Bunni ✓
@bunni_xyz

It's $LIT ❌
It's $BUNNI ✅

This isn't just a name change. It's a new direction for the protocol.

What's New?

Our identity is sharper, focused on maximizing LP rewards:

• Smarter emissions with $BUNNI incentives for BUNNI/wETH pools on @base, @arbitrum, and Ethereum Mainnet—ensuring strong $BUNNI liquidity.
• 9 Rush Pools (3 on each chain) with fixed APR, no dilution, and first-come, first-served rewards. 🐰⚡

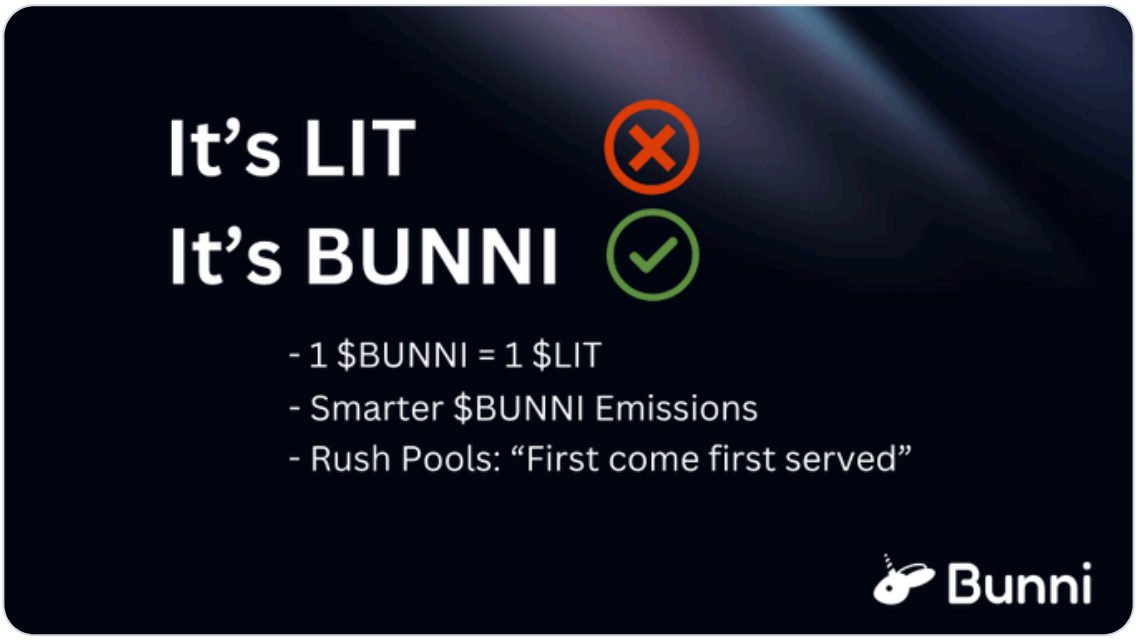

🔄 How to Migrate $LIT to $BUNNI:

1️⃣ Open the bunni.xyz app & connect your wallet.
2️⃣ Go to the Swap UI from bunni.xyz/swap?chain=mai... (Ethereum Mainnet).
3️⃣ Swap your $LIT for $BUNNI with no slippage.

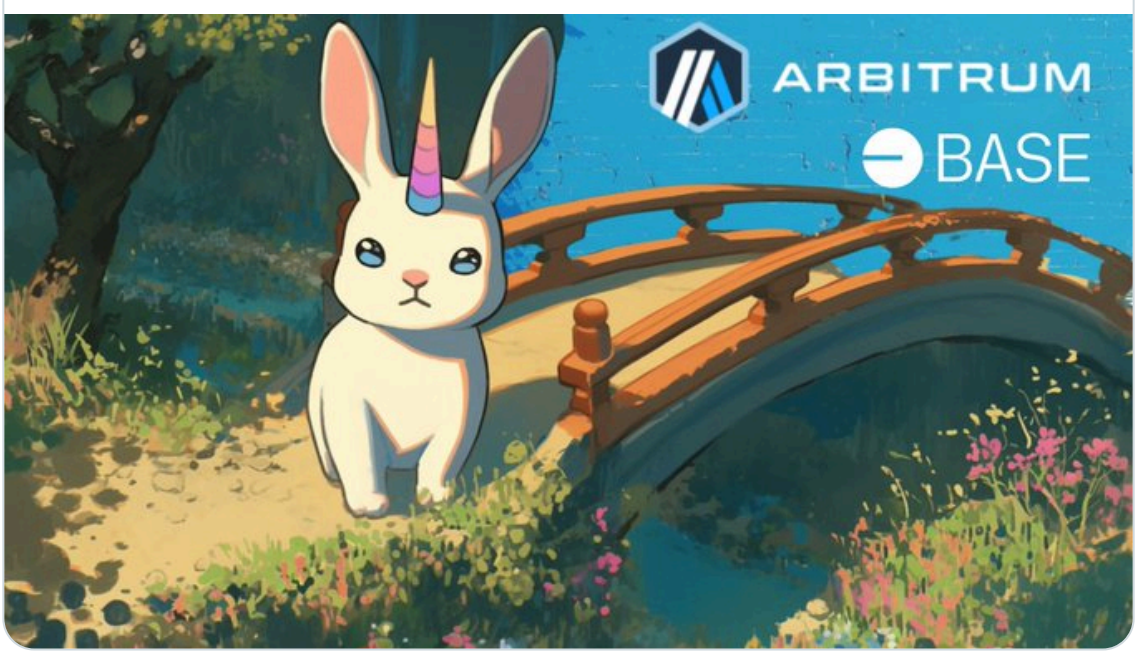

NOTE: $LIT to $BUNNI migration is 1:1 with an eternal conversion period.

The future isn't just bright. It's $BUNNI.
Let's build it together.
