

# WazirX will Support the Migration of WRX token from BEP-2 to BEP-20 Chain

 Akshay  
8 months ago

Namaste tribe!

The BNB project team has announced that the BNB Beacon Chain (BEP-2) will be sunsetted in the next few months. The project announcement is available [here](#).

As a result, the WazirX token (WRX), which is on the BEP-2 Chain, will now migrate to the BEP-20 Chain.

**Here's the new BEP-20 contract address for the WRX token:**

[0x2a459dd33f05ed8ea9584505cf04698be5654e6d](#)

Kindly pay attention to the following points for the swap:

## For WazirX Exchange Users:

WazirX exchange will support the WRX contract swap from BEP-2 to BEP-20. Users are not required to take any action.

Deposits for WRX tokens via BEP-20 are now enabled for all users on WazirX.

## For other CEX Users:

Exchanges supporting the swap will handle the migration on their own.

Users don't need to take any action. For further information, please contact the support team of the respective exchanges.

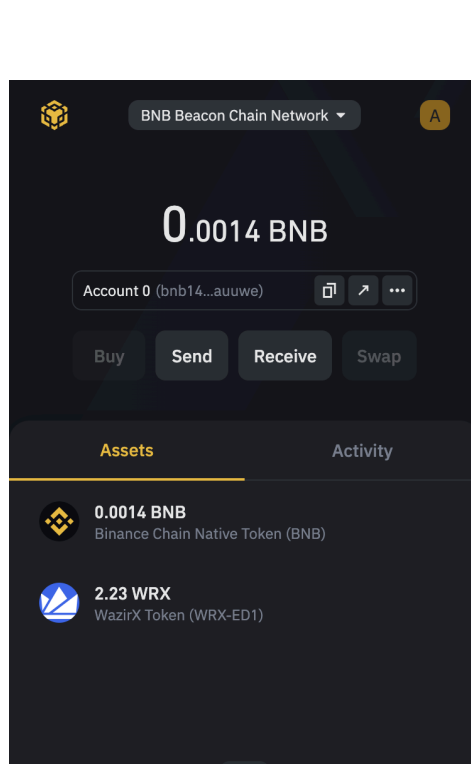

## For Decentralized Exchange & Private Wallet Users:

In this case, users need to swap WRX via the Binance Wallet. It is recommended to complete the swap before June 2024 as per the timelines provided by the BNB chain project [here](#).

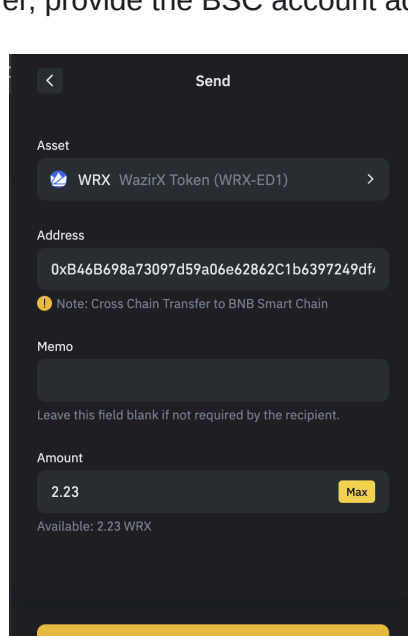

For the swap we recommend using the BNB Chain Wallet or the Trust Wallet mobile app for this process. To assist you, we've provided detailed steps for swapping your WRX using both the BNB Chain Wallet and Trust Wallet.

## Steps for BNB Chain Wallet

1. Import your account containing the WRX tokens into the BNB Chain Wallet. Switch the network to "BNB Beacon Chain Network."

2. Select the WRX asset for transfer, provide the BSC account address, and specify the token amount.

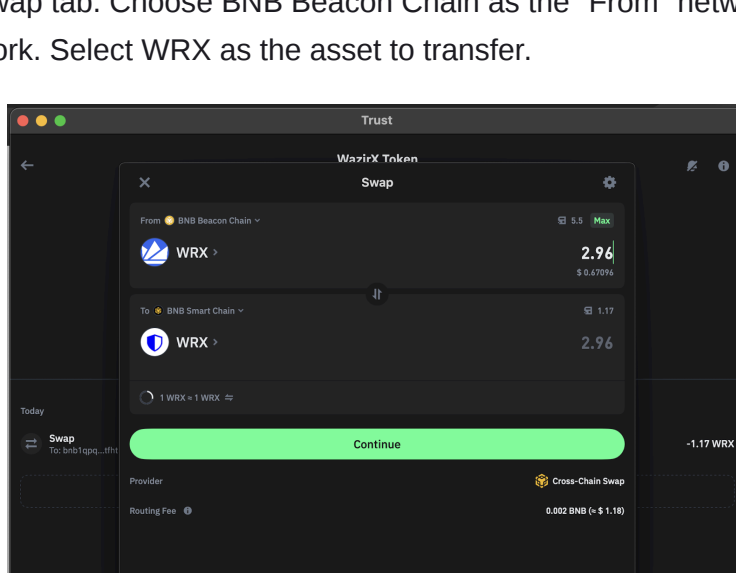

3. The WRX tokens will be received in the BSC wallet after approximately one minute.

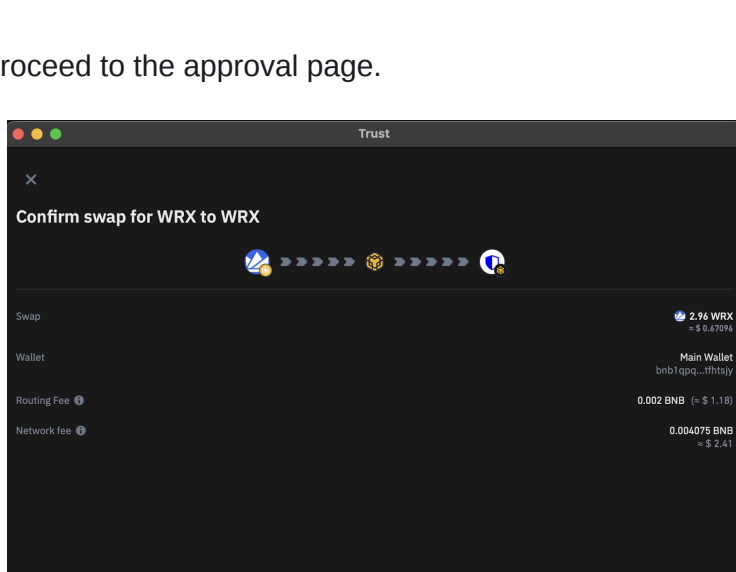

## Steps for Trust Wallet

For users of the Trust Wallet multi-chain wallet, assets can be transferred as follows:

1. Firstly, open the Swap tab. Choose BNB Beacon Chain as the "From" network and BNB Smart Chain as the "To" network. Select WRX as the asset to transfer.

2. Click Continue to proceed to the approval page.

3. Confirm the transaction and the WRX asset will be transferred to the BSC network.

We thank you for your support as we continue to build the crypto ecosystem in a way that promotes transparency and long-term, sustainable growth.

Thanks for your support 🙌
