1. What is Tokocrypto

Tokocrypto was officially launched in September 2018 and became the first entity in Indonesia to be registered under the Commodity Futures Trading Regulatory Agency Indonesia (BAPPEBTI) in November 2019. Tokocrypto's vision is to help Indonesians gain a broader knowledge of the industry and to integrate the technology into the society and subsequently, the global economy.

Over the last three years, Tokocrypto has achieved multiple milestones including 30,000+ weekly active traders, \$25,000,000 USD daily trading volume, 240,000+ downloads since mobile app launch in October 2020 and a user base of 281,000+ registered users.

1.1 Tokocrypto Value Proposition

- **Seamless User Experience:** Tokocrypto launched Tokocrypto 2.0, an upgraded crypto exchange powered by Binance Cloud, enabling customers to experience better trading, security, transaction speeds, a stable platform which is open and transparent.
- **Strong Community Support:** Tokocrypto has a strong social media presence and experienced phenomenal community growth with 200K Telegram members, 400% from the previous year. Tokocrypto's TKO global Telegram community just launched in March 2021 with already 5K members.
- **Trusted Exchange:** In 3 years of operation, Tokocrypto has fostered a relationship of trust with customers, offering a stable exchange with minimal downtime, the most coin pairings, the lowest trading fee and the most competitive withdrawal fee in Indonesia.
- **Customer focused:** Tokocrypto values customers as partners. This customer-first approach drives the team to deliver world-class customer service at the highest integrity and professional standards.
- **Binance IDR (BIDR) stablecoin:** In June 2020, Tokocrypto launched Binance IDR (BIDR) an industry-leading rupiah-based stablecoin that is an integral fiat gateway for millions of Indonesians.

2. What is Toko Token (TKO)?

TKO, by Tokocrypto, will be the first local Indonesian cryptocurrency project to offer a unique hybrid token model, with the following core use cases:

- **Exchange Platform Token:** As an exchange platform token, TKO offers trading fee discounts, airdrop entitlement, merchandise redemption, and other incentives.
- **Participation in Deposit & Savings Programs:** The TKO token can be used in deposit and savings programs such as TKO Deposit, TKO Savings, and TKO Cashback.
- **Cross-Platform DeFi Use Cases:** Planned use cases also include integrating TKO on third-party DeFi platforms via farming pools, lending, and more.
- **NFT Arcade:** Tokocrypto will pioneer the Indonesian NFT landscape with Indonesia's first-of-its-kind marketplace for digital collectibles and creative assets from emerging young artists. TKO is the backbone of the platform and the payment gateway between creators and audiences.

Tokocrypto CeFi and DeFi Ecosystem User Journey

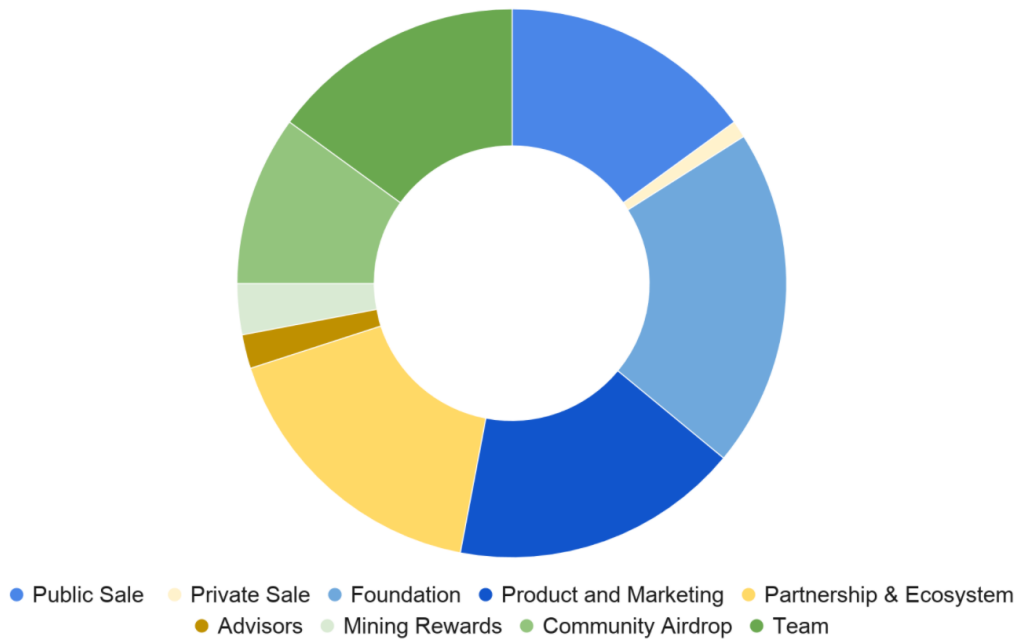

The synergy of TKO and BIDR offers a seamless experience from a hassle-free fiat gateway to easy access to crypto-assets and DeFi technology.
