

# Yachtscoin White Paper

---

## Token Details

Token Name: Yachtscoin

Symbol: YTC

Blockchain: Solana

Contract Address: 7NaZ55Pt7Ah3xPsmWRfdEi2mv3dsd9TpHSWhTEt6pump

## Abstract

Yachtscoin (\$YTC) is a luxury-inspired memecoin launched on December 24, 2024, via Pump.fun on the Solana blockchain. Designed to bridge the cryptocurrency market with the luxury yacht industry, Yachtscoin aims to become a widely accepted payment method for yacht purchases, charters, and related services. Our strategy focuses on building high market capitalization and strong liquidity while offering real-world utility like up to 40% cashback on charters and 5% cashback on full yacht purchases. We plan to list YTC on major exchanges, such as Binance, in the second half of 2025 to expand global reach and liquidity.

## Founder's Expertise

The creator of Yachtscoin has over 20 years of experience in selling motor yachts and possesses in-depth knowledge of the global yacht market. This expertise allows for building strong partnerships with shipyards, brokers, and suppliers, ensuring the seamless integration of YTC into real-world yacht transactions. This industry insight gives Yachtscoin a competitive edge in expanding its reach and delivering real value to holders.
