

BACHI - helping you stand on your own two feet!

BACHI Whitepaper

About

BACHI is the hand standing dog putting their best foot forward to help **YOU** reach financial freedom. **At Bachi we move different - literally!**

Unlike the average meme coin, **BACHI** is based on a real dog that can walk on her front legs

– a skill that fewer than 1% of dogs worldwide possess.

As She walks upside-down. WE flip expectations. Because when our dog defies gravity, our potential is limitless!

Introduction

Meet BACHI – the untamed soul of Base.

She doesn't whisper. She screams joy through volatility.

She flips through chaos, jokes during downturns, and brings back the wonder that crypto forgot.

While others chase charts, she chases grins.

She's fun – but make no mistake – she's building something real.

“From front-flips to floor runs – she's built to amaze.”

“BACHI doesn't mimic success. She flips right into it.”

“She doesn't bark hype – she performs it.”

“I'm not a coin. I'm the chaos you needed.”

“Why walk when you can fly?”

“Putting their best foot forward helping you find financial freedom.”

“Positioned like a meme. Executed like a movement.”

“Most meme coins make noise. BACHI makes impact.”

Tokenomics

Total Supply: 690,000,000 \$BACHI

Category	Allocation	Purpose
Liquidity Pool	85%	For decentralized trading and fair market launch
Treasury	7%	Development, tools, marketing, ecosystem growth

- ✔ No Presale
- ✔ No VC Allocation
- ✔ LP Locked for 365 Days
- ✔ Contract Renounced
- ✔ Verified Open Source Contract
- ✔ Community-First Approach

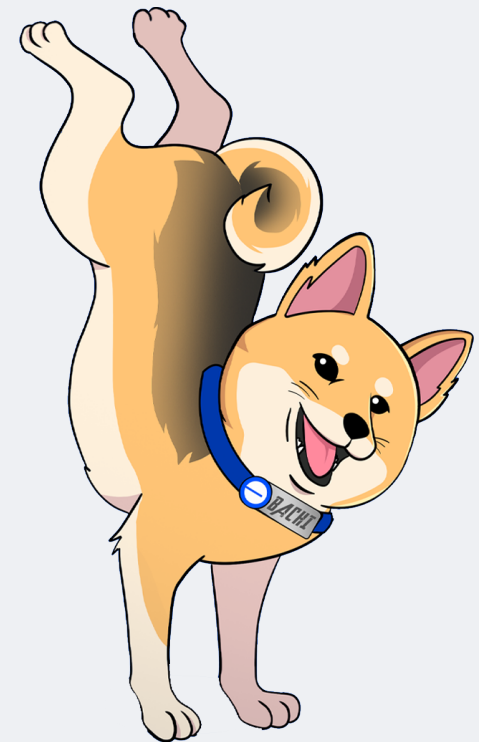

Vision & Ambition

Vision & Ambition

BACHI is not here to compete with other meme coins – she's here to **redefine what's possible** on the Base Chain. Inspired by her real-world ability to do what 99.9% of others can't, she carries the same mission on-chain: **Make the impossible feel achievable. Flip what you thought was normal.**

With the right momentum and community, **a \$1B market cap isn't a dream – it's a route.**

Blockchain & Technology

- **Blockchain:** Base (Layer 2, Optimism, Ethereum-secured)
- **Token Standard:** ERC-20
- **Fees:** Low Gas
- **Speed:** High Transaction Throughput
- **Security:** Contract follows best practices, open source
- **Audit:** Post-launch third-party audit planned

BACHI is built for memes but secured like DeFi.

Ecosystem

BACHI isn't just a token. She's a performer. A meme. A movement.
Her stage is everywhere: **Twitter, Threads, Memes, Markets, Minds.**

Planned Features:

- **BACHI NFTs** - Collectible chaos in Shiba form
- **BACHI Bot** - Discord & Telegram stats + alerts
- **BACHI Shorts** - Animated reels across platforms
- **Merch Drops** - Real-world drip with meme fire
- **BACHI Game** - Arcade-style flipping & community leaderboard
- **and more...**

Community Model

BACHI lives through community. Every meme, every flip, every joke powered by believers.

Fun + Transparency = Trust.

Her philosophy is clear:

No rugs. No secrets. Just chaos, color, and culture.

Expect meme contests, creator grants, open contribution channels and DAO-driven decisions.

"Crypto is culture. And culture needs color."

Roadmap

Phase

Milestones

Q3 2025

Token Launch • Community Onboarding • Meme Campaign • NFT Concept • Reveal

Q4 2025

Expansion to additional DEX & CEX Platforms • Creator Collaborations • First NFT Mint

Q1 2026

BACHI Bot Rollout • Meme Game Alpha • DAO Proposals • Merch Drops

Q2 2026

Utility Expansion • Multichain Options • Real World Asset (RWA) Pilots

Legal Disclaimer

BACHI is a decentralized meme token created for entertainment and community-building.

It does not constitute a financial product, security, or investment advice.

Crypto assets are inherently volatile. Participate at your own risk and always DYOR (Do Your Own Research).
