BAG Token Migration Guide

Migration info and how to convert your tokens

Bag Intern
February 27, 2024

f X in

Today marks the beginning of a new era.

Following the passed governance proposal, Decentral Games is migrating its tokens and unifying the community under BAG: the Metaverse coin of the people.

The token migration is now live and you can convert your DG and ICE tokens for BAG. To make this transition as simple as possible, Decentral Games has set up a Token Migration page that walks you through the process.

Read below for info about the migration and how to covert your tokens.

Table of Contents

- What's BAG?
- Token Migration Rates
- How to Migrate to BAG
- FAQ

What's BAG?

The BAG token powers the BAG ecosystem and is used in all integrated apps.

Decentral Games is the first builder in the ecosystem and will integrate BAG into their games: use BAG to play casino games, boost your rewards, vote on key decisions, and more.

Additional utility will be added as adoption grows and the ecosystem evolves. To learn more, read the BAG Token Overview.

There are a total of 8 billion BAG tokens, 1 for every Metaverse citizen in the world. This supply is capped and no additional BAG will be created.

BAG is live on the Blast, Ethereum, and Polygon networks:

- CoinGecko listing
- CoinMarketCap listing

Network	Contract Address
Blast	0xb9dfCd4CF589bB8090569cb52FaC1b88Dbe4981F
Ethereum	0x808688c820ab080a6ff1019f03e5ec227d9b522b
Polygon	0x73b29199a8e4C146E893EB95f18dAc41738a88c6

Token Migration Rates

You can convert your DG and ICE to BAG at the following rates:

- 1 DG = 8 BAG (Ethereum and Polygon)
- 3 ICE = 2 BAG (Polygon only)

To migrate xDG, you must first unstake to get DG:

- Ethereum: Unstake your xDG on the Token Migration page.
- Polygon: Swap your xDG for DG on QuickSwap.

Banked ICE can't be converted to BAG, however you can redeem your Banked ICE for Tickets and Arcade wearables. The Banked ICE Marketplace will remain open until further notice.

In a couple weeks, Shine will be renamed to Tickets for a simpler and intuitive name. This will happen automatically and there's no action will be needed on your part.

Decentral Games Token Migration

How to Migrate to BAG

Converting your tokens is an easy process using the BAG Migration page:

decentral.games/bag/token-migration

Be sure to **only use the official link** posted on this blog and Decentral Games' announcements. Before you start the migration process, verify that you're on the official page.

If you need help, follow our video guide below.

FAQ

I'm having issues with my swap. What can I do?
Open a support ticket in the Decentral Games Discord and we can help you out.

How long will the migration period be open?
Currently, there's no end date for the migration period.

Will I need to pay gas when converting to BAG?
Yes, you will need to pay gas when converting your tokens.

Why wasn't BAG airdropped instead?
The BAG token is meant to replace DG, xDG, and ICE. Airdropping tokens doesn't achieve this goal.

What will happen to my tokens if I don't migrate?
You will still have your tokens, but they won't be supported in our games and on exchanges.

What can I use BAG for?
Currently, you can use BAG to boost your DG casino rewards and participate in governance. BAG gameplay will be live in the DG Casino soon.

Will there be supply inflation?
No, BAG will have a hard cap of 8 billion.

What network will BAG be on?
BAG will be on Blast, Ethereum, and Polygon. You can migrate on both Ethereum and Polygon.

If I have ICE deposited in my casino account, do I need to withdraw it first to migrate?
We will automatically migrate all ICE deposited in casino accounts at a later date. If you want to migrate early, you would need to withdraw it first.

Will ICE casino bonuses migrate too?
Yes, ICE casino bonuses will be converted to BAG casino bonuses at a later date.

How will wearable upgrades work with the new BAG token?
Wearable upgrades will be paused until further notice.

How do I migrate my Shine?
Shine will be renamed to Tickets at a later date and there is no migration needed.

I have old DG, how do I convert it to the new DG so I can migrate?
Here's how to convert your old DG to new DG:

1. Go to the old DG Token Contract page.

2. Connect your wallet.

3. Expand the **approve** tab.

4. Enter 0x4b520c812e8430659fc9f12f6d0c39026c83588d in the **spender** field.

5. Enter your DG amount (in WEI) in the **amount** field. Use this converter to calculate the WEI amount.

6. Click **Write** to approve your old DG to transfer.

7. Go to the new DG Token Contract page.

8. Expand **goLight** tab.

9. Enter your DG amount (in WEI). Use this converter to calculate the WEI amount.

10. Click **Write** to swap your old DG for new DG.
