We’re excited to share that Oobit is officially migrating $OBT to Solana!

The new token launches on November 12, marking a major milestone in building a more efficient and community-driven token economy.

Here's everything you need to know 👇

3 6 2.4K

Oobit @oobit · Nov 9

📅 Key Dates
• Nov 9 → Migration portal opens
• Nov 12 → Token Generation Event (TGE) and snapshot taken
• Nov 19 → Migration portal closes & $OOB airdrop to eligible wallets

2 1 7 2.3K

Oobit @oobit · Nov 9

🧭 Migration Details
• The migration portal opens Nov 9 and runs for 10 days
• A snapshot will be taken at TGE (Nov 12)
• Only tokens held or migrated before the snapshot are eligible
• You can still migrate for 1 week after, but any $OBT bought or moved post-snapshot won't

Oobit @oobit · Nov 9

🪂 Airdrop Mechanism
After Nov 19, a single $OOB airdrop will be distributed to all eligible wallets that burned their old tokens through the portal.

✅ No ongoing swaps
✅ No second snapshot
✅ One-time distribution — clean, simple, final.

⚙️ How to Migrate
1️⃣ On Nov 9, visit the official migration portal → migration.oobit.com
2️⃣ Connect your wallet holding $OBT
3️⃣ Follow the on-screen steps to burn your $OBT
4️⃣ That's it — after Nov 19, you'll receive your new $OOB tokens 1:1 via airdrop

🚨 Final Reminders
• Snapshot occurs Nov 12
• Migration open until Nov 19
• Tokens bought/moved after snapshot will not be eligible
• Old $OBT will be deprecated and CEX support will end
• Only use official links — beware of scams!

This migration framework ensures a clear, fair, and final process.
By anchoring eligibility to a single snapshot and closing migration shortly after, we minimize confusion and prevent arbitrage.

Thank you to our community — Oobit's next chapter starts now. 🌍✨
