🚨 **Important update for ASTRAFER holders on Ethereum** 🚨

We're transitioning our ASTRAFER token bridge to LayerZero to establish a more secure and functional bridge between Polygon and Ethereum.

💥 Next snapshot scheduled soon. No action needed from you.

🔄 Only Ethereum ASTRAFER affected. Polygon remains unchanged.

📫 New tokens post-snapshot will be auto-distributed.

👀 New contract address:
0xb51b97dd5569fab69495316b5a065cccff4b829d

If you have any questions, Rangers, head over to Discord or Zendesk, and get in touch with the team 🫡
