# About Us

## Who We Are

At the forefront of the green revolution, CBD Global Token is redefining the future of hemp. Born from a fusion of organic agriculture, blockchain innovation, and a commitment to sustainability, we're not just cultivating hemp—we're cultivating change.

Nestled in the fertile heart of Sardinia, our mission is to transform the hemp market into an ecosystem of transparency, equity, and environmental respect. Each CBD Global Token represents more than an investment; it's a stake in a sustainable future, marrying ancient agricultural wisdom with cutting-edge technology.

We believe in a future where farming nourishes the earth. Our platform guarantees total transparency, from seed to sale, offering investors not just unparalleled economic returns but the assurance of contributing to a truly sustainable venture.

Join us. With CBD Global Token, you're not just investing in hemp. You're investing in the planet's future.

# About Us

## The Project

**CBD Global Token** presents an unparalleled opportunity to enter the thriving hemp market, blending tradition with technological innovation. With a maximum supply of 250,000 tokens, each initially valued at €25, we guarantee not just direct participation in the production of high-quality hemp but also an exceptional economic return.

### Why is CBD Global Token Unique?

**Token = Plant:** Each CBD Global Token purchased corresponds to a hemp plant, from seeding to the finished product, with an estimated yield of 300/800g of flowers per plant. This direct link between your investment and physical production offers you a tangible and significant stake in the hemp lifecycle.

**Incredible Economic Return:** With the market price of flowers ranging between €350 and €700 per kg, we promise a guaranteed economic return of 1000% in just 6 months. This extraordinary profit prospect makes investing in CBD Global Token not only attractive but potentially life-changing for your finances.

# About Us

## The Project

**Global Sales Network:** Thanks to our worldwide partnerships, every investor is guaranteed the sale of the finished product, along with the ability to exchange the currency for goods and services in the hemp sector. This global access opens uncharted doors, offering you a unique advantage in the market.

**Smart & Traceable Cultivation:** Our innovative platform enables real-time monitoring of plant growth, ensuring total transparency and investment security. This level of control and visibility is crucial for ensuring investor confidence and peace of mind.

**Eco-Sustainability:** We cultivate exclusively organically, without the use of pesticides, on the fertile lands of Sardinia, recognized for their superior hemp production. This commitment to eco-sustainability not only respects the environment but also ensures that the final product is of the highest possible quality.

# About Us

## The Project

### **Exponential Growth Potential at Launch:**

At launch, CBD Global Token is positioned for exponential value growth, offering investors an additional source of income beyond the direct return from hemp agriculture. The unique combination of a limited token supply, the innovative link between tokens and physical hemp production, and the broad global interest in sustainable and responsible investments lay the foundation for a significant increase in token value as soon as it hits the market. This anticipated rise not only reflects the trust and intrinsic value of our project but also offers initial investors the chance to realize significant gains on their initial stake. Investing in CBD Global Token at launch means positioning yourself advantageously to capitalize on this growth, leveraging market dynamics in favor of your portfolio.

**Investing in CBD Global Token means embracing a future where sustainability and economic return go hand.**

# Roadmap

## Phase 1

### website creation

Launching our digital gateway: an intuitive platform that simplifies token purchases . A pivotal step towards transparency in the hemp revolution.

### CBDG Presale

Exclusive early access to CBDG tokens with special benefits, including preferential pricing and early rewards.

# Roadmap

## Phase 1

### Social Media Creation

Establishing our digital presence to connect, engage, and grow our community across platforms.

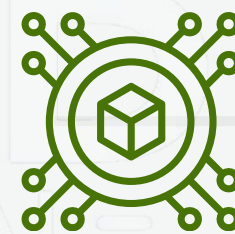

### Initial Marketing

Kicking off targeted campaigns to build buzz and attract early supporters to our green revolution.

# Roadmap

## Phase 1

### Token Launch

Unveiling CBDG tokens to the world, a milestone event that democratizes investment in the hemp industry, empowering participants to join our sustainable revolution from the ground up.

# Roadmap

## Phase 2

### Buying Top Quality Cuttings

Securing elite hemp cuttings to ensure superior crop quality and potency, laying the foundation for our premium product line.

### Start to work and prep the field

Initiating groundwork to cultivate our fields, optimizing conditions for the growth of premium hemp plants.

# Roadmap

## Phase 2

### Assign plant ID code to each owner

Allocating unique ID codes to each owner, linking investors directly with their hemp plants for unparalleled transparency and engagement.

### Start growing cuttings on June 1st

Beginning the cultivation of our cuttings on June 1st, marking the start of a new growth cycle for premium hemp production.

# Roadmap

## Phase 2

### Install real-time video surveillance

Implementing state-of-the-art video surveillance to monitor cultivation in real-time, ensuring security and transparency throughout the growth process.

# Roadmap

## Phase 3

### Marketing Push

Launching an aggressive marketing campaign to maximize visibility and drive engagement, propelling our project to the forefront of the hemp industry.

### Exchange Listings

Securing listings on leading exchanges to enhance CBDG token liquidity and accessibility, broadening our investor base.

# Roadmap

## Phase 3

Achieving a milestone listing on CoinMarketCap, significantly increasing visibility and credibility within the cryptocurrency community.

Securing a spot on CoinGecko, boosting our project's exposure and trust among investors and the broader crypto ecosystem.

# Roadmap

Phase 4
