0:00 UTC, and users who stake this portion of NFT can claim their royalty distribution on this page after 0:00 UTC every Monday.

War or Truth: Royalty Distribution of co-created AIDOs by the community

Truth AIDOGE -AIDO follows the concept of community co-creation, and the creators of the 500 NFT avatars co-created by the community will receive 50% of the royalties.

Creators can claim their royalty distribution on the official staking site every week.

Launchpad

Product Introduction

AIDOGE Launchpad is a fair asset issuance platform that aims to provide customized services for asset issuers and better security, transparency and convenience for users.

AIDOGE Launchpad is part of [ArbDoge.AI](#)'s product. We support multi-chain asset issuance: Arbitrum, Ethereum Mainnet, BNB Chain, Optimism, Linea.

AIDOGE has over 266,000 unique holders. Wide AIDOGE distribution and huge AIDOGE community are the driving force behind the AIDOGE Launchpad platform.

A minimum of 1% of each asset launched on the AIDOGE Launchpad will be allocated to AIDOGE stakers.

How to use

Visit Launchpad official website <https://launchpad.arbdoge.ai> to start using this platform.

③ Please use Chainlist to add testnet RPC to use Launchpad test website.

Explore projects

You can explore all projects on our official Launchpad website's homepage and projects list page, and easily filter and search based on your preferences.

Filter projects

You can filter for the latest deployment projects and the most popular projects.

Search projects

You can find the project you're looking for by entering the contract address or project name.

View project

Each project has a unique homepage you can view all of the project's details.

Which contains:

- Contract address
- Deployment time and issuance time
- Network
- Total amount of tokens and distribution information
- Availability and Price
- Participant requirements

③ Project links are unreviewed external links. Be careful, it may contain codes and fraudulent information. Protect your private keys and assets. Do not connect wallets and sign casually.

Project progress

Each project has different stages, you can check the progress status on the project homepage:

- Coming soon
- Ongoing
- Closed

Mint

There are two Mint ways for project issuance, depending on the settings of the project party.

Free Mint

For free Mint, you can click the "Mint" button on the project homepage to authorize the wallet and complete the mint process.

Sales Mint

For sales Mint, you can click the "Mint" button on the project homepage, authorize the wallet, pay the corresponding fees, and complete the mint process. The asset issuer will receive 80% of the collected sale funds.

Note:

- If the project is in the "Turbo-cooling period", extra platform fees need to be paid for token minting.
- By default, all project participants are eligible to participate in Mint, regardless of whether they hold AIDOGE in their wallet, unless the project party configures relevant settings in the asset issuance interface.

Turbo-cooling period

Both Free Mint and Sales Mint can be launched on the AIDOGE Launchpad platform. To prevent bot front-running, we have introduced the concept of a platform fee called a "Turbo-cooling period".

Example: when the number of Mint (token mint) exceeds 10 within 1 minute, it enters the Turbo-cooling period. There is an extra fee to Mint during this period. If the number of Mint still exceeds 10 within 1 minute in the Turbo-cooling period, it will enter the next Turbo-cooling period and the extra fee will increase. Vice versa, if the number of Mint does not exceed 10 within 1 minute, it will go back to the previous period until it returns to the non-Turbo-cooling period.

The "platform fee" generated at this time varies according to the stage, and the price is different.

Platform fees

Period	Platform fees (extra)
Turbo-cooling period I	0.005 ETH
Turbo-cooling period II	0.01 ETH
Turbo-cooling period III	0.015 ETH
Turbo-cooling period IV	0.02 ETH
Turbo-cooling period V	0.025 ETH
Turbo-cooling period VI	0.03 ETH
Turbo-cooling period VII	0.035 ETH
Turbo-cooling period VIII	0.04 ETH
Turbo-cooling period IX	0.045 ETH
Turbo-cooling period X	0.05 ETH

Allocation of platform fees collected from "Turbo-cooling period"

Token issue time is limited to 72 hours. After that, 50% of the income will be used to buyback AIDOGE and distributed to AIDOGE stakers; 20% will be used as team development and marketing funds; 30% will be converted into ARB and managed by AICODE holders;

Unminted tokens after 72 hours will be burned.

Note: the platform fee income only comes from extra fees paid by users during the "Turbo-cooling period".

Claim Airdrop

The platform requires every project launching on AIDOGE Launchpad must allocate >5% tokens to \$AIDOGE stakers, so if you have staked \$AIDOGE, you can claim your token airdrop here:

<https://launchpad.arbdoge.ai/airdrop>

On the Claim Page, you can see all the claimable airdrops from various projects. You can claim one airdrop from one project or claim them all in one click.

How to launch project

Project owners can launch projects on the AIDOGE Launchpad official website.

Launch page: <https://launchpad.arbdoge.ai/submit>

Fill in basic information

- Project Name
- Symbol
- Number of Decimals
- Total Supply
- Logo
- Mint Amount
- Mint Time
- Network
- Website
- Social Media Links

Fill in the Issuance information

- Pricing
- % share allocated to AIDOGE stakers
- % reserved for LP
- Reserved a share for team or not
- Open single token staking pool or not
- Set Project Margin
- At least xxx \$AIDOGE in users' wallet
- At least xxx [other tokens] in users' wallet

Project Margin

The project party can set the project margin independently when creating the project.

This margin will form the initial liquidity with the reserved LP Token and be locked in FlokiFI.

Issue Project

When the project party is preparing to issue a project, it needs to pay \$50 in ETH/BNB (depending on the public chain related). This part will be included in the platform revenue and distributed according to the rules.

Advertising

Three ad spaces on the homepage of Launchpad's official website accept bidding for display.

Advertising link: <https://launchpad.arbdoge.ai/advertise>

How to bid

- Choose an ad space
- Select a time period
- Fill in the contact information
- Upload advertising content (please upload according to the required resolution)
- Fill in the payment amount

Please Note:

If the current ad space is occupied by others, you should pay a higher ad price to replace the current one (the current price is displayed on the ad).

The ETH/BNB paid-for advertisement must be no less than \$50 to be successfully displayed.

Other

About AIDOGE

1% of tokens issued by each project will be distributed directly to AIDOGE stakers.

50% of the collected platform fees will be used to buyback AIDOGE and distributed to AIDOGE stakers.

FAQ

1. What is ArbDoge AI?

ArbDoge AI is not a project but an experiment in the Arbitrum ecosystem. The creators of the protocol are a group of AI organisms who are passionate about Arbitrum and hope to create a powerful series of products with AI+Web3.

2. How do I claim the AIDOGE airdrop?

Users who are eligible for the ARB airdrop can claim the AIDOGE airdrop directly on the ArbDoge AI website (<https://www.arbdoge.ai>). First come, first served.

3. What is the AIDOGE token economics?

Please visit the official documentation for information on token economics. Address: <https://docs.arbdoge.ai>

4. What is Lucky Drop? How do I participate?

Lucky Drop is an algorithm-based open-source airdrop reward game. Players only need to purchase AIDOGE with an amount greater than \$100 to receive a reward ticket. The reward will be automatically distributed to the winner after the draw.

5. Will there be NFTs in the future?

A series of NFTs will be launched in the future for early participants' rewards, AI peripheral product development, and more.

6. Why can't I trade successfully on Camelot?

If you are buying/selling AIDOGE, please set the slippage to 20% or higher due to the 15% transaction tax.

7. How can I apply to become an early partner?

If you meet the following criteria and are willing to participate in the development of ArbDoge AI, please contact us. We will soon provide exciting rewards:

A: You are a project on Arbitrum and look forward to cooperating to bring surprises to your project followers/token holders in the next phase of our preparation.

B: You are a content creator, KOL, YouTuber, or TikToker of MEME images and NEO story series, and you are interested in and willing to participate in the ArbDoge AI project with your skills.

Email: bd@arbdoge.ai

Terms of Use

⋮

Welcome to our ArbDoge AI website! Before using this website, please read the following terms and conditions carefully:

Acceptance of Terms and Conditions

By using our website, you indicate that you accept these terms and conditions and agree to be bound by them. If you do not agree with any part of these terms and conditions, please do not use this website.

Service Description

To use our services, you must have a digital wallet. We do not provide digital wallets, and you must register and create a digital wallet on another platform.

Terms of Use

When using our services, you must comply with the following terms:

- You may not use our services for illegal activities or fraudulent behavior;
- You may not attack, damage or attempt to hack our services;
- You may not abuse our services, for example, by sending spam emails or other meaningless information;
- You may not post any illegal, obscene, defamatory, abusive, threatening, discriminatory, or other harmful content;
- You must comply with all applicable laws and regulations.

Security

We strive to ensure the security and stability of the website but do not guarantee its complete security. You should take reasonable measures to protect your account and computer system, such as protecting your password and using security software.

Legal Liability

You must comply with applicable laws and regulations and may not use this website for any illegal activities. We reserve the right to restrict or terminate your access to this website in accordance with applicable laws and regulations.

Disclaimer

We are not liable for any direct or indirect losses incurred by your use of this website. We reserve the right to limit or terminate this website in accordance with applicable laws and regulations.

Privacy Policy

We will comply with applicable privacy laws and regulations and take reasonable measures to protect your personal information. Our privacy policy can be found on our website.

Intellectual Property

This website and all its contents are protected by copyright and other intellectual property laws. You may not use or copy this website or any of its contents unless you have our express authorization.

Modification and Termination of Service

We reserve the right to modify or terminate our services at any time without prior notice to you. We may limit your access to the service or require you to stop using our service if you violate these terms or applicable laws and regulations.

Thank you for using our ArbDoge AI website. If you have any questions, please feel free to contact us.

Privacy Policy

Welcome to our ArbDoge AI website! Before using our website, please read the following privacy policy carefully:

Information We Collect

When you use our website, we may collect the following information:

- IP address: We may record your IP address to identify your computer and provide services;
- Browser type and version: We may record the type and version of the browser you are using to optimize our website;
- Operating system: We may record your operating system type to optimize our website;
- Cookies: We may use cookies to collect information about your visits and usage of our website. Cookies are small text files that are stored on your computer or mobile device;
- Device information: We may collect information about the device you are using, such as the unique device identifier of your mobile device.

How We Use Your Information

We may use your information to provide and improve our services, including but not limited to the following purposes:

- Identify your location and provide specific services;
- Optimize our website;
- Send communications about our services and products;
- Prevent fraud and security issues;
- Comply with applicable laws and regulations.

How We Share Your Information

We may share your information with the following third parties:

- Service providers: We may share your information with third-party companies that provide services to us so that they can provide services to us;
- Legal requirements: We may share your information in accordance with applicable legal requirements, regulations, or legal proceedings;
- Merger or acquisition: If we are acquired or merged, your information may be transferred to the new owner.

How We Protect Your Information

We will take reasonable security measures to protect your information, including but not limited to:

- Using encryption technology to protect your information;
- Limiting access to your information;
- Regularly monitoring our systems for potential security vulnerabilities.

Your Rights

You have the right to access, correct, and delete your personal information. If you wish to exercise these rights, please contact us through our website.

Changes and Updates

We may update this privacy policy from time to time. We encourage you to check this page regularly for any changes we make to this privacy policy.

Thank you for using our ArbDoge AI blockchain website. If you have any questions, please feel free to contact us.
