# INTRODUCTION

Turn-based Strategy is one of the most popular gaming concepts around the world with typical names like Final Fantasy. Although it has been out for quite some time now, Final Fantasy is still a game series that is loved and well-known by gamers. **When it comes to Final Fantasy, fans remember not only the gameplay but also the stories of legendary characters** such as Cloud, Tifa, Lightning, Sephiroth, and many others.

This is a great source of inspiration for Faraland game developers. With the application of blockchain technology, we want to build a **Faraland that is more than just a game, but a world, a series that lives on.** The goal is to create a Turn-based Strategy game on blockchain that is **“unique”** enough to follow and continue the legacy of the Final Fantasy series.

**Not only game but novels, comics, and most likely movies** will also be a part of Faraland’s series. Everything is being conceived and waiting for the right time to launch. A huge and fascinating world is waiting for you!

# GAME OVERVIEW

Faraland is a turn-based strategy & RPG developed with blockchain technology by Moon Knight Labs. Joining the Faraland universe, players will transform into the 7 races engaged in the journey to protect the Magic Crystals, fight against Demon Lord, and search for the Book of God to win glory for their race.

With the desire to create a game universe that immerses players in a limitless imaginary world, Faraland was originally created by our development team with **Unique NFT Heroes**, **Unique plot and arts**, and **Original game codings**

# UNIQUE NFT HEROES

With blockchain application in creating the game, Faraland's heroes are created with Smart Contract ensuring their individual uniqueness. With a **limited number of 20,000 NFT**, they are considered the soul of the project and the owner of the Faraland continent.

# UNIQUE PLOTS AND ART

The plot of Faraland is built on the plot of the Faraland novel with **a fairy world** and **an endless journey of discovery**. The player's journey will not take place linearly, but each decision in the quest will lead us to a separate storyline, forcing players to dig into and piece together every little detail in order to achieve rewards.

The visual of the game is also created to synchronize with the context of the plot. **Each character** in Faraland has **a unique appearance created by our artists**.

# ORIGINAL GAME CODE

We create a product with its own uniqueness. Along with a high standard of gameplay and unlimited creative ideas, we meticulously made **everything in Faraland from scratch.**

# NFT

In Faraland, players control the characters of 7 races: Humans, Orcs, Elves, Fairies, Dragonborns, Angels, and Demons to join PvE and PvP modes to earn exclusive in-game rewards.

# HUMAN

(50% population)

Humans are the largest inhabitants of the Faraland Continent. Human heroes' strength lies in their military skills and advanced technological development. Humans can fight as tanks, gladiators or mages.

# ORC

(24,6% population)

The Orcs are known for their superior physical strength and outstanding endurance in the whole Faraland continent. They are born with tough builds and seemingly unlimited fighting power. They can take the forefront with their impressive vitality and great physical strength.

# ELF

(20% population)

Elves are the spirits of the deep forest. With high agility, they are suitable for long distance attacks. As expert weapon masters, they are efficient assassins when equipped with daggers and knives.

# FAIRY

(4% population)

Fairies hold the magic of nurturing and protecting the flowers. Holding a vast amount of magic, Fairies can be a great support to a team when equipped with wands and daggers.

# DRAGONBORN

(1% population)

Dragons are a mythical race of the Faraland Continent. With abundant vitality and ancient magic, Dragonborn is the only race in the game that possesses both physical and magical damage at a very high level.

# DEMON

(0.2% population)

According to legends, Demons are divided into two types: Pureblood Demons and Dark Shadow Demons. The most commonly used weapon by Demons is the Crescent or the Dark Crystal Ball.

# ANGEL

(0.2% population)

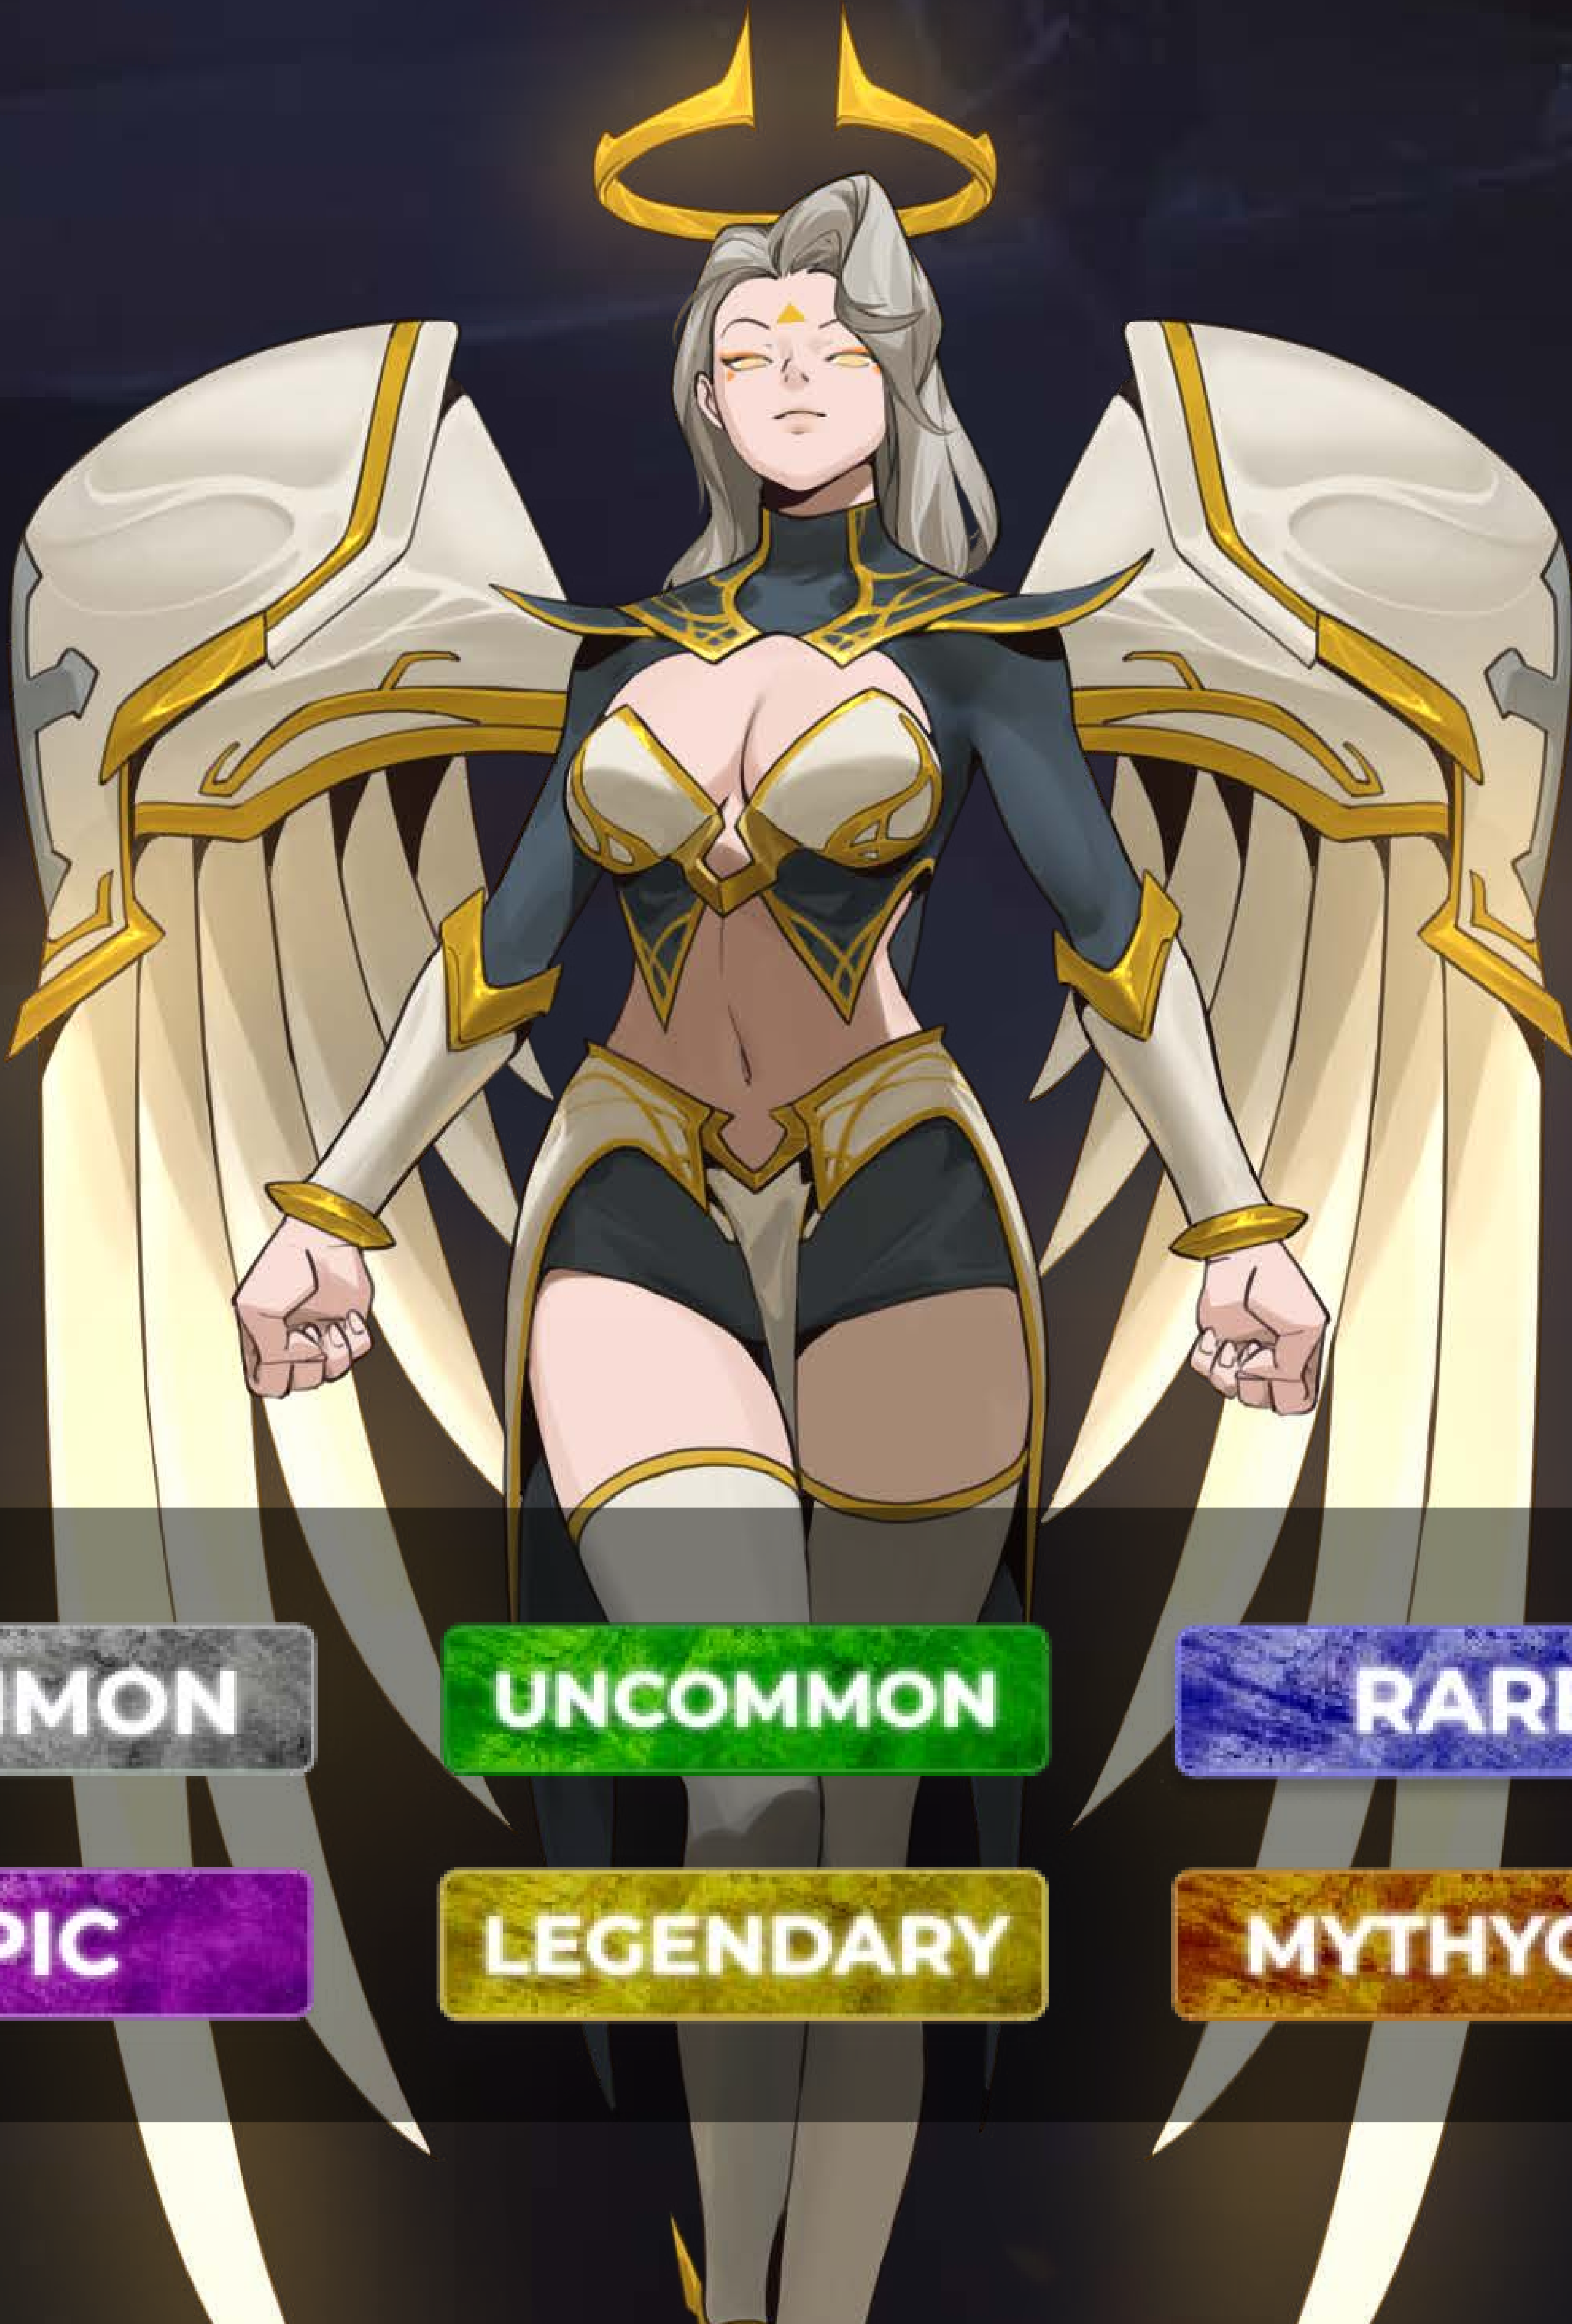

Angels are true Gods, possessing outstanding intelligence. Aside from their extraterrestrial powers, they also have a tall build and wings, which makes them flexible in the battlefield.

# RANKING OF BODY PART

Each Heroes is a unique NFT made up of a rare combination of:

**Skin**  **Eyes** 

**Scar**  **Hair** 

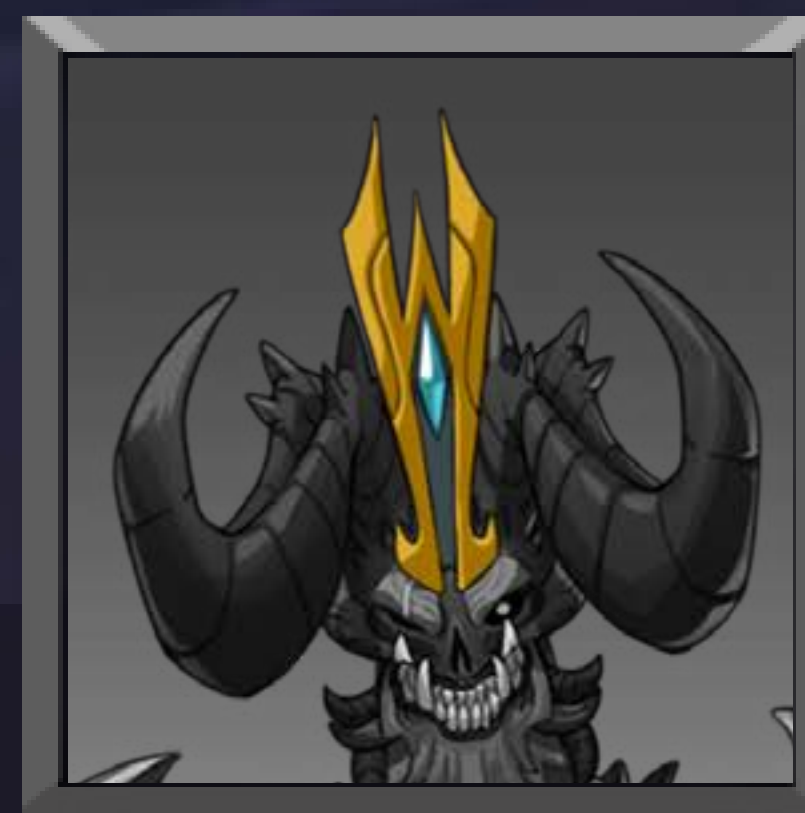

**Tattoo**  **Mouth** 

**COMMON** **UNCOMMON** **RARE**  
**EPIC** **LEGENDARY** **MYTHICAL**

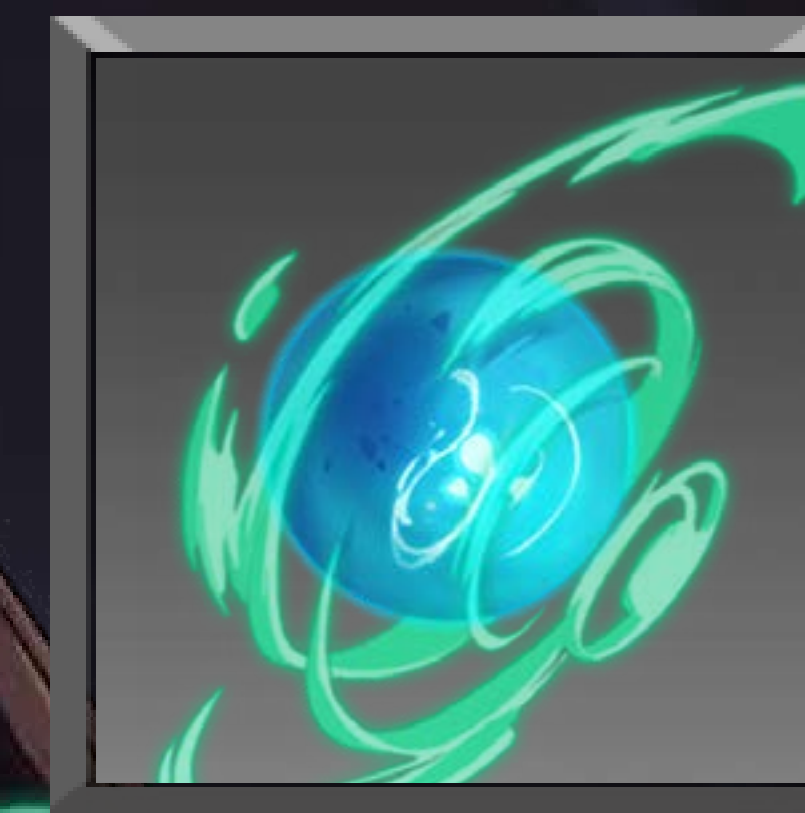

# EQUIPMENT

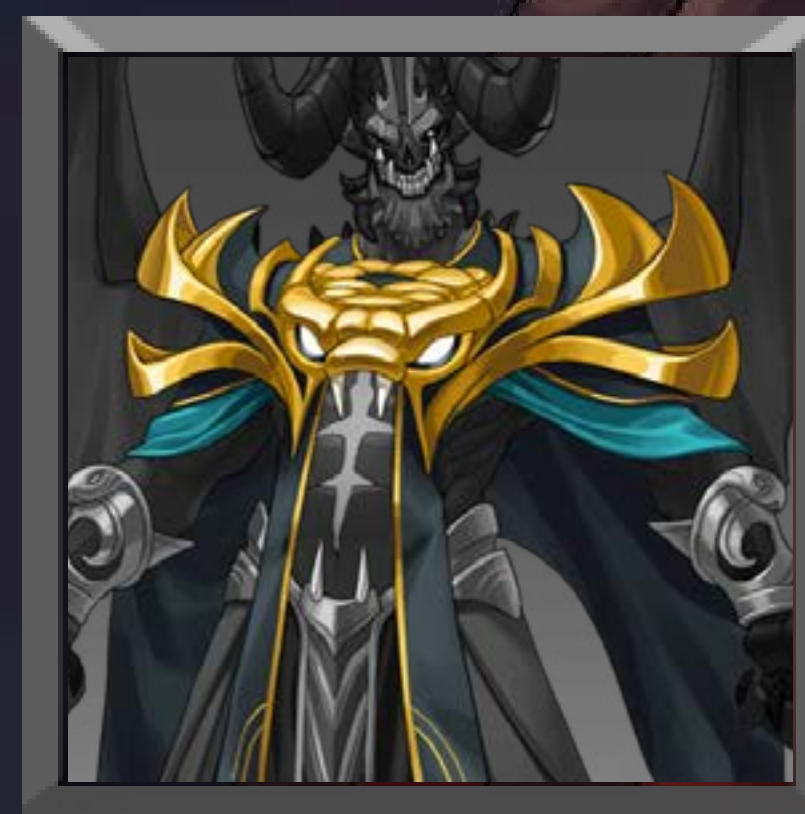

*Helmet*

*Sub Weapon*

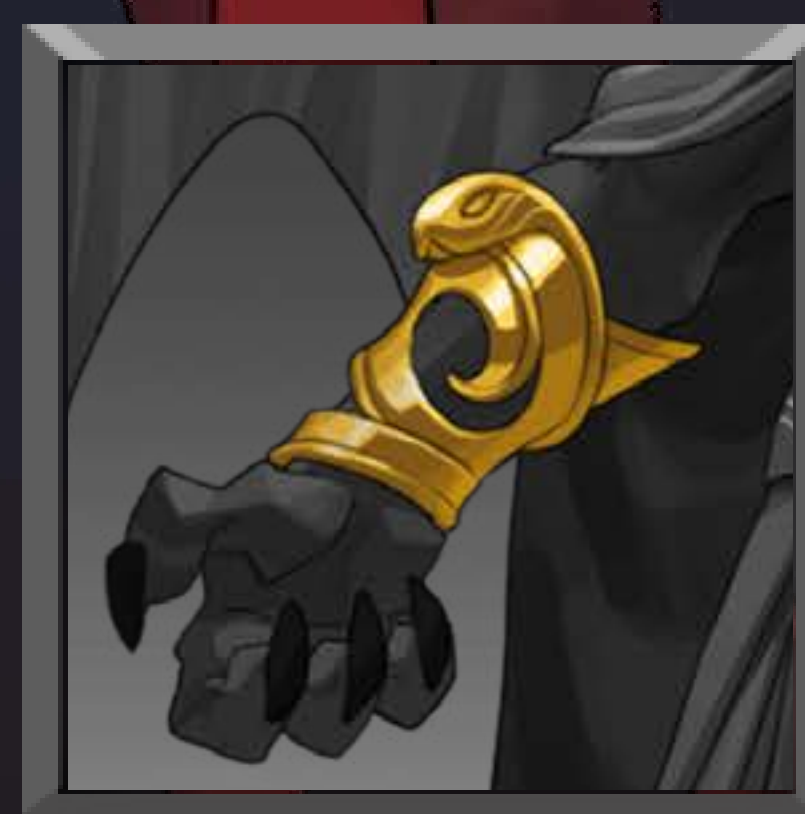

*Armor*

*Pants*

*Gloves*

*Boots*

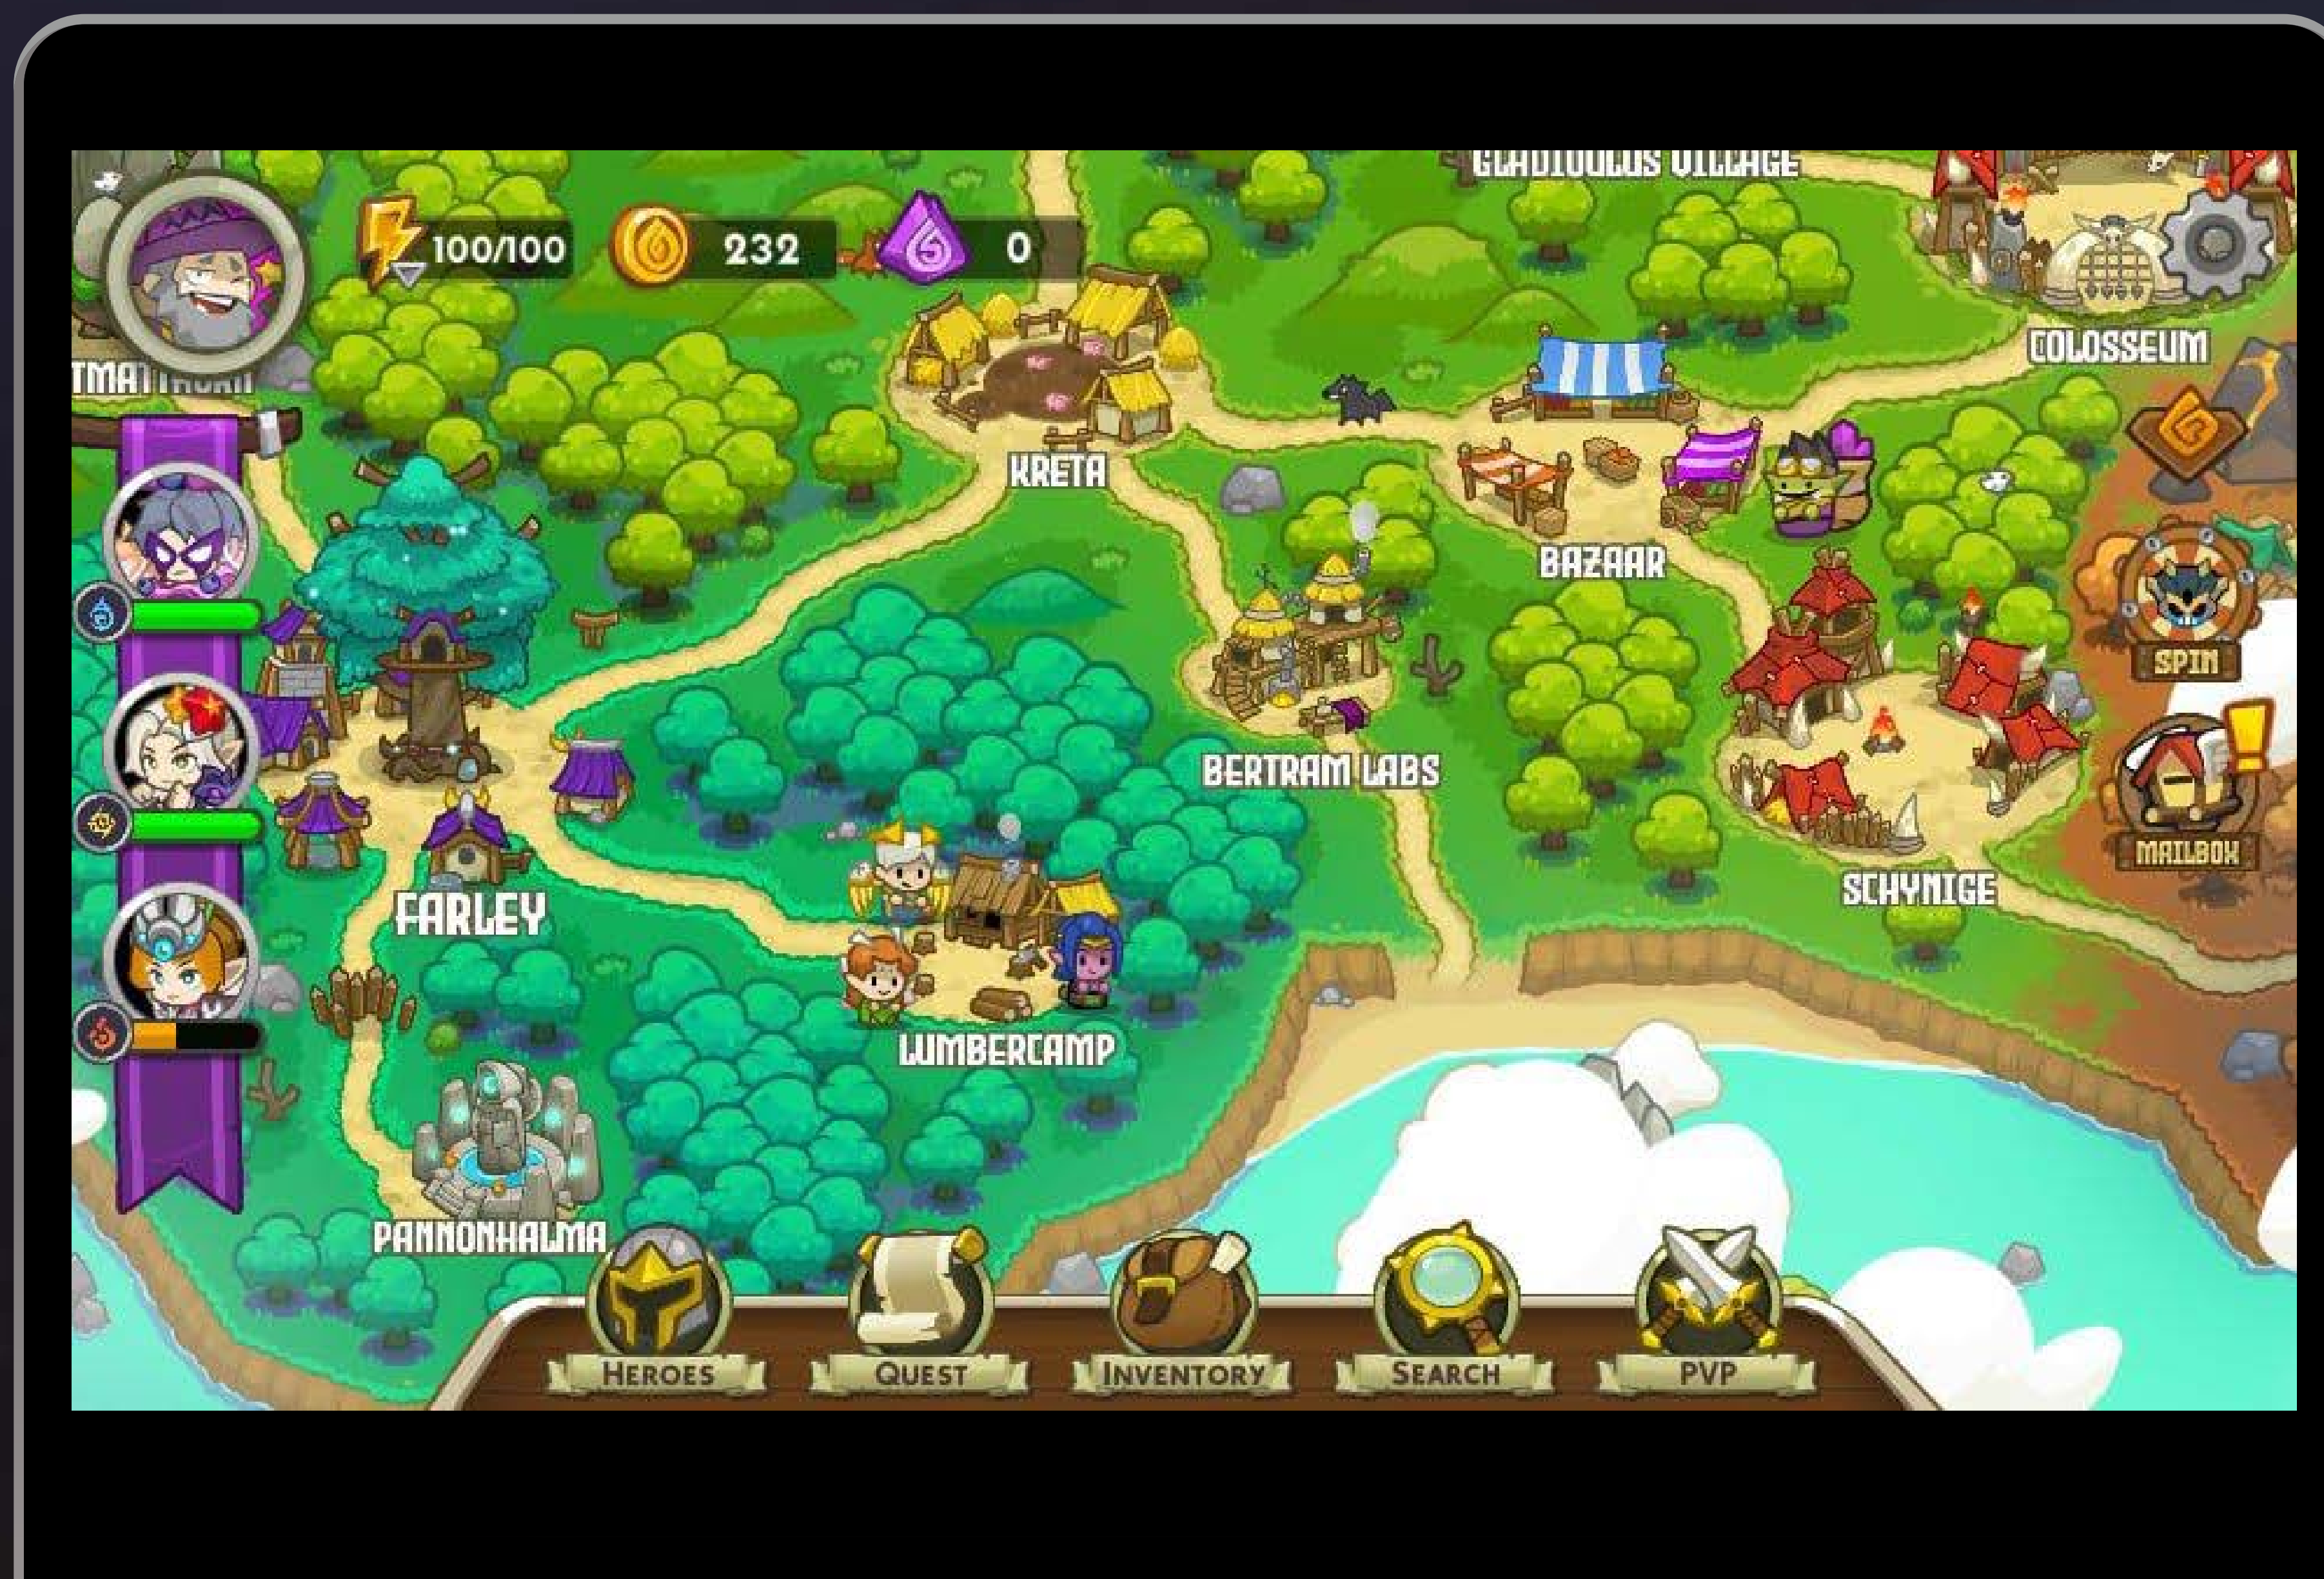

# GAMEPLAY

## PvE

PvE is a game mode to explore the continent of Faraland. Players will join the journey against the demon lord Beelzebul to protect the world. In that journey, players will build their squad with the best heroes of the 7 races, explore vast lands with many types of terrain and encounter different types of monsters.

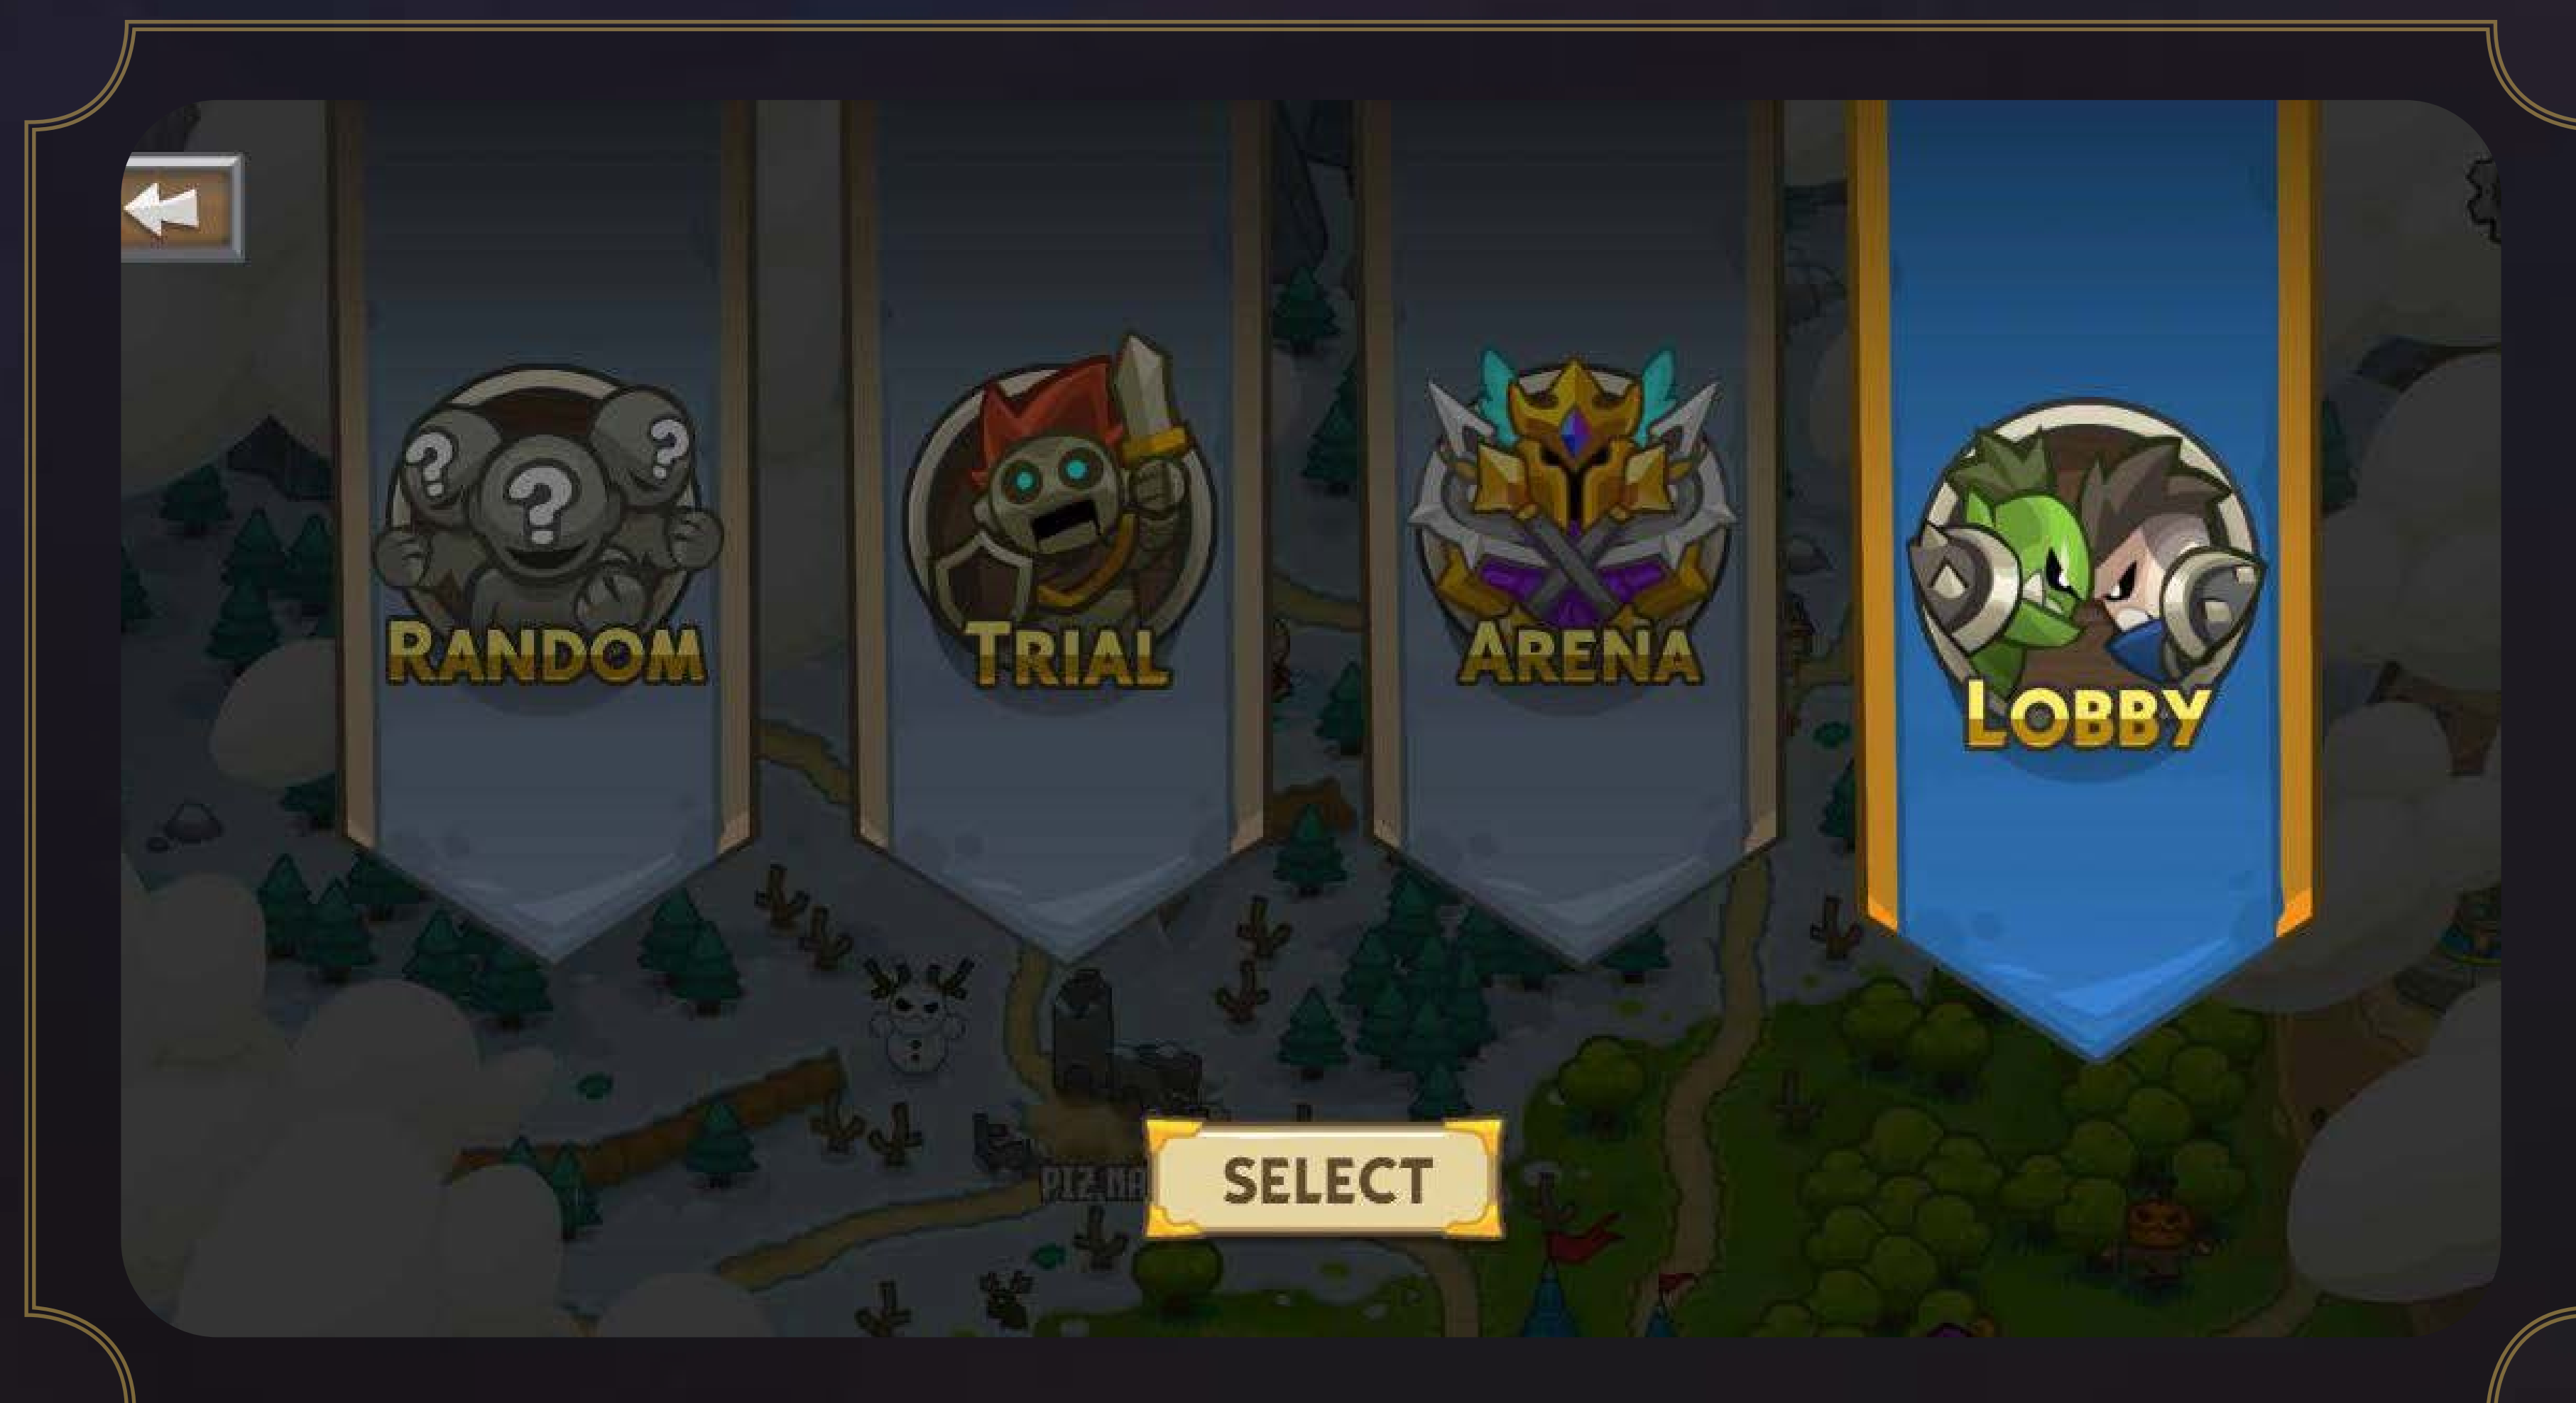

# GAMEPLAY

## Pvp Invite Mode

Invite Mode is a new feature in PvP. Players can now create their own lobby in PvP mode to compete with friends.

## PvP Arena

PVP Arena is an online battle between players. The most prominent and attractive feature is the turn based tactical gameplay with a variety of skills and equipment. Players can customize their squad in many ways with different tactics and formations

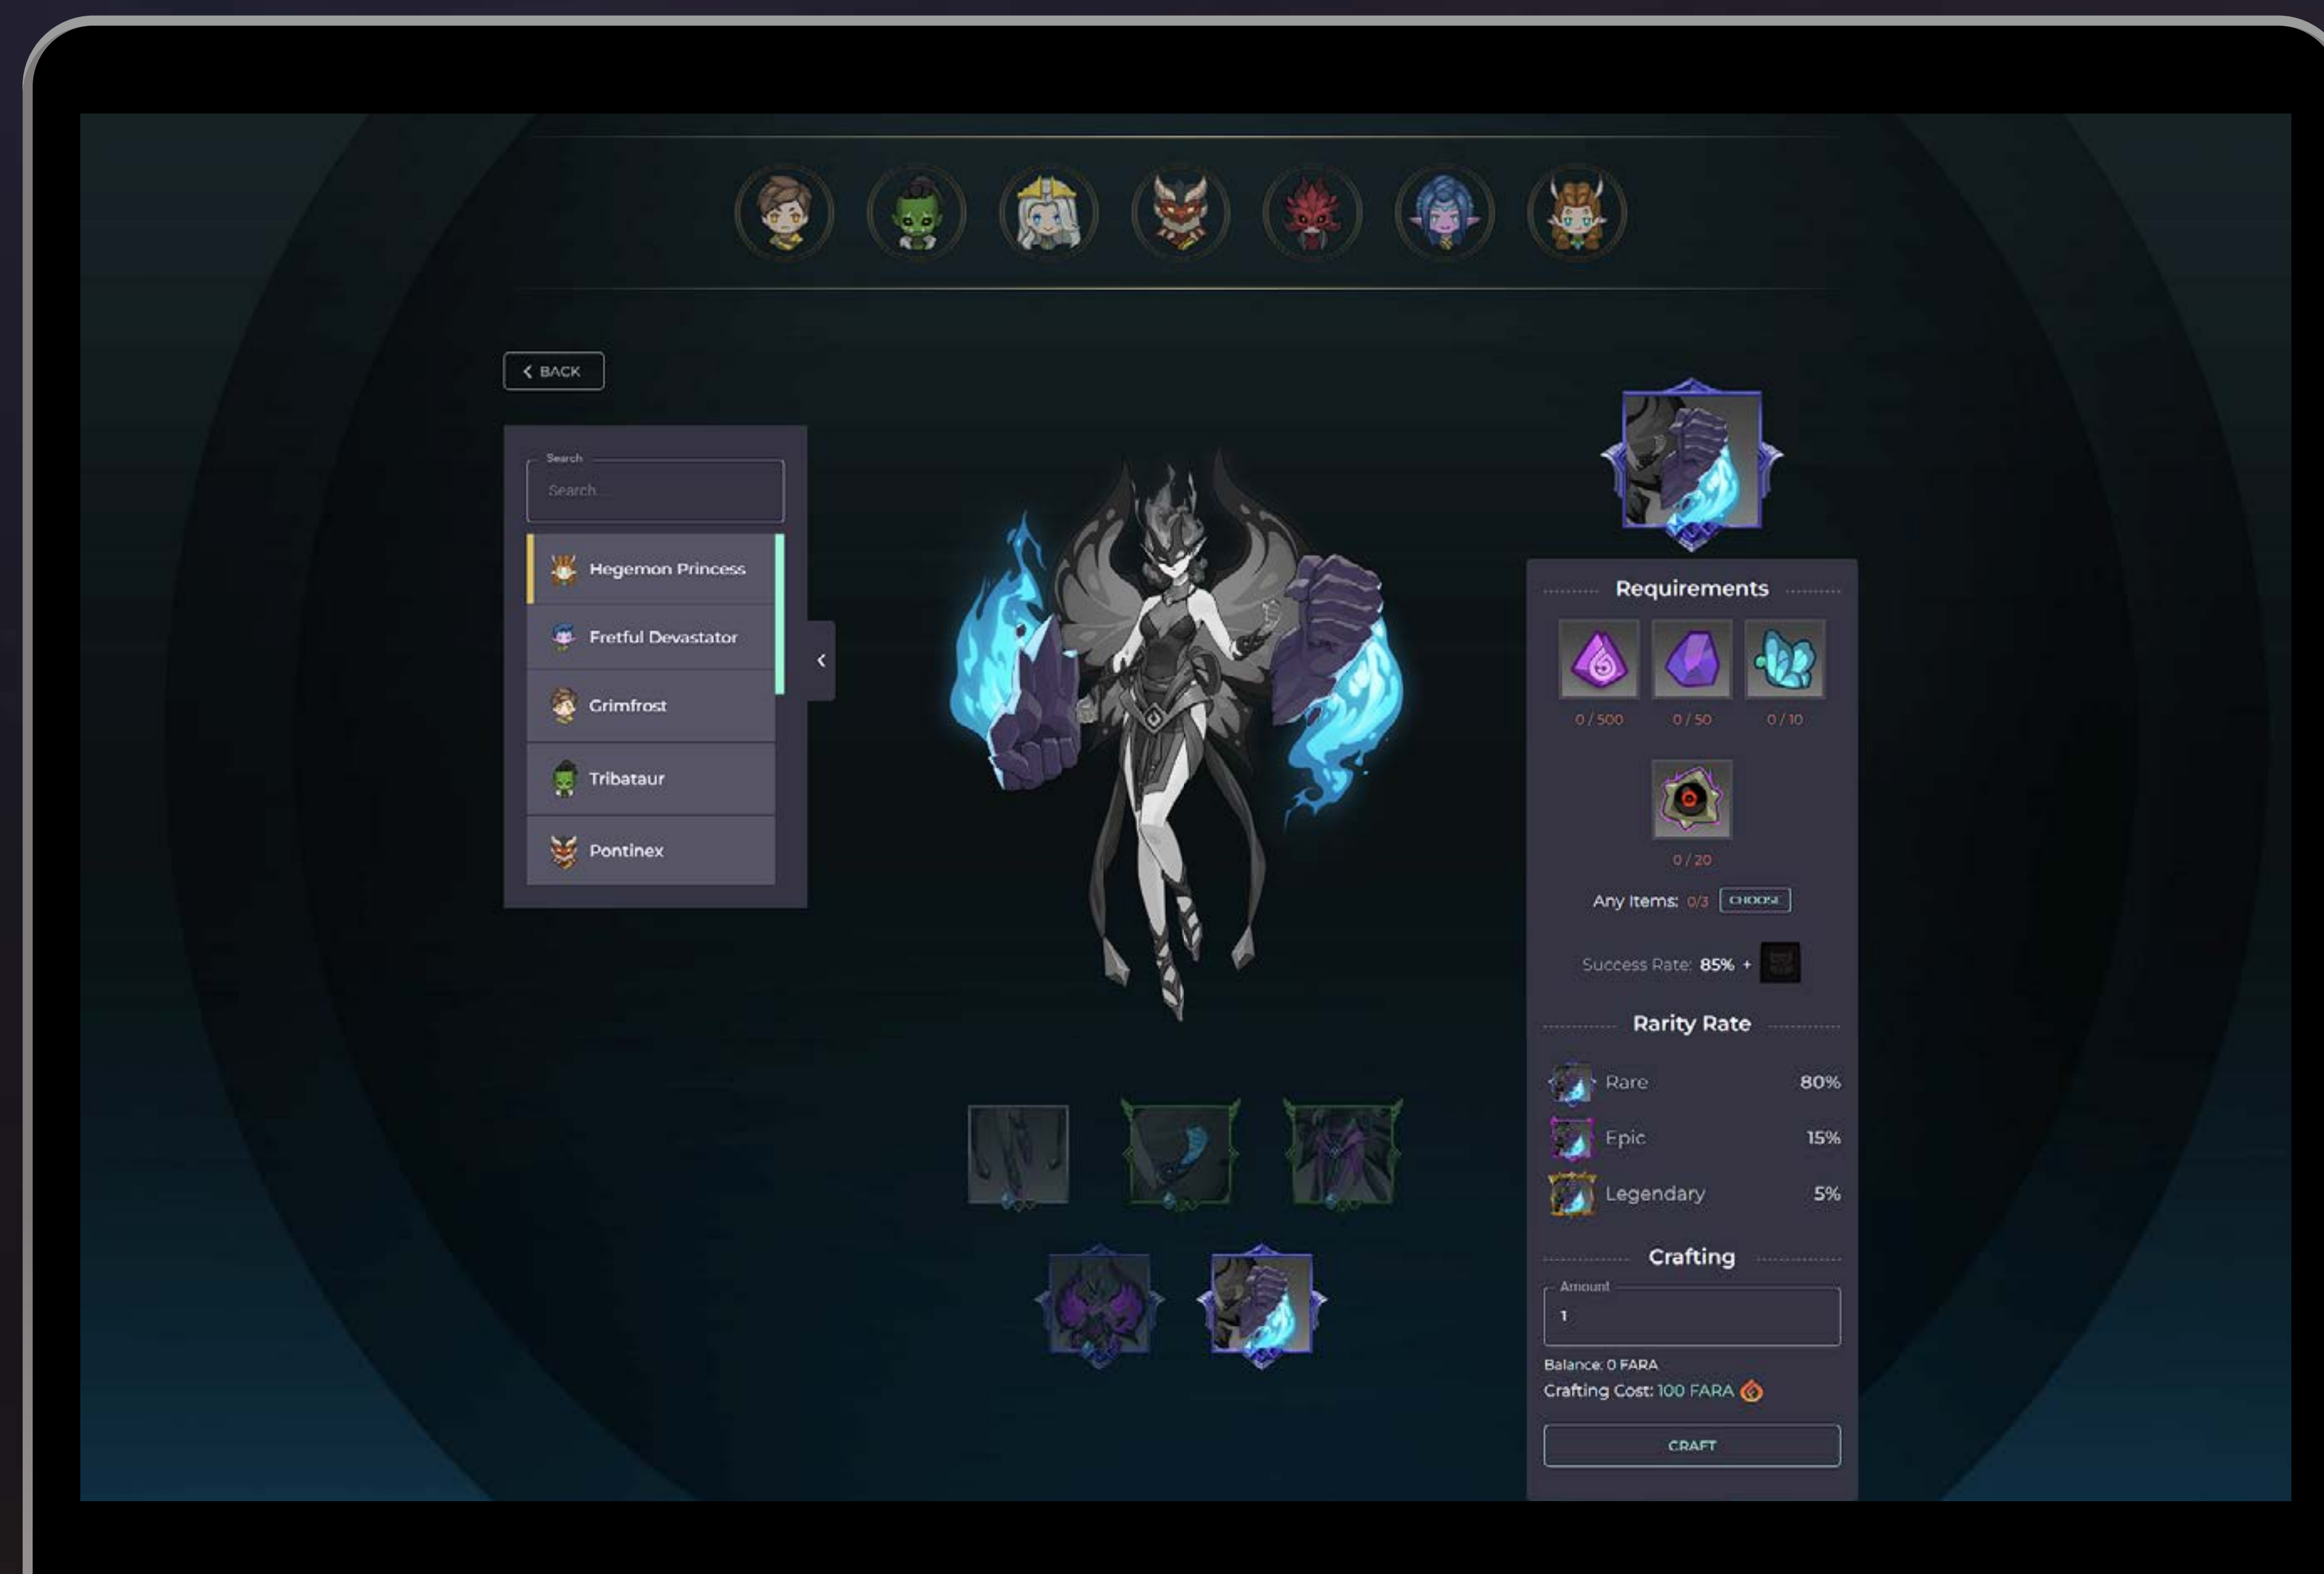

# GAME FEATURES

## CRAFTING

Crafting is a gameplay feature where new items can be created by combining materials. All Materials obtained can be withdrawn via Claim Portal.

Once claimed, players can trade and exchange NFT materials in the marketplace or create new items in the Crafting tab on Faraland's website.

# GAME FEATURES

## LADY OF THE LAKE

Inspired by an ancient European myth, the “Lady of the Lake” is a place where players can interact with a Goddess by a holy lake, which gives them the chance to possess items of high rarities. Even better, players with more luck can earn a progressively staked reward – the Senora Chest.

# GAME FEATURES

## DEMI HEROES

Miesen is one of the busiest cities in the Faraland continent. However, a chaotic war occurred that transformed Miesen from a beautiful land into eternal ice. The citizens trapped in this world are called Demi. Demi can only maintain their existence for a certain amount of time by using an energy source known as "Soul Stone".

# GAME FEATURES

## WORLD BOSS

World Bosses are fiercely fought in turn-based gameplay so that players can craft their tactics against tough missions. In addition to Emperor Stone as a reward, other rare NFT items such as Materials, Legendary items, Mythical items, and more will also be added as rewards after vanquishing World Bosses.

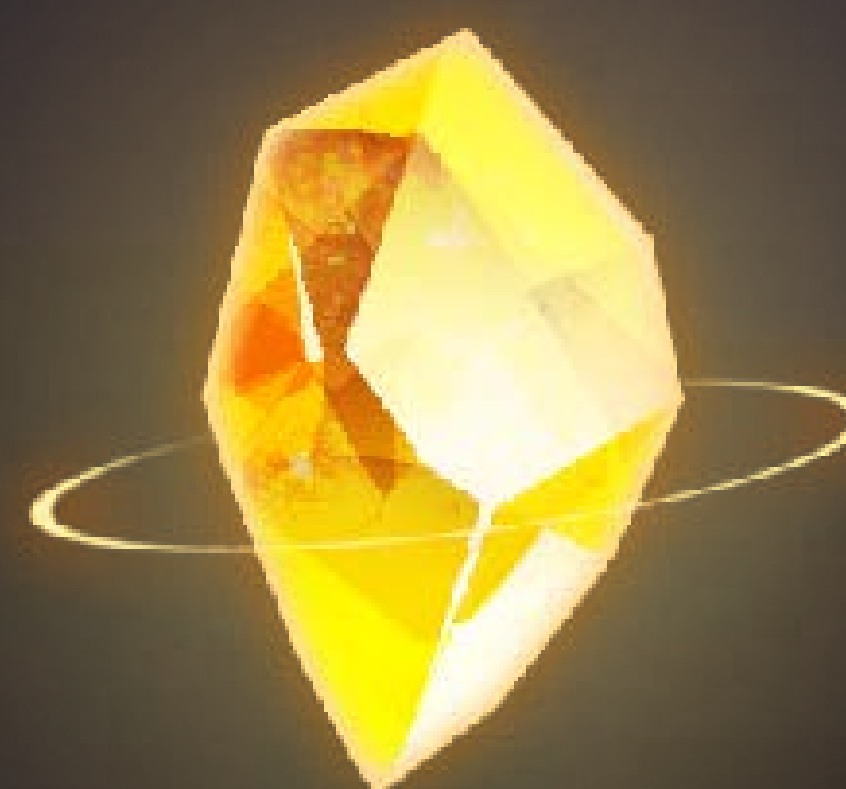

# GAME FEATURES

## GUILD

Guilds are one of the special features of Faraland. Any player who owns an Emperor Stone and 20,000 \$FARA can recruit members and create their own Guild on Faraland's homepage.

# GAME FEATURES

## REWARD PORTAL

Player can claim NFT Items, Tokens and Materials through the Reward Portal

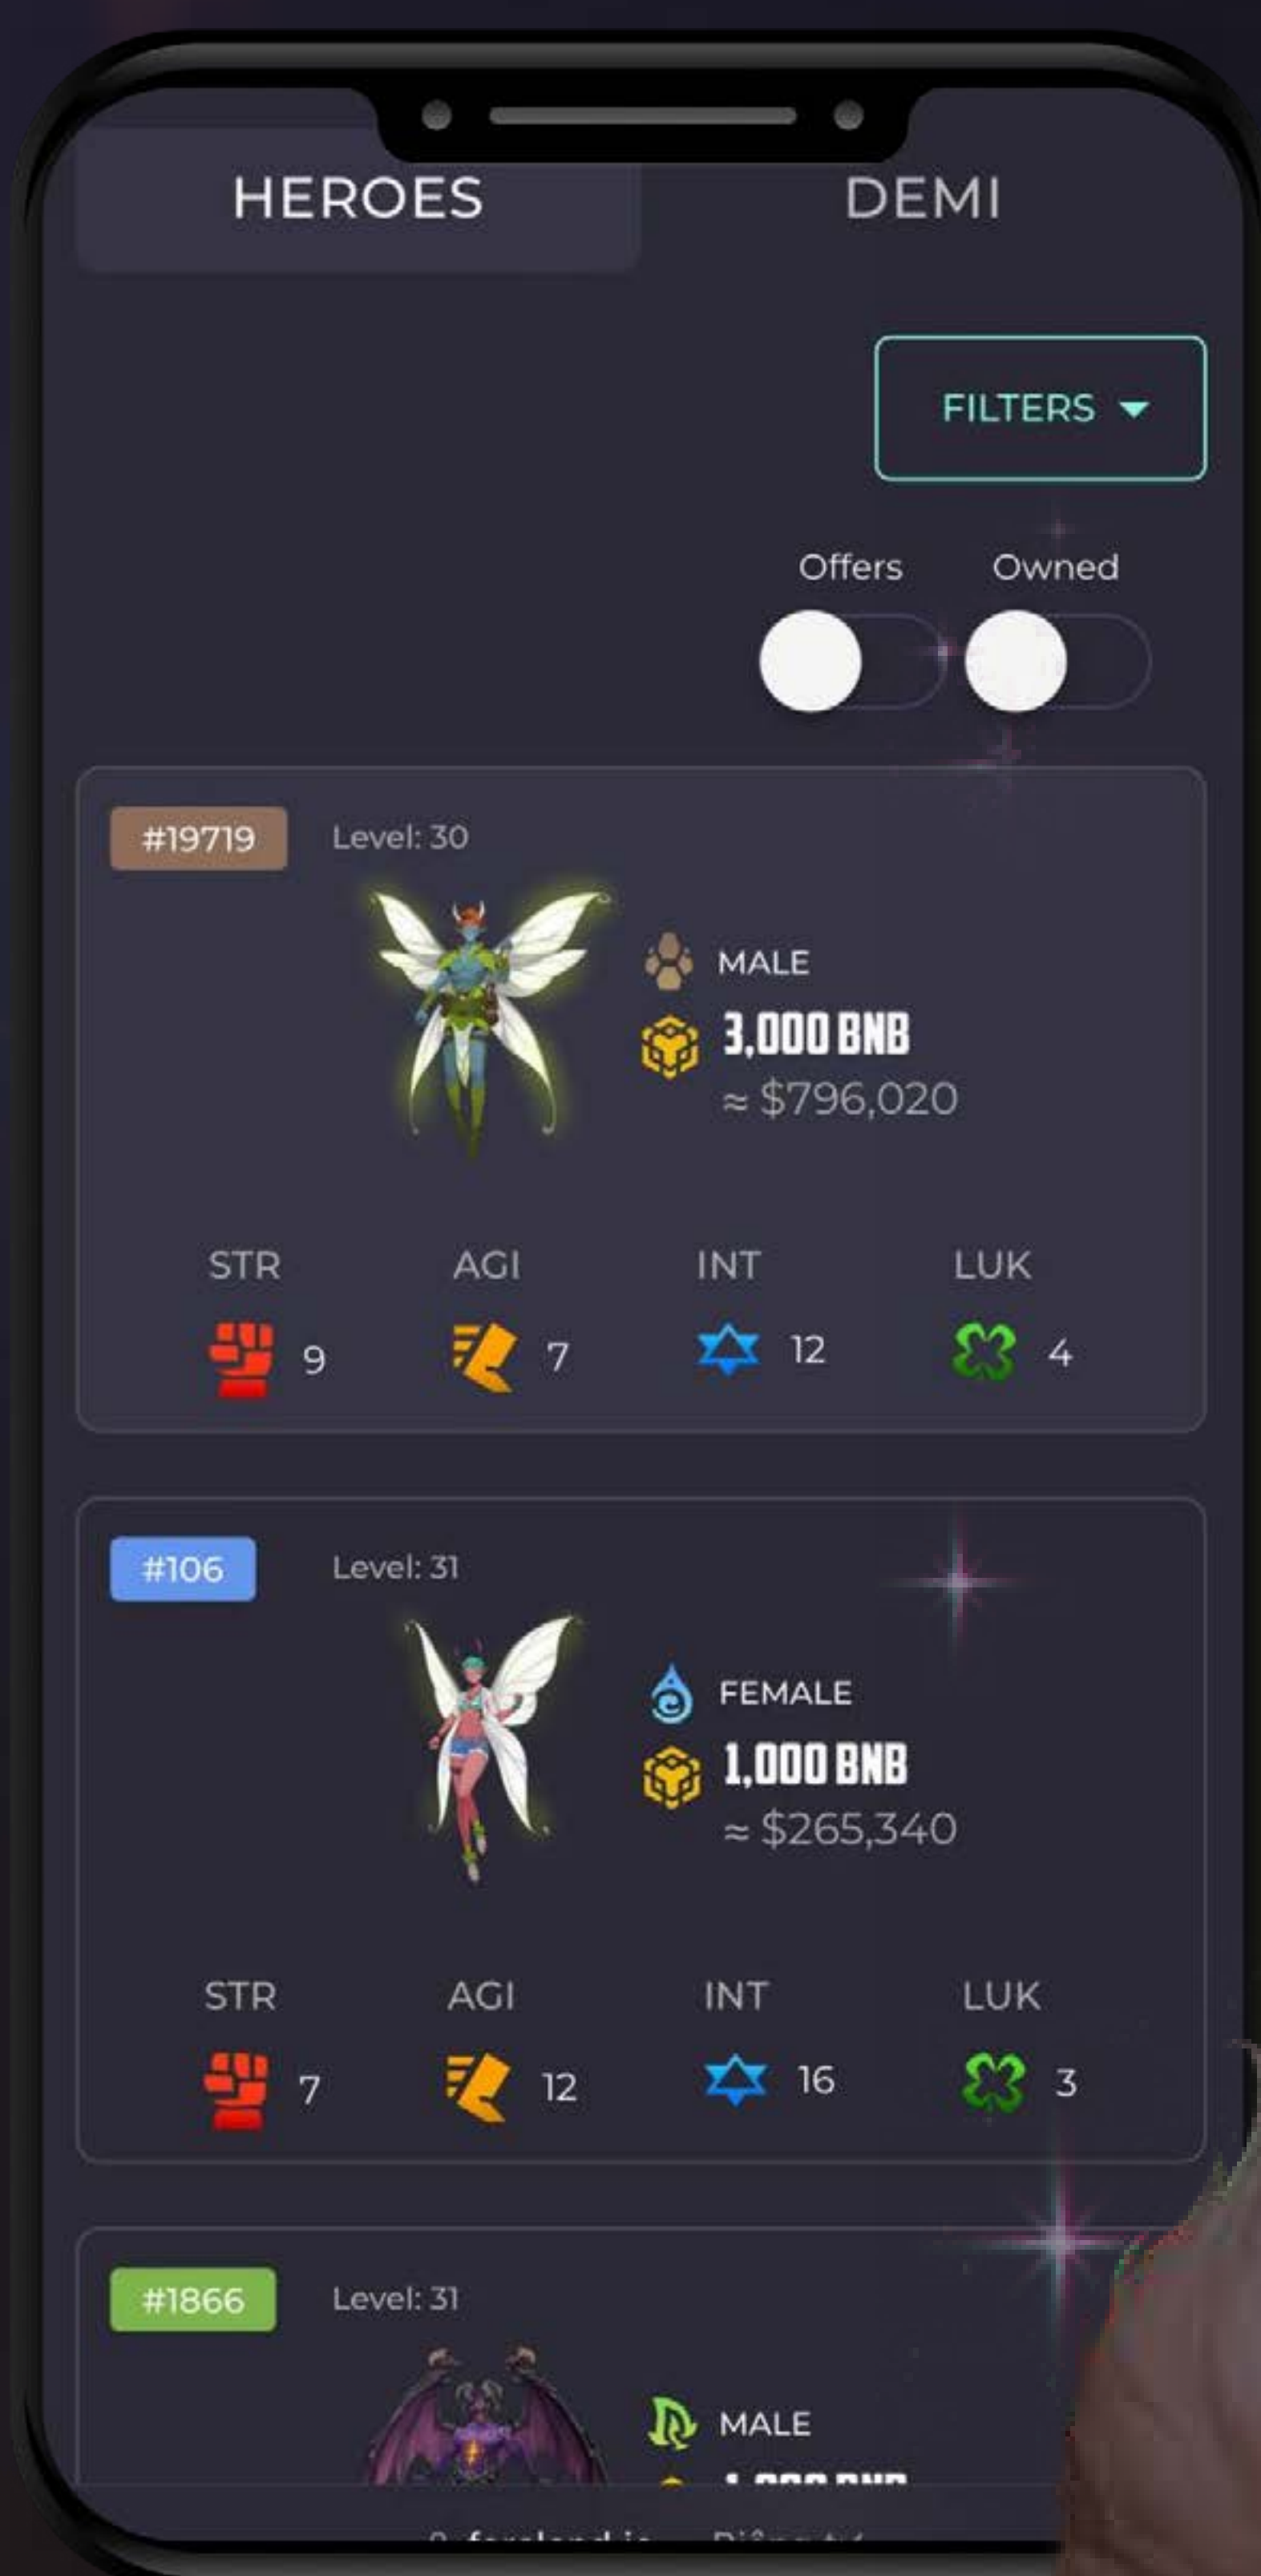

# OTHER FEATURES

## MARKETPLACE

The marketplace is a place to buy, sell and exchange NFT game assets, exclusively for Faraland players. As soon as the NFTs heroes are “revealed”, players can trade them on the Marketplace on Faraland.io in the form of auctions.

NFTs belonging to the rarer races such as Angels, Demons or possessing special skills or physical characteristics will be priced higher.

# STAKING

## TWO OPTIONS

Stake  
**\$FARA**

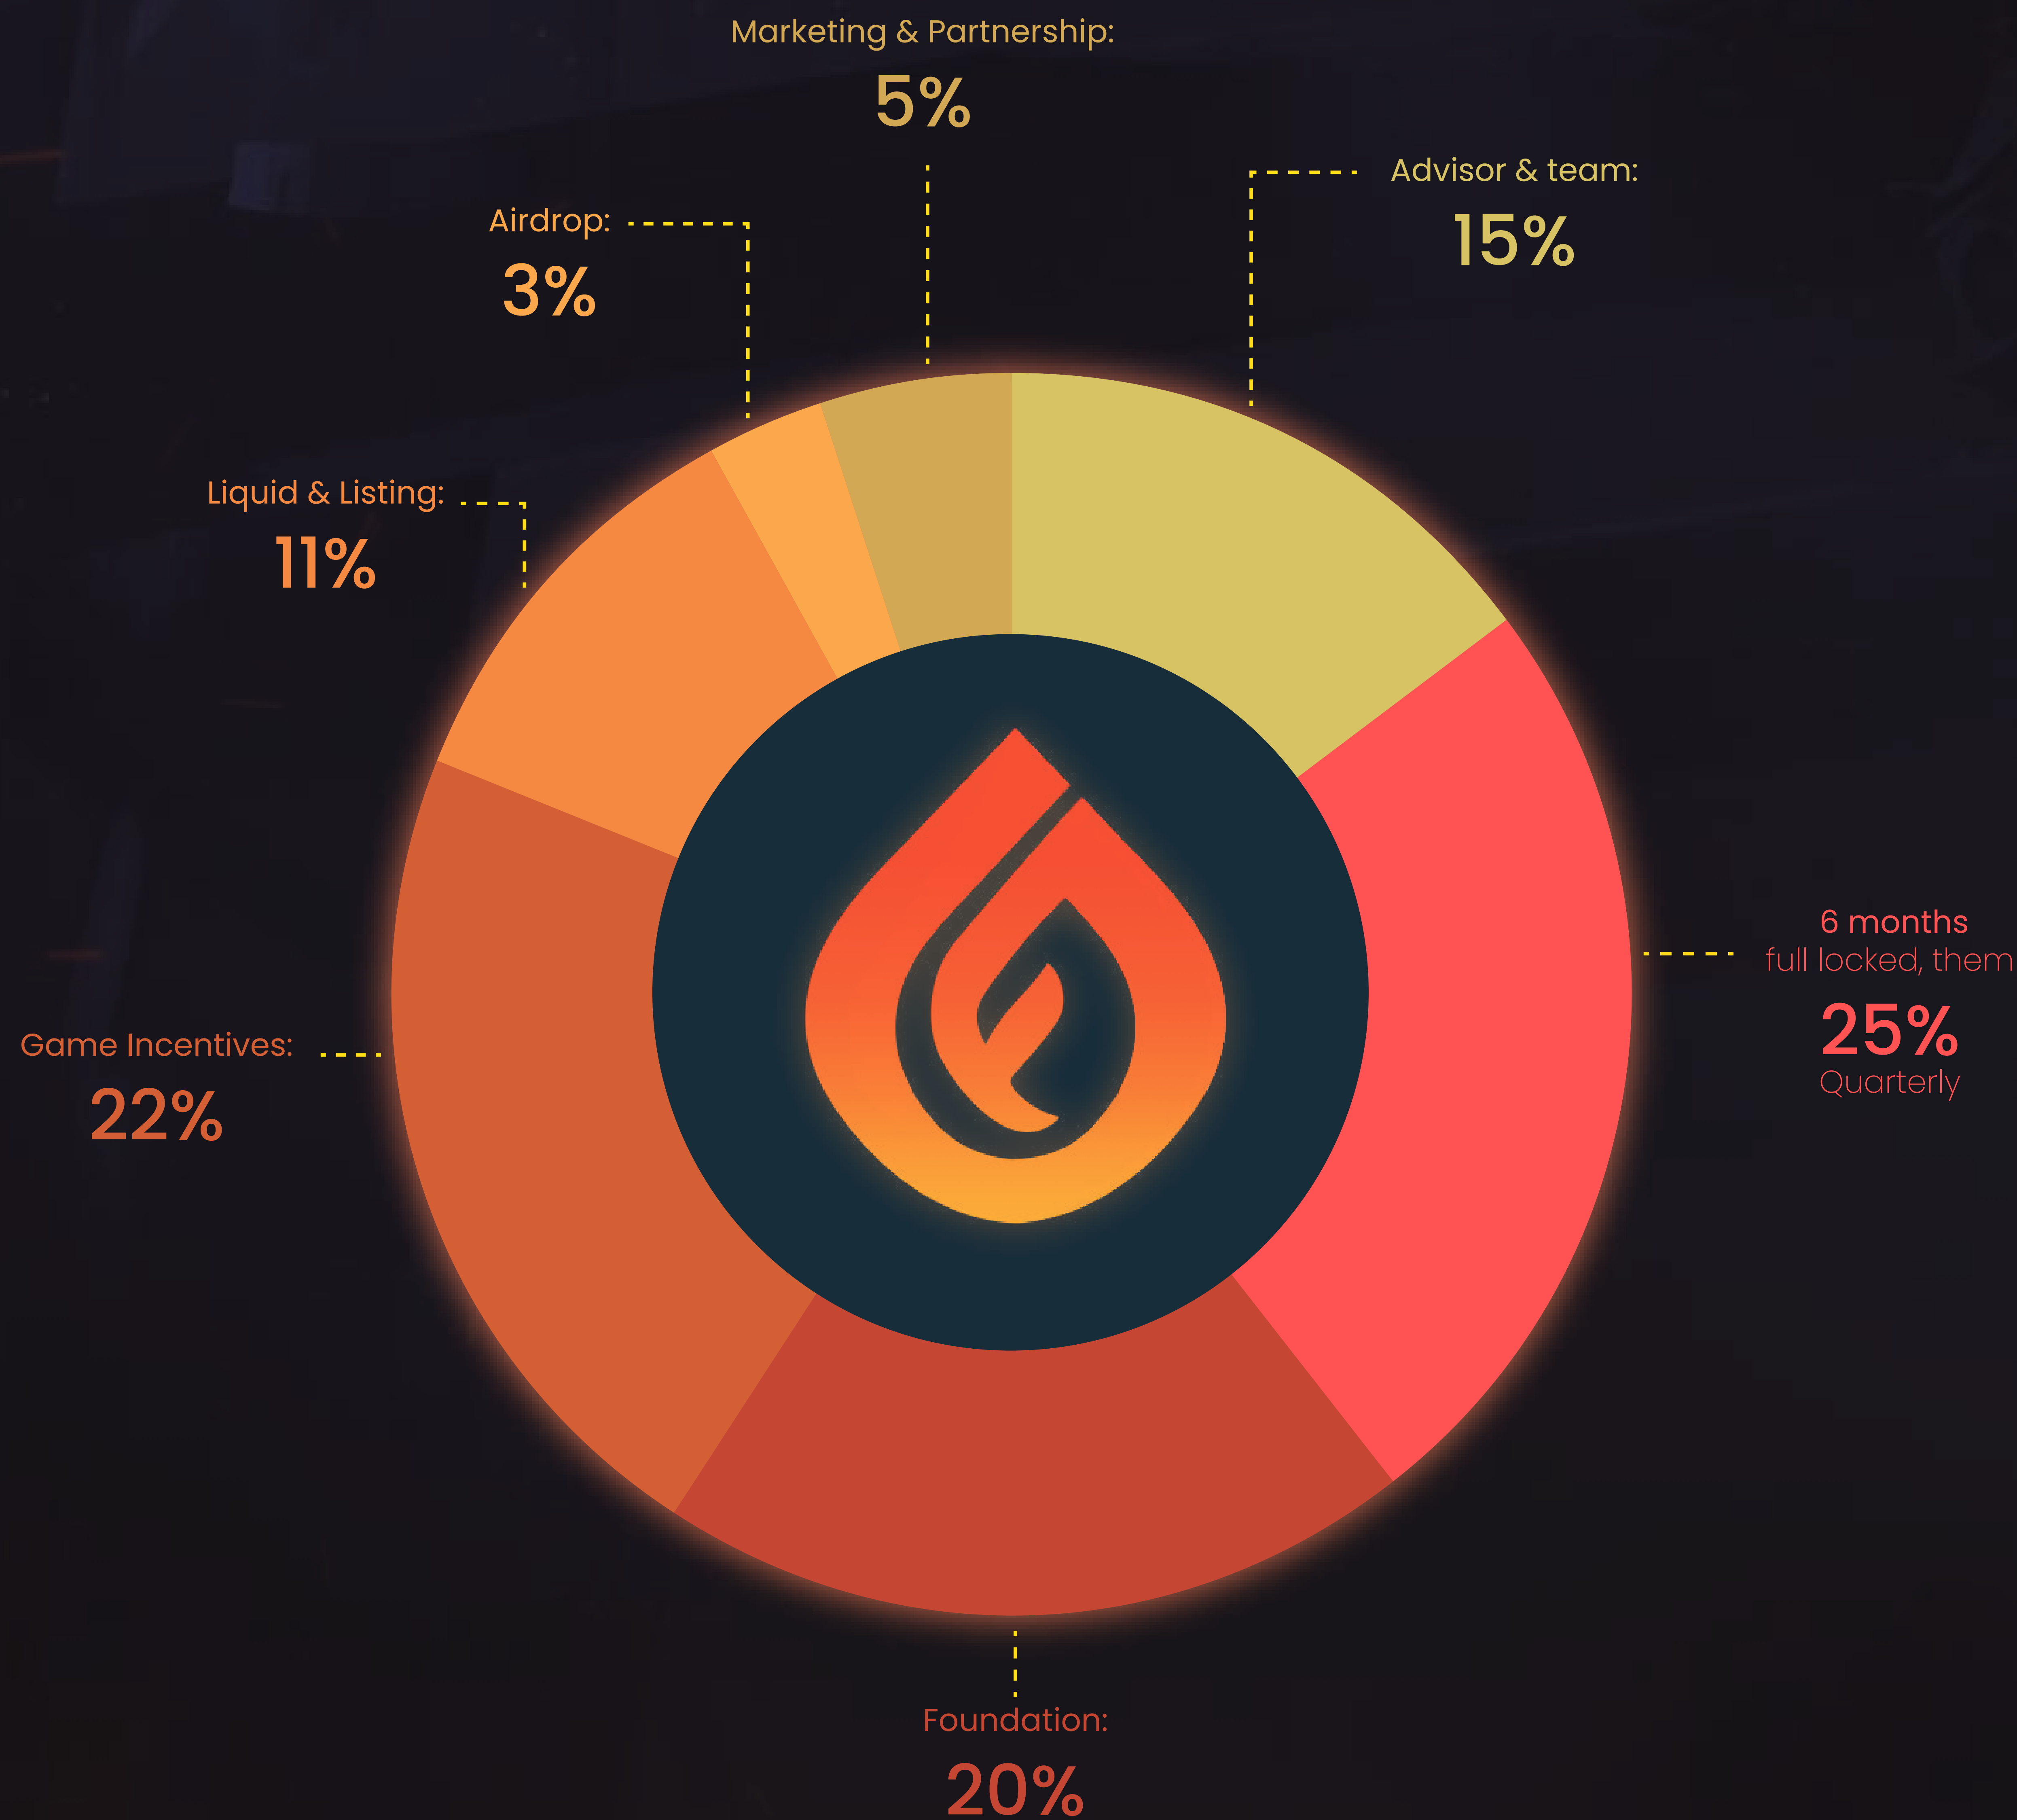

Stake
