

What is xPet.Tech

xPet.Tech is an innovative platform that combines the joy of virtual pet ownership with the transformative capabilities of blockchain technology. This revolutionary platform offers a dynamic and engaging environment for users to raise, care for, and even trade their virtual companions.

Key Features:

1. **Raising Pets:** xPet.Tech allows users to nurture and care for virtual pets, creating a bond that mirrors real-world pet ownership.
2. **Twitter Chests:** Users can explore the Twitter feed to find hidden chests, unlocking valuable rewards for their pets.
3. **Farm:** Pet owners have the opportunity to cultivate a virtual farm, earning additional rewards to enhance their pet's capabilities.
4. **Adventure:** Your Pets can go on adventures and face lots of challenges
5. **Earn Together:** This feature fosters community collaboration, enabling users to boost their earnings by teaming up with others.
6. **Marketplace:** The decentralized marketplace provides a secure platform for users to buy, sell, and trade pets and related items.
7. **Staking:** Users can stake their assets to earn interest, increasing the value of their holdings within the xPet.Tech ecosystem.
8. **Borrow:** xPet.Tech introduces a borrowing mechanism, allowing users to utilize their assets as collateral to borrow XPET tokens.
9. **Convert:** The platform offers a convenient conversion system, enabling users to interchange between XPET and BPET assets.
10. **Revenue Sharing:** xPet.Tech implements a transparent revenue-sharing mechanism, ensuring a portion of the platform's earnings is distributed back to the community.

With these robust features, xPet.Tech redefines the virtual pet ownership experience. By harnessing the potential of blockchain, it guarantees security, transparency, and authenticity in all interactions. Join xPet.Tech and be part of a community that celebrates the joy and rewards of virtual pet companionship.

Raising Pet

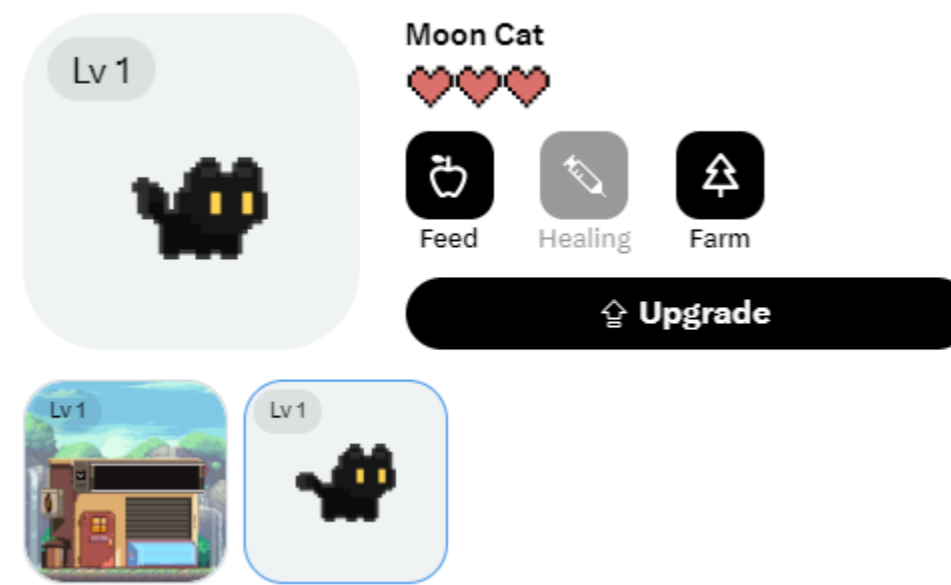

After your chosen virtual pet, you'll be their best friend, making sure they're happy and healthy. Feed them, play with them, and watch them grow strong and happy in this special digital world.

Your trusty pet doubles as a valuable ally! As you scroll through Twitter, they're diligently collecting XPET tokens, your ticket to exclusive rewards. It's like having a dedicated companion in your online escapades. Make sure to unlock the Twitter Chest and engage in Farming to maximize your earnings. This seamless partnership ensures that every moment on the platform is a step towards greater prosperity in the xPet.Tech ecosystem. Happy tweeting and earning!

Health is Important

Just like people, pets have a way of showing how they're feeling. Your pet has three important health bars to show how strong and healthy they are. Every few hours, they get a bit hungry and lose a health bar. It's up to you to feed them and keep them in good shape.

Taking care of your pet is like being a good friend. Give them lots of love, feed them, and make sure they have everything they need. When your pet is happy, they do better and that means more rewards for you.

Help Your Pet Feel Better

Sometimes pets get sick, even virtual ones! You can use a special tool to help them get better. It's like giving them medicine to feel strong and healthy again.

Keep Things Clean

Even virtual pets need a clean space. If your pet makes a mess, you can use a broom to clean it up. It's important to keep their home nice and tidy.

Pet will help you earn

Find Hidden Chest

Explore Twitter and discover hidden chests. These special rewards make your pet even happier and help you both succeed together.

Grow BPET on Your Farm:

Imagine your pet having a little farm! They work hard there to earn special coins called BPET tokens. It's like a team effort between you and your pet for success.

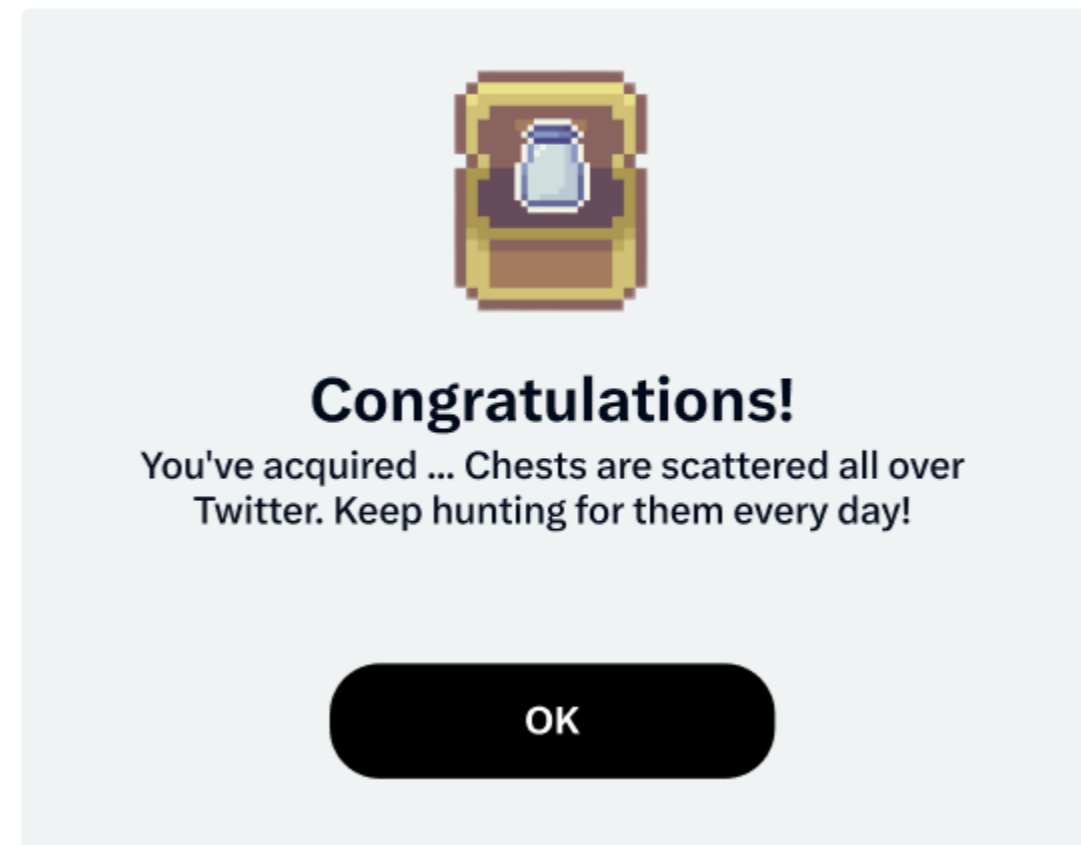

Step into the world of xPet.Tech, where you and your virtual pet embark on an exciting adventure together. Enjoy feeding, playing, and watching them thrive in this unique digital space. As you surf Twitter, your pet is right there with you, earning special coins called XPET tokens. Keep them healthy by feeding them regularly and attending to their needs. Complete simple tasks on your Twitter profile to earn free meals for your pet if they ever get really hungry. Take care of your pet when they're not feeling well, just like you would with a real pet. Keep their space clean and tidy with a handy broom. Explore Twitter to find hidden rewards that make your pet even happier. Imagine your pet having their own little farm, where they work hard to earn special coins called BPET tokens. It's a team effort for success between you and your pet.

Twitter Chest

In xPet.Tech, Twitter Chests are special virtual containers filled with surprises and valuable items for you and your pet. Here's how they work:

Daily Chest Opportunities:

Every day, you have the chance to open two chests on Xpet's Twitter feed. This means twice a day, you can discover exciting rewards for you and your pet.

Newsfeed Discoveries:

When you browse Xpet's Twitter newsfeed, keep an eye out for three random articles that contain hidden chests. These articles act as gateways to potential treasures.

What's Inside:

When you open a chest, you can expect to find a range of valuable items. These include:

- **BPET:** A special token that holds significant value in xPet.Tech's ecosystem.
- **Food:** Essential for keeping your pet well-fed and healthy.
- **Broom:** An important tool for maintaining a clean and tidy environment for your pet.
- **Needle:** Used to treat your pet when they're not feeling their best, ensuring their health and happiness.
- **Shield:** A protective item that safeguards your pet from potential harm.

Balancing Rewards:

The rewards you receive when opening a chest are carefully balanced to enhance gameplay. As your pet's level progresses, the contents of the chest may change to maintain a fair and engaging experience for all players.

So, keep your eyes peeled for those hidden chests in the Twitter articles. Each one is an opportunity to enrich your pet's life with essential items and tokens that contribute to their well-being and prosperity in the xPet.Tech world. Happy hunting!

Farm

xPet.Tech Farm: Cultivating BPET Tokens for Owners

In xPet.Tech, your pet has the opportunity to own and manage a virtual farm. This farm serves as a dedicated space for your pet to work hard and earn valuable BPET tokens for you, the owner. Here's how it all works:

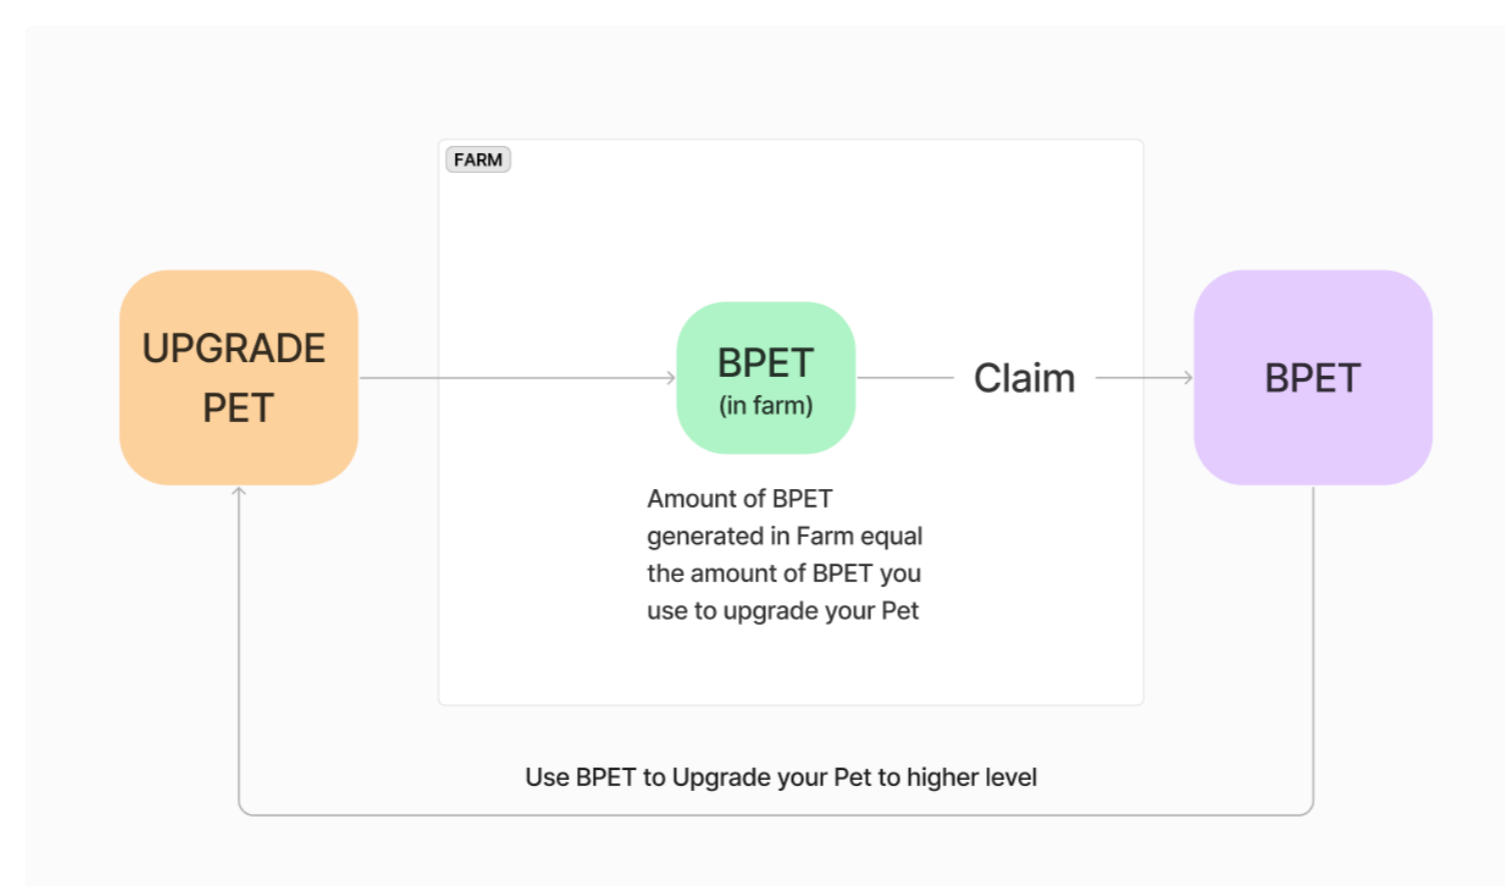

Pet Farming Basics:

Nurturing your Pet in Farm to get a higher level Pet. The higher level they get, the more advantage you have in PvE and PvP modes

Purpose of using Farm:

Farm serves as a place to nurture your pets and help them level up. To achieve this, we have designed a repetitive cycle for you. With each completed cycle, you will receive the exact amount of BPET you invested and a higher level for your pet.

Here is the model of the Farm's repetitive cycle:

All pets at Level 7 will participate in and contribute to the Farm. For every time you upgrade a pet to a higher level, the Farm will automatically generate a certain amount of \$BPET gradually in 25 days. After 25 days, you will receive the same amount of \$BPET that you used to upgrade the Pet. The \$BPET in the Farm can be claimed to your wallet every 10 minutes. After claiming, a cycle concludes, and you receive an amount of \$BPET equivalent to what you initially invested to upgrade your pet and your pet is now at a higher level. If you continue to use the \$BPET just claimed to further upgrade your pet, you will initiate a new cycle.

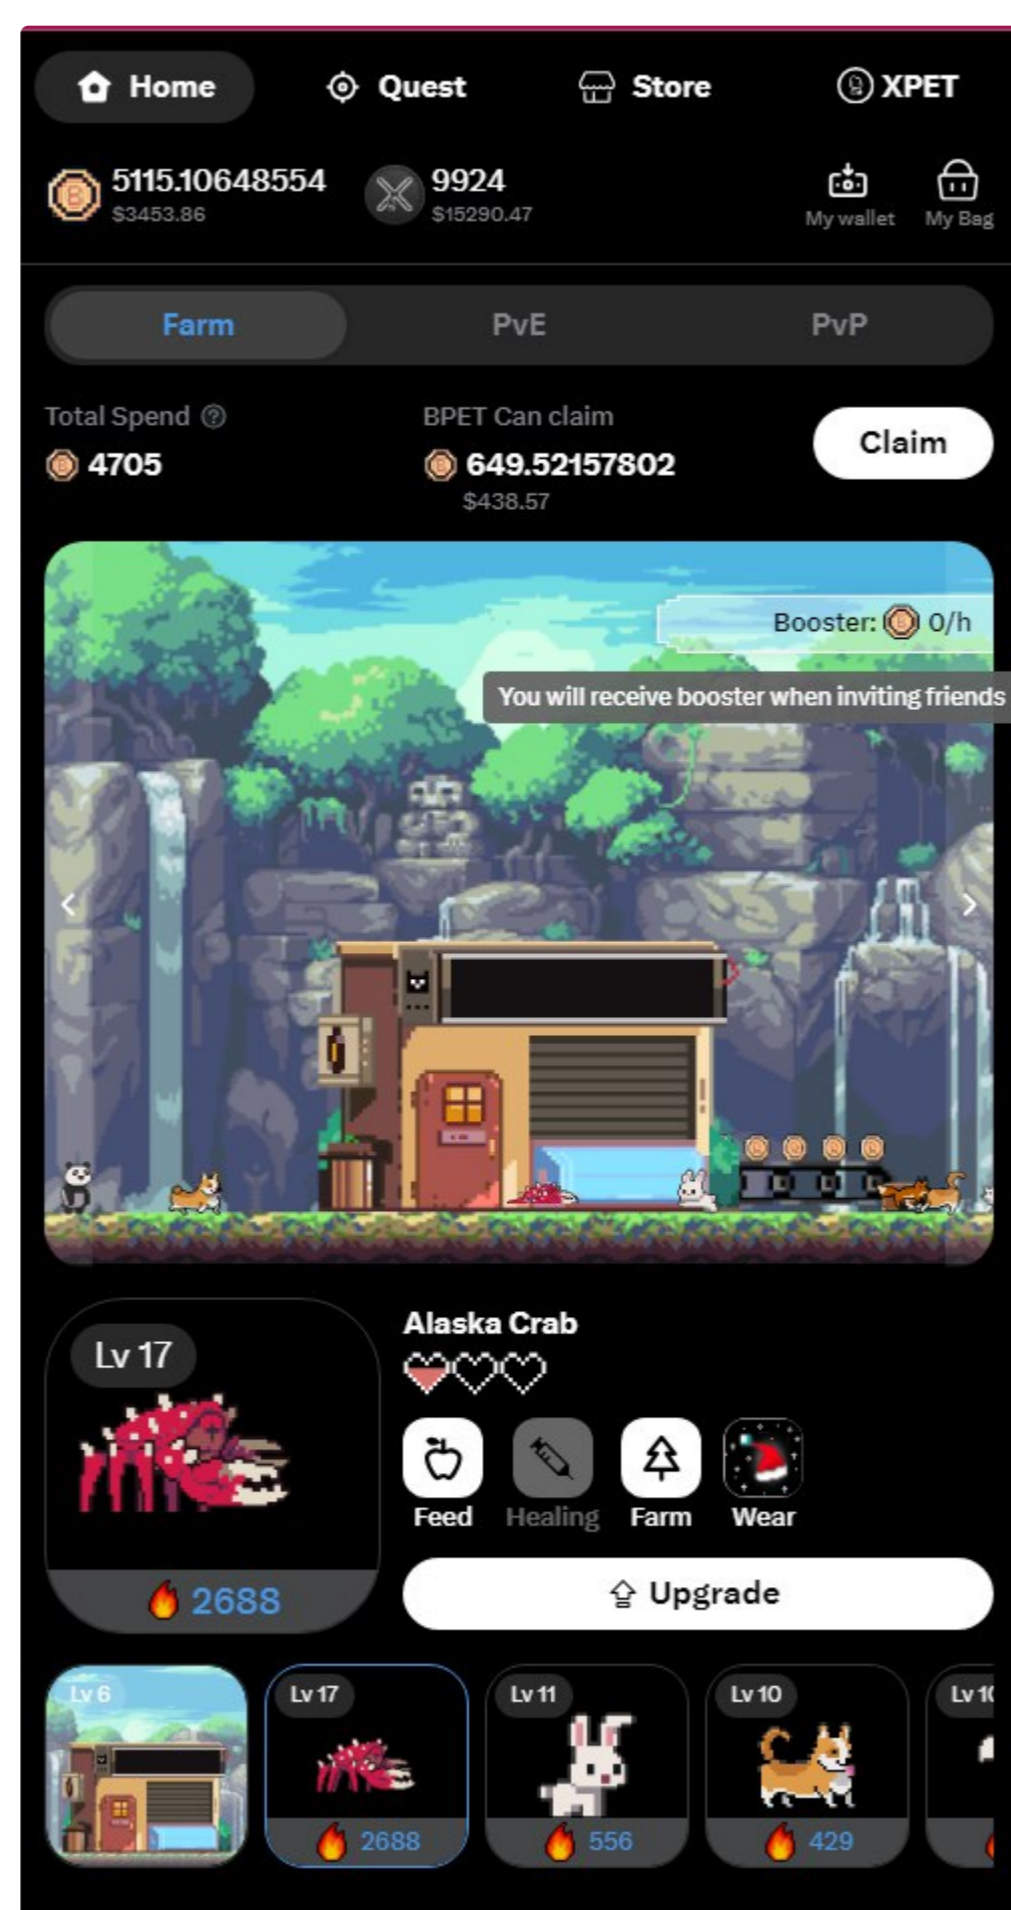

This repetitive cycle system in Farm operates like a Flying Wheel, enabling your pet to level up progressively and give you an advantage in PvP and PvE (Adventure) modes. The more you can earn from PvP and PvE, the more you can keep upgrading the Pet.

Furthermore, participating in Farm ensures that your invested \$BPET is never lost, and your investment remains secure.

📌 Your Boosters will continue to function normally, generating BPET for you even when you are not upgrading your pets.

BOOSTER

Collaboration is a powerful tool in xPet.Tech. By participating in the "Earn Together" program, your pet can work alongside other pets, amplifying their collective efforts and ultimately increasing the overall farm productivity.

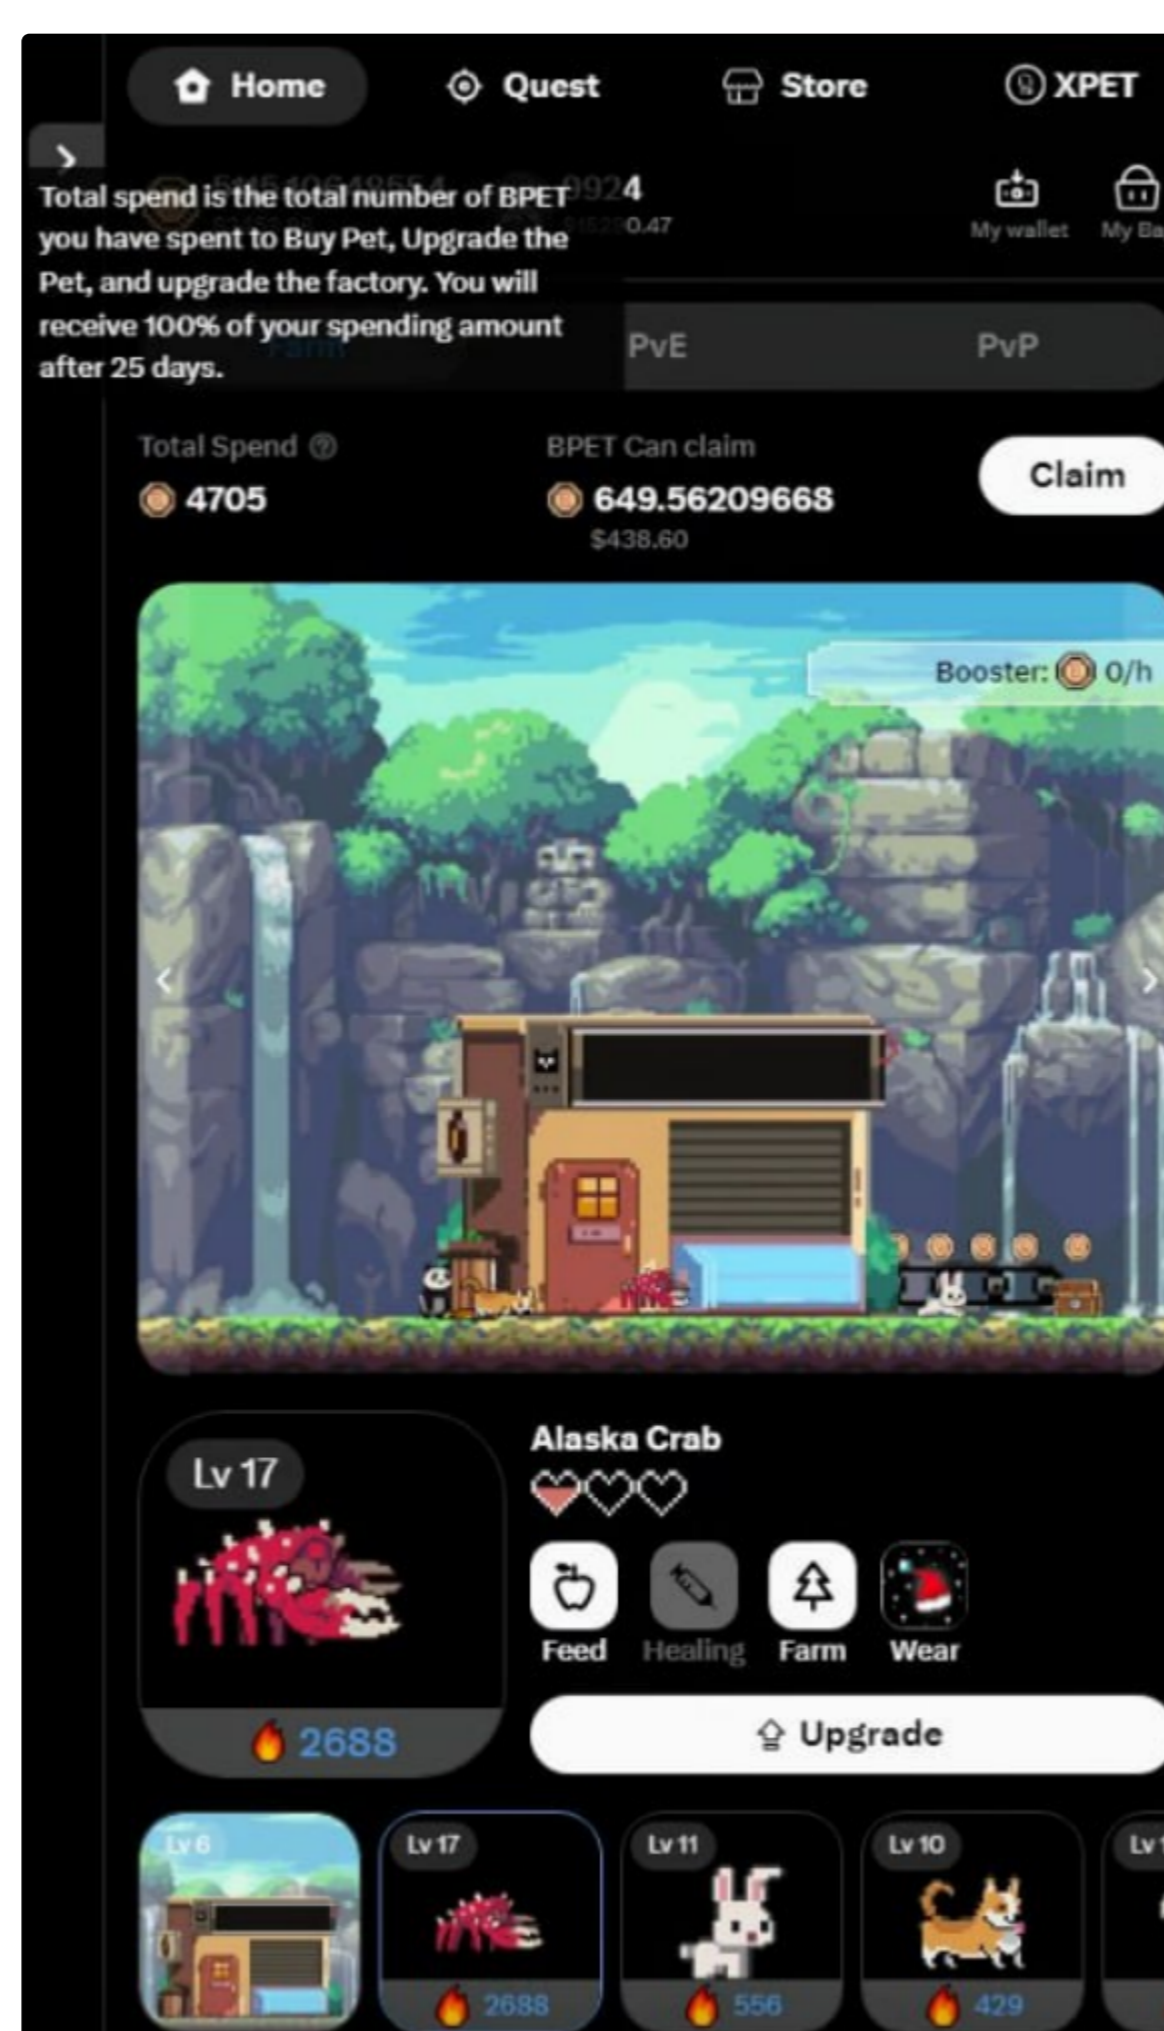

Your total reward from Booster, your invite, etc can be found in "Your Wallet", section "Invite Friend"

Farm Parameters

1. Total Spend

The amount of BPET you invest or reinvest will be counted as "Total Spend"

📌 Total Spend = BPET or XPET used to buy Pet + BPET used to Upgrade Pet + Bpet used to upgrade Factory

We guarantee you that you will receive back the entire amount of BPET shown in Total Spend. Each time you invest or reinvest, you will receive that amount back within 25 days.

2. Distributed and Remain

The "Distributed" parameter is the number we have returned to you and the "Remain" is the remaining BPET number you can continue to receive.

📌 Total Spend - Distributed = Remain

All the BPET you have invested will be returned to you in the Farm, so you do not lose anything when upgrading. Every time you reinvest and upgrade, you will receive all your funds back plus an additional higher-level Pet. It may seem that upgrading the Farm serves no purpose since you receive back the exact amount you invested. However, in reality, it's quite the opposite. The more you enhance your Pet, the higher the Pet Level you attain, providing you with increased earnings in both PvE and PvP. It's a comprehensive economy where all features intricately intertwine with each other

PvE (Adventure)

Your pets will not only operate on the farm; now, they can also go on adventures!

When you own a pet at level 10 or higher, you can participate in Adventure. Adventure is divided into three tiers, each corresponding to different areas where your pet can engage:

- Adventure Tier 1: Pets from Level 10 to Level 29 are eligible to participate.
- Adventure Tier 2: Pets at Level 30 or higher are eligible to participate.
- Adventure Tier 3: Only open during special events. (It may be open to everyone or limited to those who meet specific criteria, depending on each event.)

Rewards in Adventure

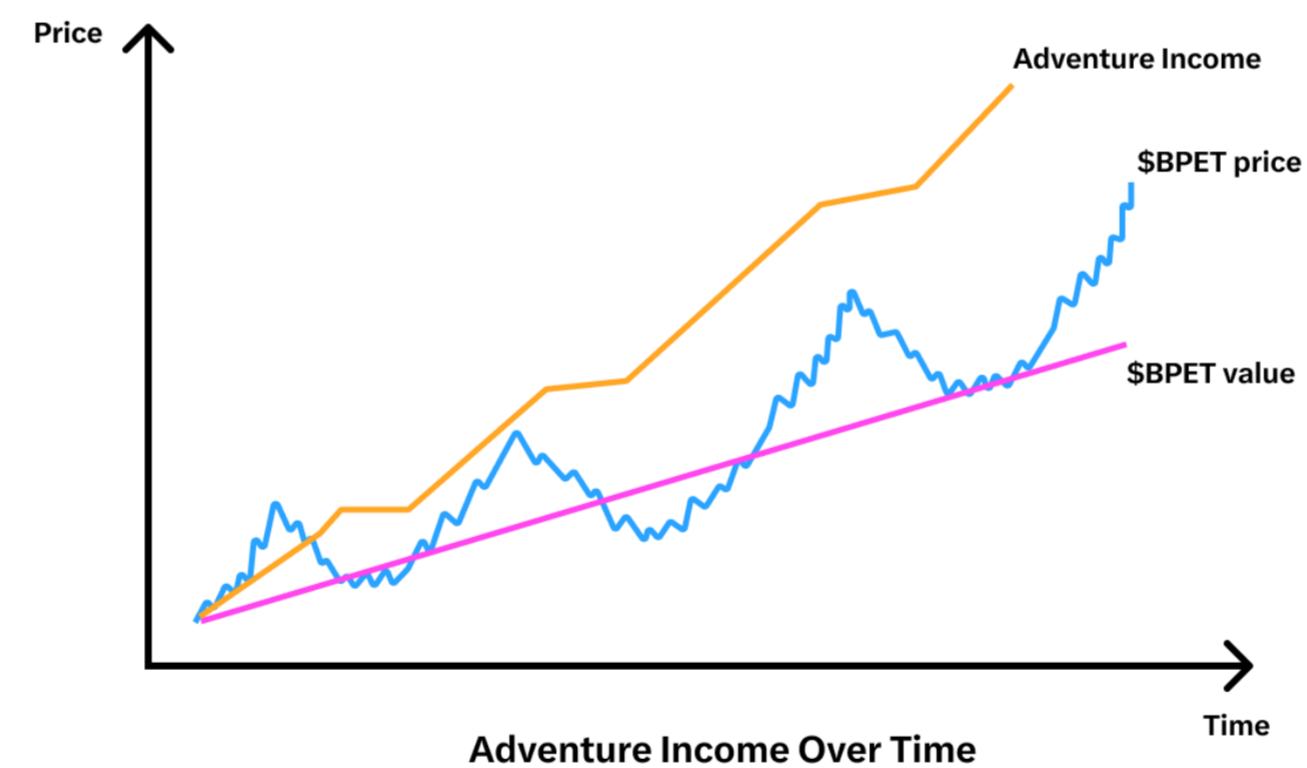

The rewards in Adventure primarily consist of \$BPET. This \$BPET amount is derived from 10% of the total revenue generated from purchases in our store, Pet upgrades, and Factory upgrades from the previous day (refer to the [Revenue Sharing](#) section for more details).

This 10% of total revenue in \$BPET is evenly distributed among the Tiers in Adventure based on the proportion of players in each Tier. The higher the level of the Pet, the more \$BPET it will receive as a reward in Adventure. Tier 2 Adventure will always have more rewards than Tier 1.

Additionally, there is a chance to receive xEGG fragments ranging from 1 to 5 stars when participating in Adventure. These xEGG fragments can be combined to create NFT xEGG ranging from 1 to 5 stars.

[read more about xEGG fragments here](#)

Adventure economy

Adventure will be a new way for you to earn \$BPET, providing a stable and gradually growing source within the project. We will compile eligible participants for Adventure into a leaderboard (points on the leaderboard will be calculated based on the number of pets you own, their levels, factory levels, and the number of boosters you have received). We will allocate 10% of the total revenue from the previous day's upgrade activities, pet purchases, etc., to reward participants in Adventure. This will bring special benefits to those who participate from the beginning, gradually increasing their income with the project's user growth.

With this economic direction, the price of \$BPET will experience cyclical fluctuations, but the value of \$BPET is expected to grow in the long term. Accordingly, the rewards for Adventure will also experience long-term growth.

xEGG fragment

The xEGG fragments will be an asset in xPet.tech's new game. The egg fragments range from 1 to 5 stars, and after being collected, they will appear in your Bag. Once you gather enough egg fragments, you can combine them into an xEGG NFT. When we introduce the egg-opening feature, you'll be able to open these xEGG NFTs and receive items ranging from common to rare, extremely rare, and even unique. These items will hold significant value in xPet.tech's gameplay modes.

The total supply of xEGG NFTs will be 10,000. Their rarity will be distributed as follows:

Rarity	Percentage on Total supply	Equivalent NFTs
1-star xEGG	50%	5000
2-star xEGG	30%	3000
3-star xEGG	14%	1400
4-star xEGG	5%	500
5-star xEGG	1%	100

 More information about xEGG will be updated

Earn together

"Earn Together" is a powerful component of our referral system. It's designed to foster community and mutual benefit among participants.

Invitation Code System:

To become a part of the xPet.Tech community, individuals are required to enter an invitation code from an existing member. This code establishes a direct link between the new member and their referring sponsor.

← Home

Your invite	Reward from Booster
15	 5356
Copy invite code	xpet_c07f72a9 

Those who enter referral codes are referred to as "Referrals." On the other hand, individuals whose codes are entered by others become known as "Sponsors." This establishes a connected network of users, each with the potential to amplify their rewards.

Booster Earnings for Both User and Sponsor:

The magic happens when a user spends BPET tokens. In this scenario, both the user and their sponsoring member experience an increase in their earnings within the Booster, enhancing their overall rewards.

Duration of Booster Benefit:

This enhanced earning opportunity lasts for 7 days. During this period, both the user and their sponsor reap the benefits of this collaborative effort.

 To be eligible for the Booster rewards, the Sponsor needs to make sure that their Invitee satisfies one of the following conditions:

- Purchase a Pet from our Store.
- Buy BPET on the trading system (CEXs, DEXs) to upgrade your free Pet.
- If the Invitee is a free player aiming to open a chest to receive BPET and then use them to upgrade their Pet, the Invitee's pet must reach at least Level 7 for the Sponsor to receive benefits from Earn together.

This ensures that participants are actively engaged in the xPet.Tech ecosystem.

"Earn Together" encapsulates the spirit of shared success within the xPet.Tech community. By introducing new members through referral codes, users and sponsors alike enjoy an elevated earning experience. Remember, to fully harness this feature, ensure the invitee has an eligible pet. Together, we elevate the xPet.Tech experience and celebrate mutual growth and prosperity.

Marketplace

:

The xPet.Tech Marketplace is a dynamic platform specially crafted for players to engage in the trading of their beloved virtual Pets. It's a decentralized market exclusively tailored for xPet.Tech enthusiasts.

The Marketplace is a bustling hub where players can come together to buy, sell, and exchange their virtual Pets. This vibrant space enables the xPet.Tech community to actively participate in the dynamic world of virtual pet trading.

The Marketplace is an ecosystem reserved solely for xPet.Tech players. This exclusivity ensures that all transactions are conducted within the community, creating a secure and specialized environment for pet trading.

Fee

For each successful transaction that takes place within the Marketplace, a nominal transaction fee of 0.5% is collected. This fee is a crucial source of revenue for the xPet.Tech project. The collected fees are strategically accumulated in a dedicated reward fund.

Revenue sharing

The accumulated fees serve a noble purpose - they're channeled back into the xPet.Tech community. The reward fund becomes a reservoir of resources that are reinvested to enrich the xPet.Tech experience. This can take the form of events, giveaways, or other community-focused initiatives.

The xPet.Tech Marketplace embodies the spirit of community and collaboration. It provides a secure and specialized platform for players to trade their virtual Pets, fostering a vibrant ecosystem of virtual pet enthusiasts. With every transaction, the project's revenue is reinvested back into the community, ensuring a sustainable and thriving xPet.Tech experience for all.

Borrow

The borrowing feature offers a unique opportunity for users to leverage their Ethereum (ETH) holdings as collateral to acquire XPET tokens.

The screenshot shows the 'Borrow' interface. At the top, there are tabs for 'Borrow' and 'Repay'. Below this is the 'Borrow A' section with the text: 'You can borrow A by collateralizing your ETH at 0% interest. You can receive your ETH back whenever you want securely'. The interface includes two input fields: 'Input Collateral' with a value of 0.00 ETH (worth \$123.45) and 'You received' with a value of 0.00 XPET (worth \$123.45). A vertical slider is positioned between these fields. Below the inputs is a 'Borrow' button. At the bottom, there is a 'Borrow History' table with the following data:

Create Date	Paid Date	Collateral	Loan Amount	Status
19/10/2023	19/10/2023	123 ETH	123 BPET	Paid

Using ETH as Collateral:

The borrowing system allows users to use their Ethereum (ETH) holdings as collateral. This means that users can temporarily lock in a portion of their ETH assets to access XPET tokens.

Collateral Value Limit:

Users can borrow up to a maximum of 85% of the value of the ETH they provide as collateral. This ensures a responsible borrowing limit while allowing users to make the most of their existing assets.

Receiving XPET Tokens:

Once the ETH collateral is successfully deposited, users receive a corresponding amount of XPET tokens in return. These tokens can be used within the XPET.tech ecosystem for various purposes.

Repayment with XPET Tokens:

To retrieve the collateralized ETH, users are required to repay the borrowed XPET tokens. This process essentially functions as a means of repayment. By using XPET tokens, users can reclaim their original collateral.

The screenshot shows the 'Borrow' interface with the 'Repay' tab selected. The 'My Borrow' section displays the following information: Collateral: 100 ETH, Debt: 90 XPET, and APY: 0%. A 'Repay' button is visible. Below this is the 'Borrow History' table with the following data:

Create Date	Paid Date	Collateral	Loan Amount	Status
19/10/2023	19/10/2023	123 ETH	123 BPET	Paid

The borrowing feature in xPet.Tech opens up exciting opportunities for users to leverage their existing ETH holdings to access XPET tokens. It's a way to make the most of your assets and actively participate in the xPet.Tech ecosystem. By utilizing this feature responsibly, users can unlock additional value and enhance their overall experience within the platform.

Borrow Policy

⋮

Eligibility

Users must meet the following criteria to be eligible for borrowing token XPET by collateralizing token ETH:

- a. Possession of a verified account on our platform.
- b. Ownership of a sufficient amount of token ETH to serve as collateral.
- c. Adherence to all relevant regulatory requirements and platform-specific terms of use.

Collateral Requirements

- a. Token ETH is the only accepted collateral for borrowing token XPET.
- b. The collateralization ratio is set at 111% , meaning that users must provide collateral worth at least 111% of the borrowed amount in token XPET.
- c. The platform reserves the right to adjust the collateralization ratio based on market conditions.

Borrowing Limits

- a. The maximum borrowing limit is determined based on the value of the provided token ETH collateral and the current collateralization ratio.
- b. Users may not borrow an amount exceeding the established limit.

Interest Rate

- a. The interest rate for borrowing token XPET against token ETH is 0%.
- b. This rate is subject to change at the discretion of the platform.

Repayment

- a. Borrowed amounts must be repaid in token XPET.
- b. Users have the flexibility to repay the borrowed amount at any time.

Liquidation:

- a. The ratio between collateral assets and borrow assets is hereinafter referred to as the collateralization ratio.
- b. If the collateralization ratio changes due to market fluctuations, leading to the value of the collateral assets being equal to or less than the value of the borrowed assets, the platform reserves the right to liquidate the collateral to cover the outstanding loan.

Risk Disclosure:

- a. Borrowers are advised to carefully consider the risks associated with borrowing against their token ETH collateral, as market volatility can affect the value of both the borrowed token XPET and the collateral.

Regulatory Compliance:

- a. Users are responsible for ensuring compliance with all applicable laws and regulations governing borrowing activities on the platform.

Platform Discretion:

- a. The platform retains the right to modify, update, or terminate the borrowing policy at any time, with or without prior notice.

By participating in the borrowing process, users acknowledge that they have read, understood, and agreed to adhere to this Borrowing Policy. Failure to comply with the policy may result in the suspension or termination of borrowing privileges on the platform.

Staking

Staking in xPet.Tech is a powerful mechanism that allows users to put their BPET tokens to work and earn additional BPET interest.

Stake BPET Tokens:

Staking involves the process of locking in a certain amount of BPET tokens. This action signifies your commitment to holding and growing your BPET holdings over a specific period.

Earning BPET Interest:

By staking your BPET tokens, you become eligible to earn BPET interest. This means that you'll receive additional BPET tokens as a reward for holding onto your existing BPET assets.

Duration and Interest Rates:

The duration for which you choose to stake your BPET tokens directly impacts the interest rates you'll receive. Specifically, staking periods of 30, 60, and 120 days correspond to Annual Percentage Rates (APRs) of 20%, 40%, and 60%, respectively.

Duration (Days)	APR (Interest Rate)
30	20%
60	40%
120	60%

Opting for longer staking periods offers higher APRs, providing users with an incentive to commit to holding their BPET tokens for extended durations.

Flexibility in Staking Durations:

Users have the flexibility to choose the staking duration that aligns best with their preferences and investment strategy. Whether it's a short-term commitment or a longer-term approach, xPet.Tech accommodates various timeframes.

 You're able to claim your \$BPET reward before the staking duration concludes. Yet, for the initially staked funds, you'll need to wait until the designated time period has elapsed before claiming them. This allows for flexibility in accessing rewards while ensuring the integrity of the staking process.

Staking in xPet.Tech is a strategic way to maximize the potential growth of your BPET holdings. By staking for specific durations, you're able to earn BPET interest at competitive rates. This feature empowers users to actively participate in the growth of their BPET assets and enhance their overall experience within the xPet.Tech ecosystem.

Convert

Converting \$BPET to \$XPET

xPet.Tech's conversion system provides users with a straightforward way to switch between \$XPET and \$BPET assets. Here's how it works:

Converting \$BPET to \$XPET:

The conversion system in xPet.Tech allows users to easily convert \$BPET to \$XPET tokens.

The screenshot displays the 'Convert XPET to BPET' interface. It features two main sections: 'Input' and 'You received'. The 'Input' section shows 1234 BPET (worth \$123.45) with a dropdown menu set to BPET and an 'Available: 0.000124 MAX' indicator. The 'You received' section shows 1234.5 XPET (worth \$123.45) with a dropdown menu set to XPET. A 'Convert' button is located below the input section. Below the conversion interface is a 'Convert History' table with the following data:

Date	Amount	Recieve	Status
19/10/2023	1234 BPET	1234.5 XPET	Done
19/10/2023	1234 BPET	1234.5 XPET	87%
19/10/2023	1234 BPET	1234.5 XPET	Done
19/10/2023	1234 BPET	1234.5 XPET	Done

Managing Daily Allocations and Preventing Inflation

Every day, a specific supply of \$XPET is allocated to support the conversion of \$BPET to \$XPET. (Refer to the [Revenue Sharing](#) section for more information.)

To control the supply of \$XPET released into circulation and prevent long-term inflation of the \$XPET currency, we must tightly design all actions related to introducing additional \$XPET into circulation. Since the allocated amount of \$XPET for withdrawal through the conversion mechanism is fixed daily, while the user demand is dynamic, we will implement a queuing mechanism for those wanting to convert \$BPET to \$XPET.

Queue System and FCFS Mechanism

Each user can only execute a conversion order of 100 \$BPET at a time. After their withdrawal order is completed, they can place another conversion order. Each user placing a conversion order is considered to be in the queue. The larger the queue, the longer the number of days it may take to receive the \$BPET tokens. This follows the First Come First Serve (FCFS) mechanism widely applied in the crypto market.

This functionality provides flexibility in managing your digital assets. You can convert \$BPET to \$XPET whenever you want, or you can directly sell \$BPET on decentralized (DEXs) or centralized exchanges (CEXs).

Revenue Sharing

In xPet.Tech, the Revenue Sharing system is a fundamental mechanism that ensures the community benefits from the platform's success. Here's how it works:

Our revenue in the game will come from two main sources: \$XPET and \$BPET. Here is the revenue breakdown for each type of token we collect:

\$XPET

- **Project's Share of Revenue:**

To support the ongoing development and enhancement of the platform, 5% of the total revenue generated is allocated to the xPet.Tech project. This portion is allocated for the continuous improvement and expansion of the platform's offerings.

- **XPET Fund for Community Growth:**

We will leave 50% aside for marketing purposes, rewarding users through special events, or events that help grow users.

- **BPET to XPET Conversion:**

The remaining 45% of the revenue is allocated to converting BPET tokens back into XPET tokens. The quantity of XPET tokens available for conversion is equivalent to 45% of the XPET revenue earned the preceding day.

\$BPET

- 10% will be used to distribute rewards to [Adventure](#)
- 1% will go to the Team
- 5% will be used to reward Staking \$XPET
- 84% will be burned

Roadmap

⋮

Roadmap for xPet.tech - Next 3 Months

1. Adventure (PvE) - Week 1 (Dec 21 - Dec 28, 2023):

- Launch Adventure (Player vs Environment) feature.
- Allow users to engage their pets in exciting adventures.

2. PvP Beta Version (Private) - Weeks 2-3 (Dec 29, 2023 - Jan 11, 2024):

- Develop and release the Beta version of Player vs Player (PvP) feature.
- Limited access for private testing by the internal team to identify and address potential issues.

3. PvP Ver1 (Public) - Week 4 (Jan 12 - Jan 18, 2024):

- Release the first public version of the PvP feature.
- Allow users to participate in PvP battles with enhanced features.

4. PvP Ver2 (Completion) - Weeks 5-6 (Jan 19 - Feb 1, 2024)

- Finalize and complete the PvP feature based on user feedback and testing.
- Introduce additional elements and improvements to enhance the PvP experience.

5. Multichain - Weeks 7-9 (Feb 2 - Feb 22, 2024):

- Begin the implementation of Multichain support.
- Explore and integrate compatibility with multiple blockchain networks to enhance flexibility.

6. More Social Fi Features -Weeks 10-12 (Feb 23 - Mar 14, 2024):

- Introduce additional Social Finance (Social Fi) features.
- Enhance the social and interactive aspects of the platform to provide a more engaging experience.

 Note: The provided timeline is an estimate, and adjustments may be made based on development progress, user feedback, and market conditions. The roadmap aims to provide a general overview of key features and updates planned for the next three months. The roadmap will be updated every 3 month due to the unpredictable of the market

Term of use

Welcome to xPet.Tech! These Terms of Use govern your use of our website and platform. By using xPet.Tech, you agree to comply with these terms and conditions.

1. Acceptance of Terms

1.1. By accessing or using xPet.Tech, you agree to be bound by these Terms of Use and all applicable laws and regulations.

2. User Eligibility

2.1. You must be of legal age in your jurisdiction or have the necessary parental or guardian consent to use xPet.Tech.

3. User Accounts

3.1. You are responsible for maintaining the confidentiality of your account credentials and are liable for any activities conducted through your account.

4. Content

4.1. Users may generate content on xPet.Tech. You retain ownership of your content but grant us a non-exclusive license to use, reproduce, and distribute it.

5. Prohibited Activities

5.1. You agree not to engage in any activities that violate applicable laws, regulations, or these Terms of Use.

6. Intellectual Property

6.1. All content, trademarks, and intellectual property on xPet.Tech belong to us and may not be used without prior written consent.

7. Privacy

7.1. Your privacy is important to us. Our Privacy Policy outlines how we collect, use, and disclose your personal information.

8. Third-Party Links

8.1. xPet.Tech may contain links to third-party websites. We do not endorse or have control over these sites and are not responsible for their content.

9. Termination

9.1. We reserve the right to terminate or suspend your account and access to xPet.Tech for any reason, without prior notice.

10. Limitation of Liability

10.1. To the extent permitted by law, we shall not be liable for any direct, indirect, incidental, consequential, or punitive damages.

11. Changes to Terms

11.1. We reserve the right to modify or update these Terms of Use at any time. It is your responsibility to review them periodically.

12. Contact Us

12.1. If you have any questions or concerns regarding these Terms of Use, please contact us at Support@xPet.Tech

Privacy Policy

⋮

Welcome to xPet.Tech! We value your trust and are committed to protecting your privacy. This Privacy Policy explains how we collect, use, and safeguard your information.

1. Information Collection

1.1. **User-Provided Information:** We may collect information that you provide directly to us, including but not limited to username and any additional information you choose to provide. We will ask you which type of data you want to provide in case we need to collect. Users have the right to decline the data collection request.

1.2. **Extension Data:** Our extension ONLY collect data within the scope of permissions granted by the user. Which are Twitter (X) Usernames and Twitter (X) Avatar Picture. This data is strictly limited to ensure the proper functioning of the xPet.Tech platform.

1.3. **Data Declaration:** Excluding the conditions outlined in sections 1.1 and 1.2 regarding data collection, we will NOT collect nor use user's data. User data will not be sold to third parties, except within the [approved use cases](#) of Chrome Web Store. It will not be employed or transferred for purposes unrelated to the core functionality of the item, nor will it be used or transferred to assess creditworthiness or for lending purposes.

2. Use of Information

2.1. We use the information collected to:

- Operate and maintain the xPet.Tech platform.
- Personalize and enhance your user experience.
- Communicate with you, including responding to your inquiries or providing updates.
- Analyze usage patterns and improve our services.

3. Data Security

3.1. We implement industry-standard measures to protect your information from unauthorized access, alteration, disclosure, or destruction.

4. Information Sharing

4.1. We do not share, sell, or transfer your personal information to third parties under any circumstances.

5. Extension Data Usage

5.1. Our extension only collects data necessary for its intended purpose, as outlined in the permissions granted by the user.

5.2. We do not collect any personal data outside the xPet.Tech platform.

6. Data Retention

6.1. We retain your information for as long as necessary to fulfill the purposes outlined in this Privacy Policy, or as required by law.

7. Third-Party Links

7.1. xPet.Tech may contain links to third-party websites. We are not responsible for the privacy practices or content of these sites.

8. Updates to this Policy

8.1. We may update this Privacy Policy from time to time. Any changes will be reflected on this page.

9. Contact Us

9.1. If you have any questions or concerns regarding this Privacy Policy, please contact us at Support@xPet.Tech
