## WHAT'S AN NFT?

Non-Fungible Token Overview & NFT Markets

## **NON-FUNGIBLE TOKENS (NFT)**

A "Non-Fungible Token" (NFT) is an "inimitable" asset in the digital world that can be bought and sold like any other type of property.

Essentially, NFTs represent immutable certificates of ownership of virtual or physical assets.

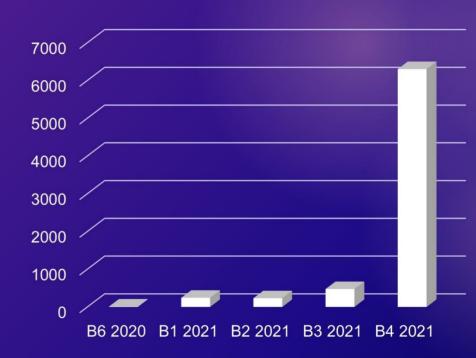

## \$+750,000 M

According to CoinMarketCap, the NFT market currently has a capitalization of more than \$ 750,000,000,000.

## **NFT MARKET GROWTH**

#### 1-YEAR X1000

From August 2020 to August 2021, the monthly volume grew approximately 1000 times; from 2.7 million in August 2020 to 2.9 billion in August 2021.

The values are reflected in millions of dollars.

# INTRODUCING TRODUCING

Launching celebrities & brands to the Metaverse

WHAT DO WE DO

TRIBE (through its \$TRIBEX token) is the first Launchpad of NFTs validated by celebrities or brands on the Binance Smart Chain (BSC).

At TRIBE, we launch much more than just quality NFTs validated by celebrities, projects, brands, artists, among others; **We launch TRIBEPOPs**.

"What's a TRIBEPOP?" you're surely wondering.

## WHAT'S A TRIBEPOP?

TRIBEPOPs are the heart of TRIBE

TRIBEPOPs are our expression, conceptualization and adaptation of different elements of the celebrity, project, brand or person of whom the collection is concerned, with a unique and distinctive style with the best quality and with the best use there is; **Metaverse**.

Yes, you read it correctly: **Metaverse**.

## TRIBEPOP + METAVERSE

We launch celebrities and brands to the metaverse

Each **TRIBEPOP** will be used within a role-playing game within our **METAVERSE** as skins.

We will apply the concept of **Virtual Reality** (VR) but also **Augmented Reality** (AR) being the first **AR NFT** of the entire **Binance** ecosystem.

### WHY CHOOSE TRIBE

All TRIBE and person collaborations are unique developments for this stage.

All NFTs will be sponsored by the person who is launching them.

As the content is exclusive, the NFTs will be limited and lower than demand.

The Binance Smart Chain enables us a fast, secure, efficient and cheap channel.

## HOW EACH COLLECTION WORKS

By ourselves, or by third parties, contact and negotiation with the person begins.

## Phase 1 Structure

The business plan is developed; Quantity of NFTs, prices and marketing structure.

## Phase 2 Exposure

The person collection is displayed and influencer & social media marketing begins.

## Phase 3 Collection

A limited number of different levels of TRIBEPOP NFT are released at fixed prices.
