$FLAY Migration and Acquisition

⚠️ This is only applicable after the token generation event on the 25th September 2024. Please read the Migration Terms of Service before continuing

NFTX/FLOOR $FLAY migration ratio

NFTX and FLOOR token holders will be able to migrate their tokens to $FLAY at a ratio outlined below

Token	$FLAY
1 `NFTX`	`1089.756794998989524828` `$FLAY`
1 `FLOOR`	`216.368783168864108243` `$FLAY`

How to Migrate NFTX / FLOOR for FLAY

1. Go to https://migrate.flayer.io
2. Select which tokens to migrate
3. Approve & Migrate tokens

Migration through Etherscan:

1. Approve `NFTX` and/or `FLOOR` tokens for the migration contract
2. Call swap with the following parameters:
    - `_recipient` Enter the address that will receive `FLAY` ERC 20
    - Convert the NFTX ERC 20 token using `_burnNftx`
    - `_burnFloor` if you want to convert $FLOOR tokens

Name	Value
Migration Contract	`0xE84D23C9F9F69537c1C24C59Fcea2F5164B1e456`
$FLAY Token Contract (Mainnet)	`0xF1A7000000950C7ad8Aff13118Bb7aB561A448ee`
Decimals	18
Network	Mainnet

How to participate/acquire FLAY if you don't own NFTX / FLOOR

FLAY tokens will be swappable on Uniswap at the time of TGE. `$FLAY` is a token on `Mainnet`, and the `$FLAY` Token contract is `0xF1A7000000950C7ad8Aff13118Bb7aB561A448ee`

What is the deadline of the migration

The migration window for NFTX/FLOOR token holders will remain open indefinitely. NFTX/FLOOR token holders that choose to migrate must first agree to the Token Migration Terms and Conditions, which can be found here
