What is TrustFi?

TrustFi is committed to provide **decentralized BaaS (Blockchain-as-a-Service)** solutions for DeFi market based on **multichain environments (BSC/AVAX-/ETH/Polygon/DOT)**, focusing on **early crypto assets issuance, liquidity management, community activities and DAO governance**. TrustFi is a **Community Driven Incubator, Decentralized VC, Trusted Launchpad, Autonomous DeFi platform, and Long-term Backer**.

How does TrustFi Work?

Featured Platforms powered by TrustFi BaaS ecosystem can work for crypto startups for long term:

TrustFi Loyalty Governance

Activity on TrustFi Network is governed by \$TFI, the network's native token.

TrustFi Loyalty Governance System distributes decision-making power based on each participant's Loyalty Points for DAO function.

TFI Loyalty Points = Staked Amount * $\sqrt{\text{Staking Time}}$

Above formula reflects the loyalty of holders who are ranked accordingly which serves as the basis upon which we build the **Strong Holder Tier System**.

As of now, we have 10,000+ holders, and it's growing.

The screenshot shows the TrustFi Loyalty Ranking List page. At the top, there is a navigation bar with the TrustFi logo and links for 'Why TrustFi', 'Features', 'Partners', 'Roadmap', 'Whitepaper', 'Tokenomics', and a 'Launch App' button. Below the navigation bar, the title 'TrustFi Loyalty Ranking List' is displayed, followed by the formula 'TFI Points = Staked Amount * $\sqrt{\text{Holding Time}}$ ' and a note 'TFI points and keep updated every hour'. A summary box contains five key metrics: TFI Price (0.027\$), TFI in Circulation (100000000), TFI Market Cap (11345000), Total Value Locked (TVL) (2797528.538), and TFI Total Supply (100000000). Below this, there are tabs for 'TOP 100', 'TOP 250', and 'TOP 500', along with a 'Search Wallet' input field. The main content is a table with columns for rank, whitelisted address, staking amount, staking start date, and TFI points. The table lists 12 entries, with the top 6 entries having a staking amount of 87372.47191, 75421, 70100, 60135.81138, 49220.79854, and 43533.92495 respectively. The bottom of the table has a pagination control showing '1 2 3 4 ...'.

	#Whitelisted Address	#Staking Amount	#Staking Start Date	#12.20 TFI Points

Ranking List

TrustFi Booster is an original pre-IDO platform, community-driven incubator and on-chain sponsor to help build and fund the crypto startups (similar in nature to the Decentralized Gitcoin).

Suitable

⚡ Early ideas teams ⚡ Seed round startups ⚡ Pre-IDO stage projects

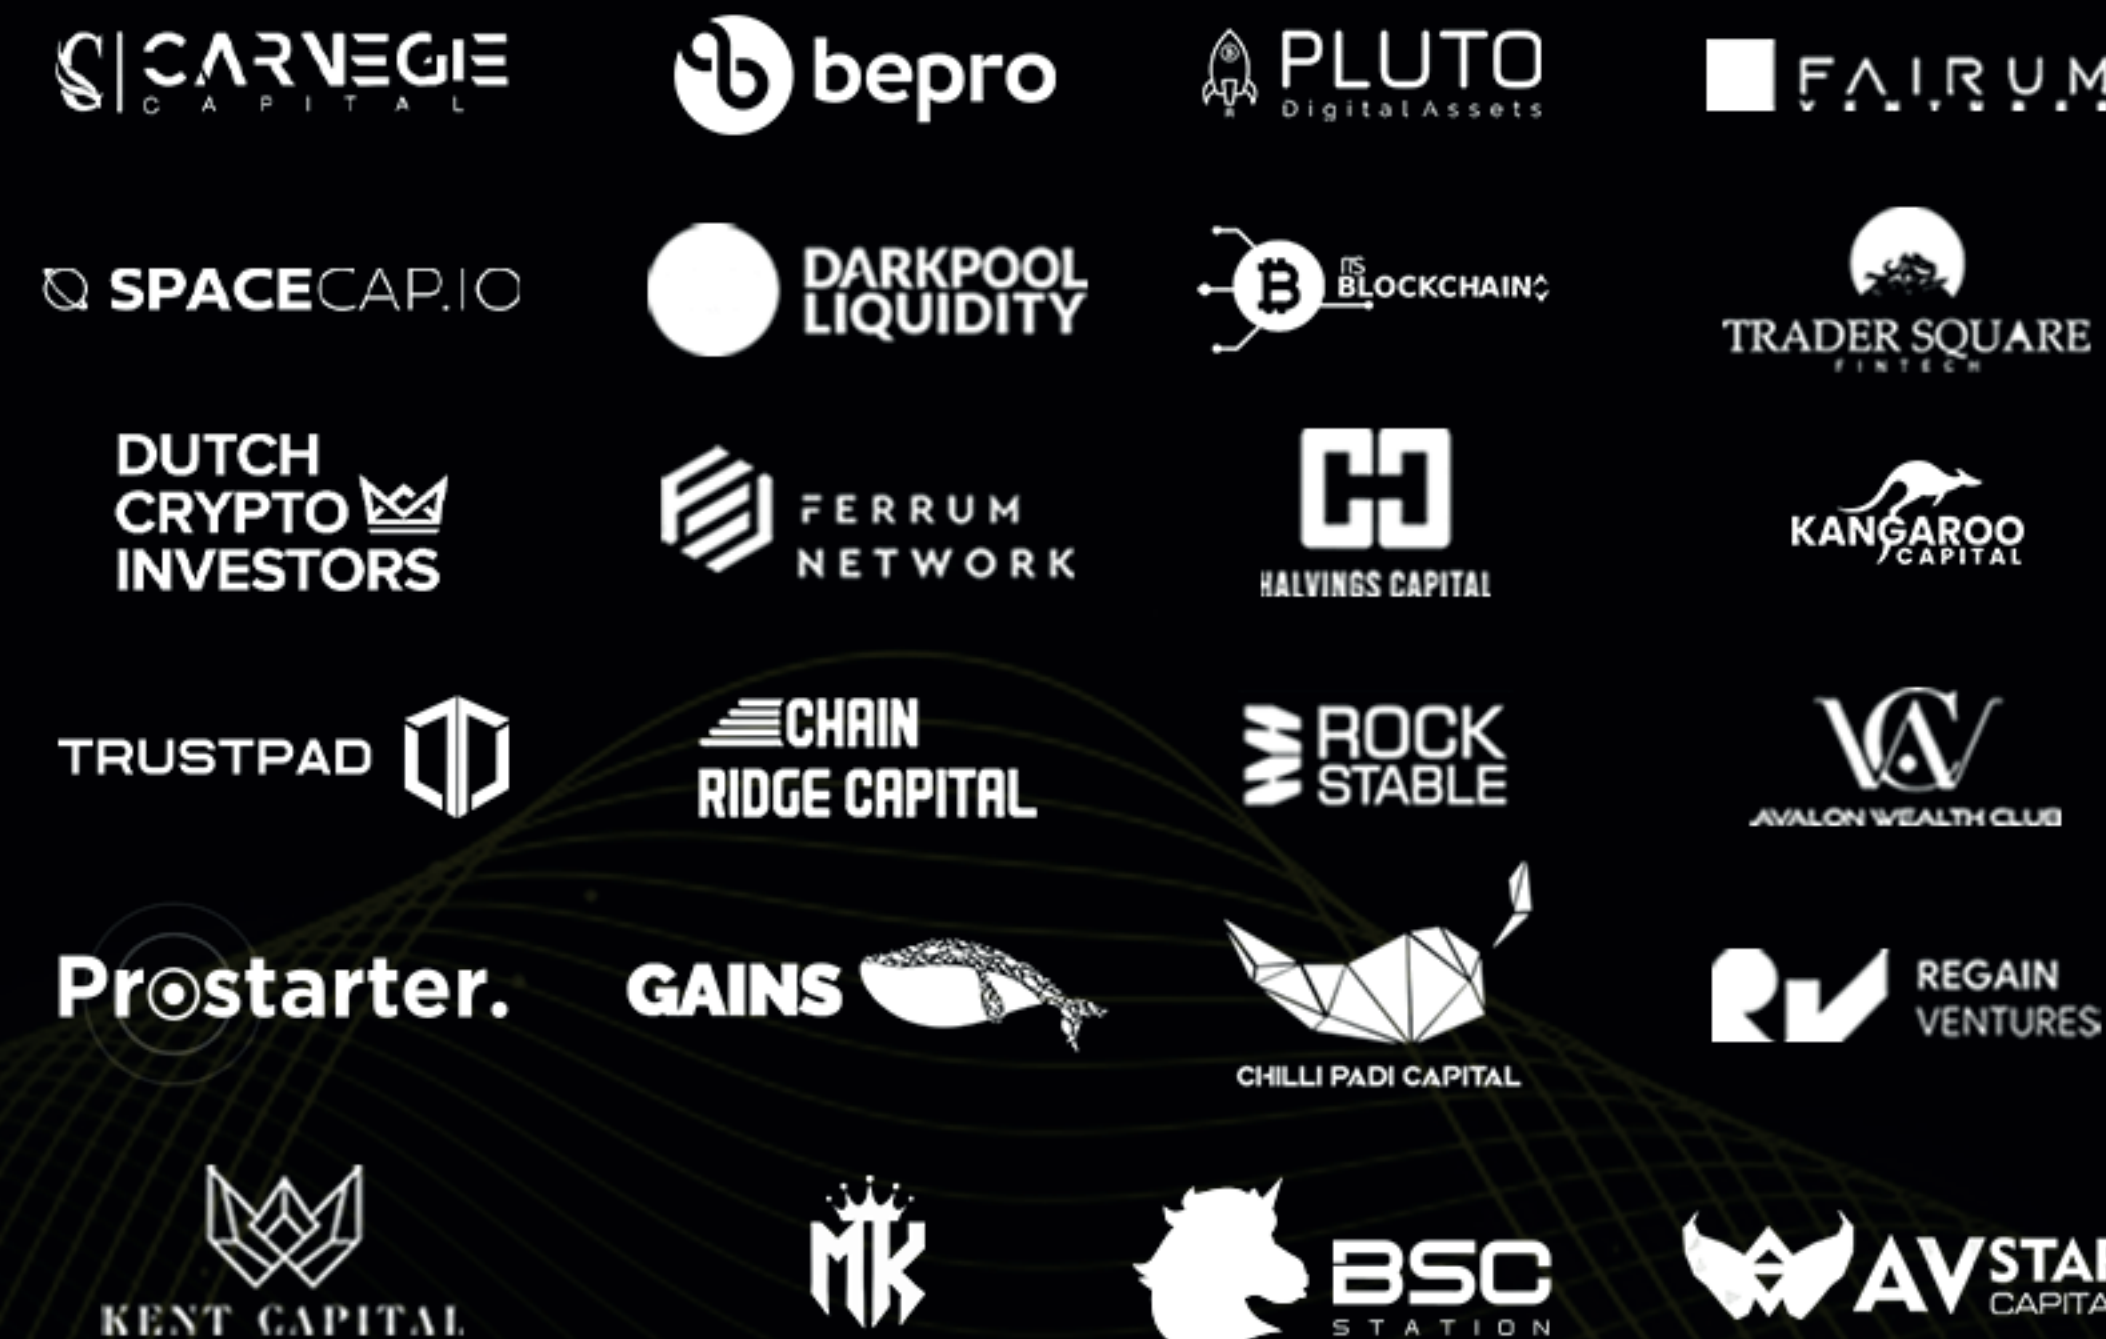

What we can do

- Fundraising in community-driven way
- Help in all aspects of market entry preparation
- Help warm up your projects and build up your communities
- Recommend your projects to LaunchPads for official launch
- Recommend your projects to VCs and KOLs for investment
- TrustFi gets onboard as a long-term backer and advisor

Our Advisors

Our Backers

All sizes of allocations can be fairly distributed to real holders on TrustFi LaunchPad. The **refundable mechanism** protects investors while making the listed project more credible.

Suitable

⚡ Startups ready for IDOs ⚡ TrustFi invested in Seed/Private/IDO round

What we can do

- Launch in Flash IDO or Main IDO format according to the allocations provided
- Ensure fair distribution of your project tokens to real holders based on **Strong Holder Tier System**
- IDO standard Hype and marketing support (Gleams, AMAs, Airdrops, User growth, Leads, etc..)
- Introduction to Global marketing agencies for long-term support
- TrustFi gets onboard as a long-term backer and advisor

ATH	IDO Price	Site	Project
x25 🚀	\$0.12	cheersland.org	
x40 🚀	\$0.0055	meland.ai	
x10 🚀	\$0.10	battlesaga.io	
x???	\$???	???	

IDO Service

- **Main IDO**
\$50k-\$150k fundraising+ 3000 new holders + long-term global marketing
- **Flash IDO ⚡**
\$20k-\$50k fundraising+ 3000 new holders + free short-term hype and marketing

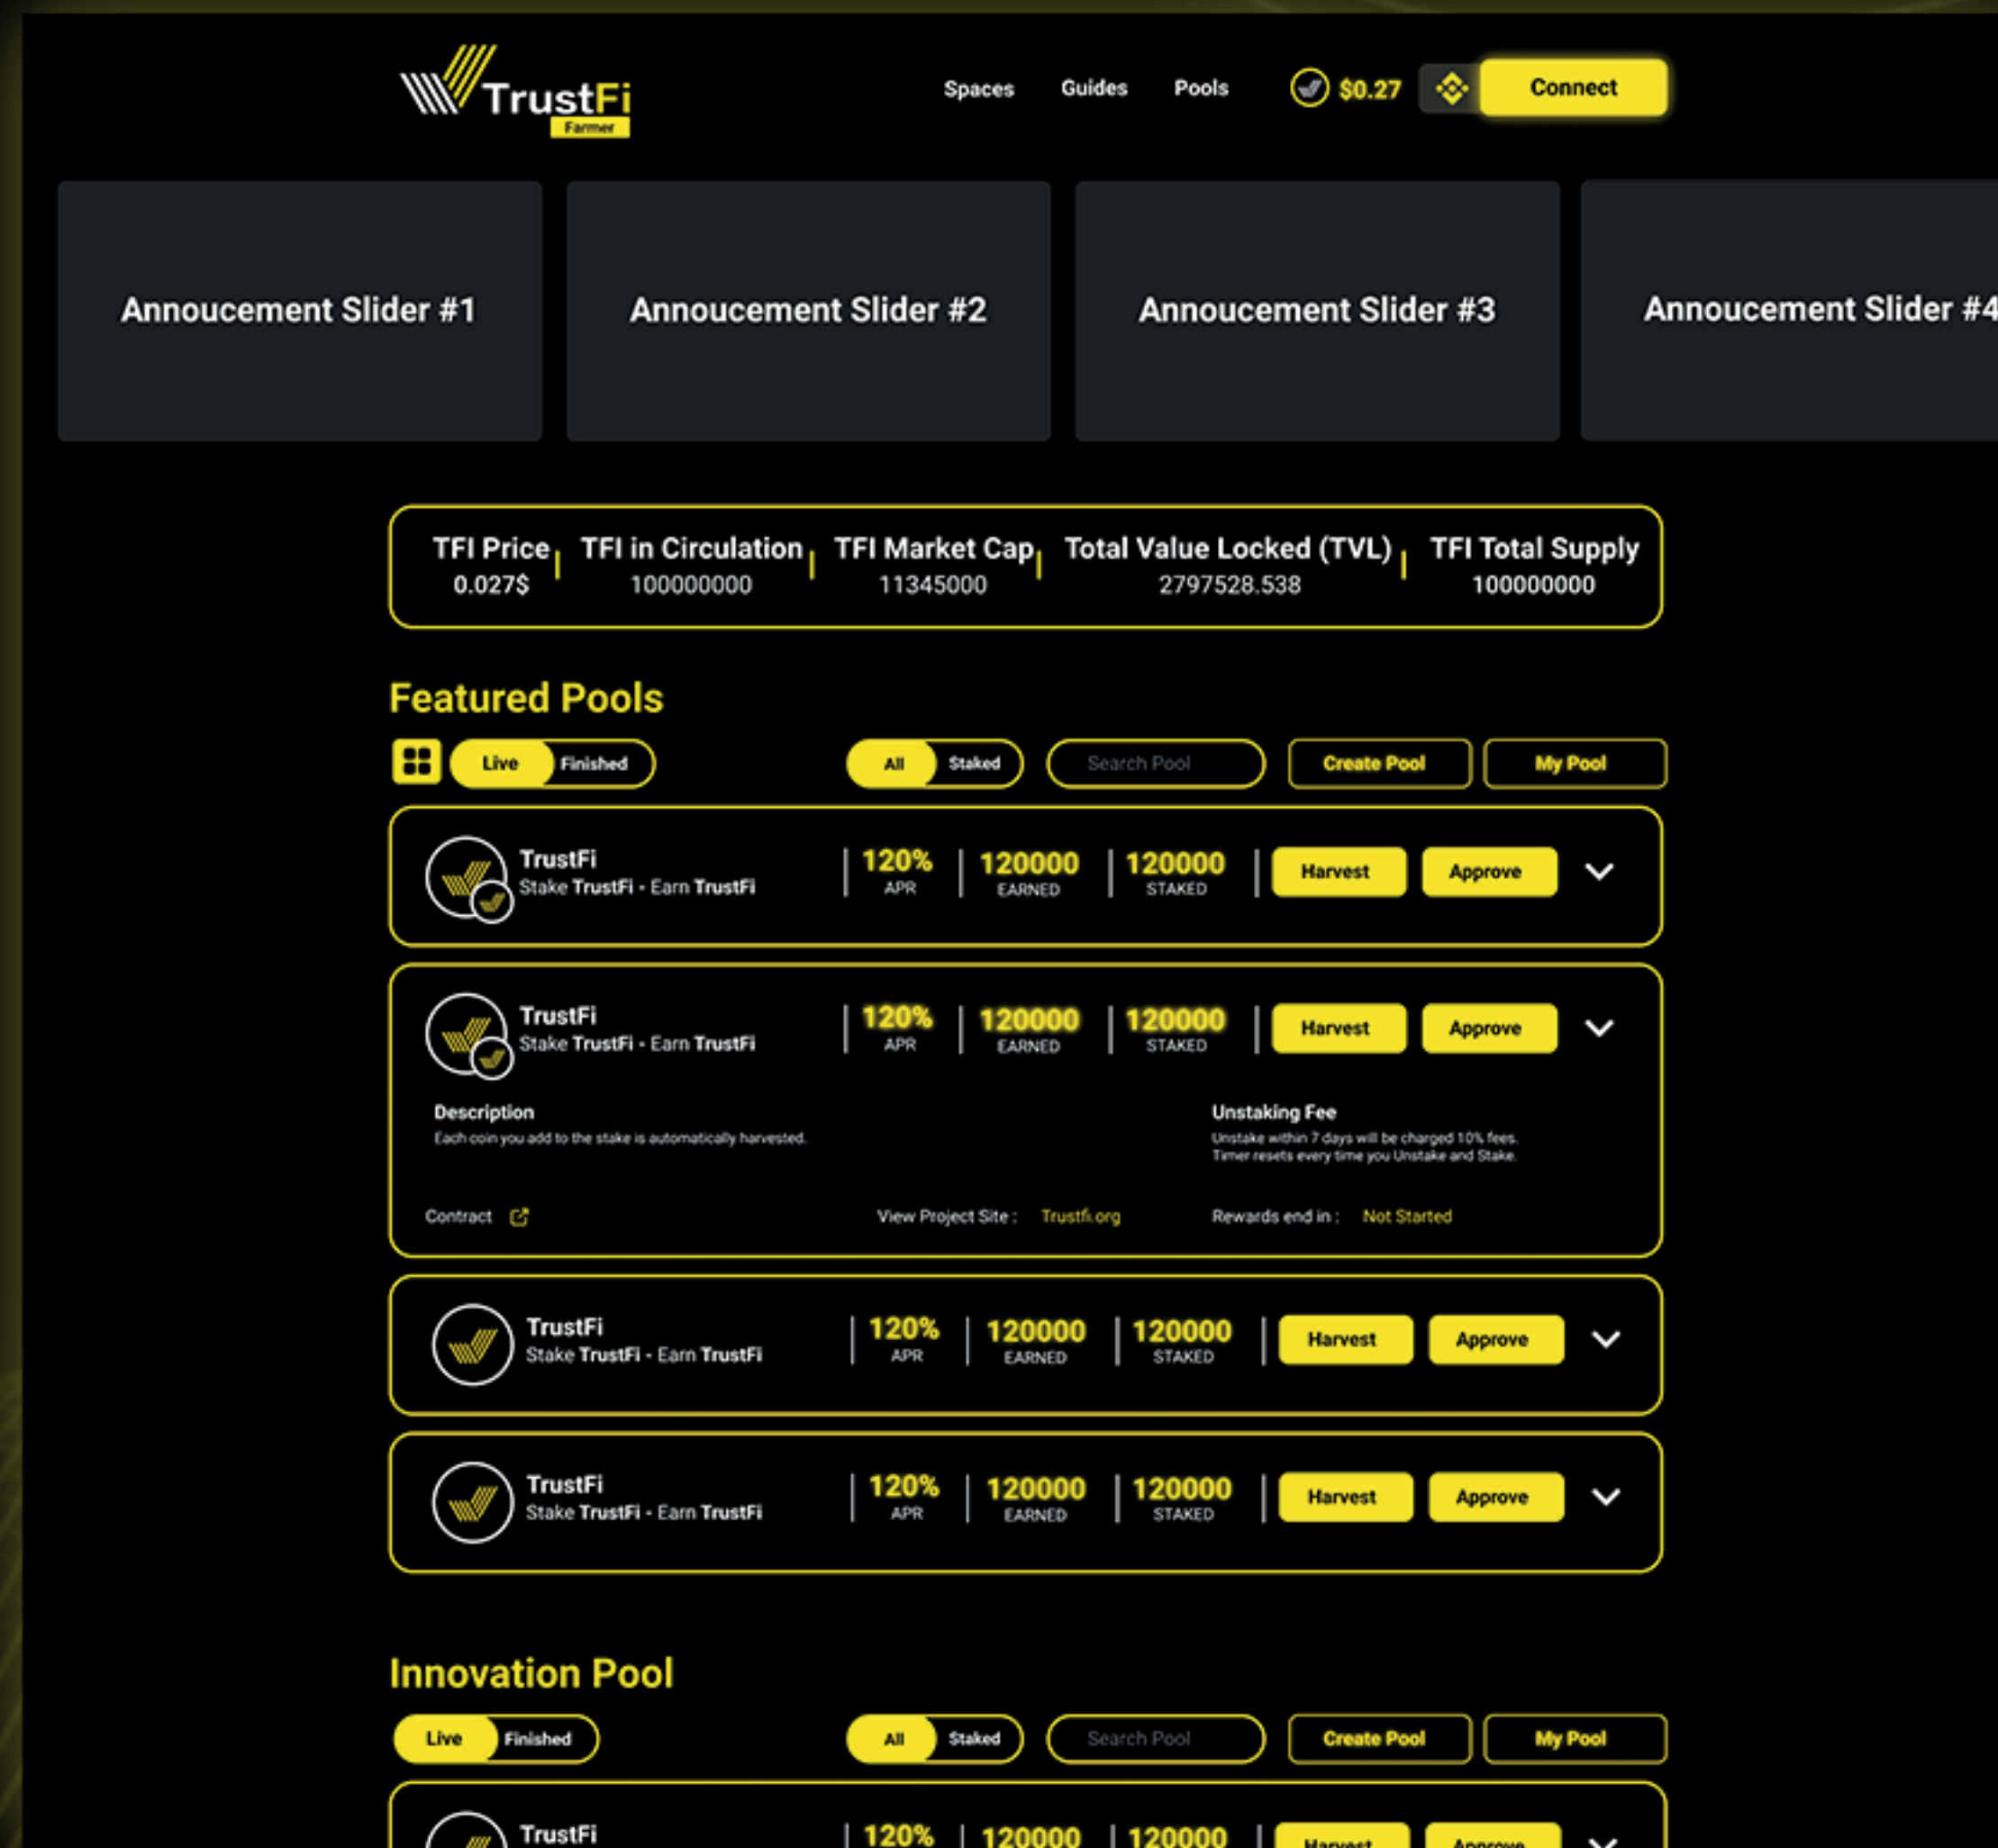

TrustFi Farmer is a liquidity mining and farm pool creation platform powered by the **Automated Farm Pools (AFP) algorithm** and based on the **Decentralized Farm Protocol for Web3.0**. All crypto startups can create token utility & protect price volatility with staking rewards by creating farm pools on TrustFi Farmer without permission.

Suitable

- Startups that have completed TGE and started trading on DEXs
- Projects live on BSC/AVAX/ETH/Polygon

What we can do

- Enable you to create your Farm Pools in 60 seconds from 0 without coding.
- Build your own DeFi Space automatically: You can use our infrastructure and no more need the DeFi Dev!
- Launch cross-farm pools with \$TFI so that we can bring you 3,000+ new holders.
- Stake your tokens to increase your token utility and protect price volatility.
- Stake your LP to increase your liquidity.

TrustFi Farmer Homepage

Why should you work with TrustFi?

TrustFi can bring you 3S and 3M

Strong Holders

Allocations will be distributed based on TrustFi Strong Holder Tier System according to Loyalty Rankings, which means your tokens will be distributed to massive real valuable long-term holders.

Strong Networks

⚡ VCs ⚡ KOLs ⚡ LaunchPads ⚡ CEXs/DEXs ⚡ Market Makers ⚡ Projects

Super Marketing

KoinSaati advises TrustFi as its Marketing Lead; the top influencer group and marketing advisor firm and the rest of our extended network will lend support in global marketing.

More Users Growth

TrustFi have global marketing partners who can help build local communities

⚡ Turkish: KoinSaati

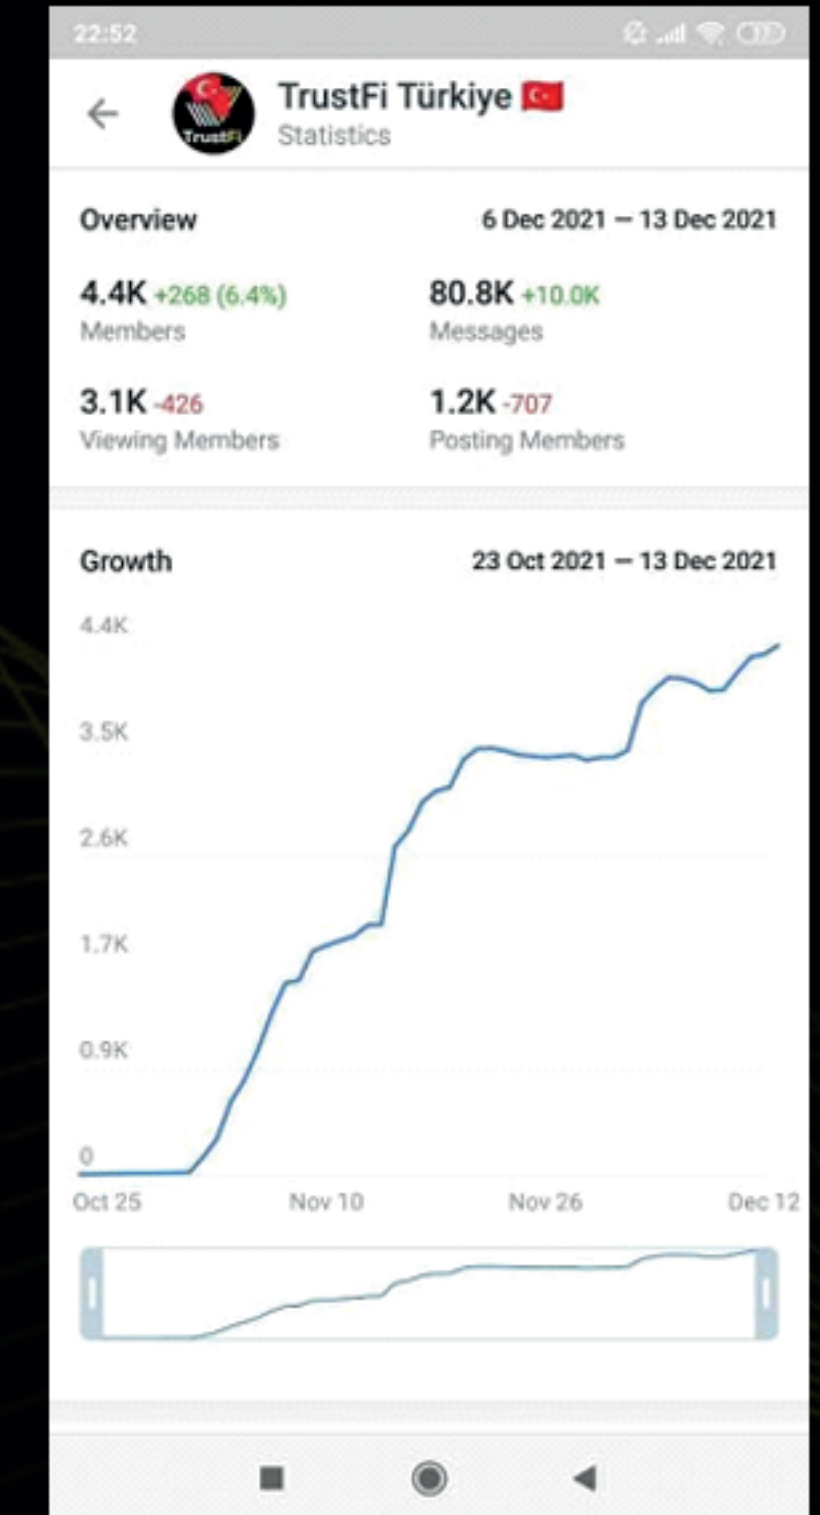

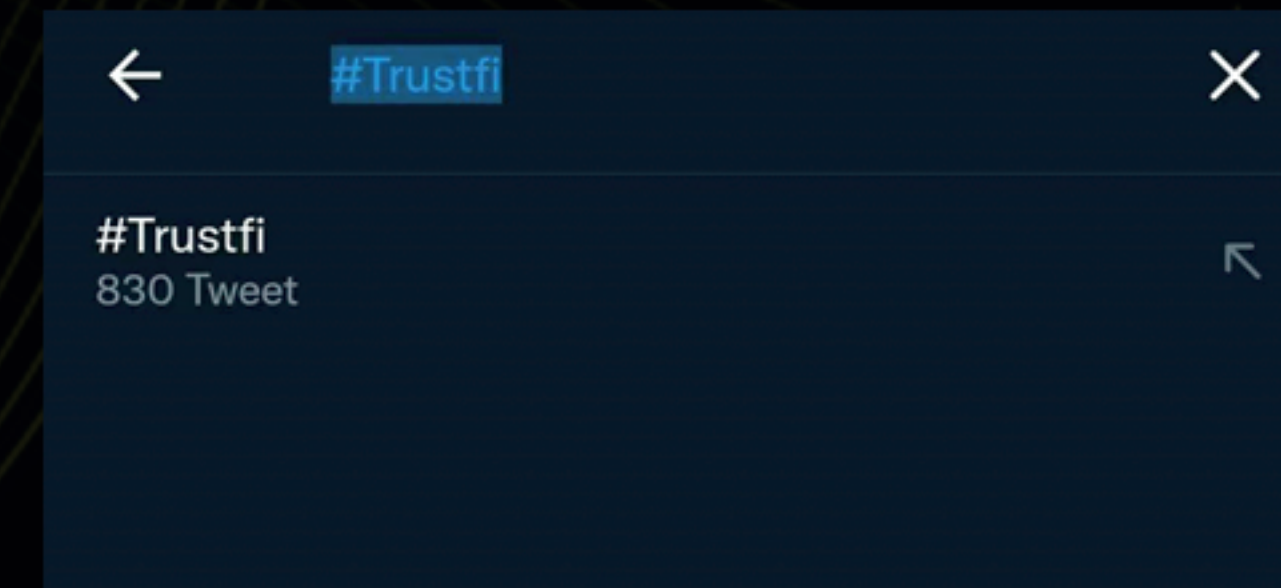

⚡ French: Trader Square French

⚡ Korean: Coinone

⚡ Indonesian: Crypto Zyte agency

More Token Utility

DeFi Utility

- TrustFi Farmer can help you build your own DeFi Space automatically and you can easily create your farm pools for staking your tokens/LPs to earn tokens in order to increase your token utility and protect price volatility.

GameFi Utility

- TrustFi can directly list your token on CheersLand multi-asset staking platform so that your token holders can stake your tokens to earn HP and spend it in the games of CheersLand, which means users can stake your tokens to P2E.
- Airdrop and marketing campaigns for your holders

More Brand Awareness

- Cross Farm Pools for growing more holders.
- AMAs in our communities for awareness.
- Cross marketing and airdrops campaigns on gleam.

Stake diverse tokens to earn Health Points (HP) for the game!
