Horizen (ZEN) Migration Hub

Everything you need to know about Horizen's migration to Base - all in one place.

Step-by-Step Docs ↗ | ZEN Claim Portal ↗

ZEN is Live on Base

As of July 23rd 2025, Horizen has successfully completed its migration to Base.

Zen Claim Portal Is Open

If your ZEN is still on the legacy Horizen mainchain, you can claim your ZEN on Base now.

ZEN is tradable on Base DEXs

ZEN is live and liquid on Aerodrome and Uniswap.

Some of the available pools can be seen below

ZEN Claim Portal is Open

A user-friendly web portal to guide you through the claiming process. ZEN claim ratio is 1:1

Claim Your ZEN ↗

ZEN on Aerodrome

- ZEN : WETH
- ZEN : AERO
- ZEN : ZRO
- ZEN : cb.BTC

Trade on Aerodrome ↗

ZEN on Uniswap

ZEN : USDC

Trade on Uniswap ↗

1. **If Your ZEN Was On EON before July 23**

If your ZEN is on a regular wallet (eg. MetaMask, Coinbase Wallet, etc), your ZEN should have automatically migrated to the same wallet address on Base.

Please check your wallet and ensure the ZEN balance is there.

2. If Your ZEN Is In A Mainchain Wallet

- Sphere Wallet
- Ledger Wallet
- Any third-party non-custodial wallet

Use the Claim Portal to claim ZEN now

The **official claim portal** is open. You can begin to claim an equivalent amount of the new ERC-20 ZEN on Base. There is no deadline, but to start using your ZEN in DeFi, migrate now.

Use your wallet to sign a message for proof of ZEN ownership

The claim process involves using your current wallet to sign a message proving you own your ZEN. Think of it like showing your ID to pick up a registered package.

3. If Your ZEN Is On A Central Exchange

- Coinbase
- Binance
- Kucoin
- Etc.

Check Exchange Support Status

Check the Exchange Support Status Page

Check to see if your exchange has confirmed the support for the ZEN migration.

If your exchange supports the ZEN migration - you do NOT need to do anything

Your ZEN migration will be automatic - your exchange will handle the migration process.

The Migration Progress

More About the 2025 Roadmap

MAY 2025

Milestone 1: Exchange Readiness - Completed

- Security Review Complete
- ERC-20 Smart Contracts for M1 deployed to Base Testnet.
