ANyONe Protocol
@AnyoneFDN

Current holders can exchange their $ATOR tokens for a new token $ANYONE, issued by The Foundation for Anyone, on a 1:1 basis.

🔹 Holding On-Chain?

You can exchange on the migration dApp. Find it on the link here:
🔗 migration.anyone.io

To exchange, holders should follow the steps to exchange their $ATOR token to receive $ANYONE. This process works for a range of wallet providers including Metamask, TrustWallet and Rabbi.

❕ Note that this migration will be supported for 6 months

🔹 Holding On Exchanges?

Your tokens will be automatically swapped on Kucoin, MEXC and BitGet. No further action is required. Additional exchanges will release details as swap options materialize.
