INTRODUCTION

“

LUFFY was founded in August 2021 with the sole purpose of building an entire ecosystem for investors and fans alike.

LUFFY is a community-driven token built on the most secure and well-established blockchain, “The Ethereum network,” allowing investors and fans to stay decentralized.

LUFFY has renounced the contract and burnt the liquidity in order to provide the security and safety for investors, our Nakama's.

LUFFY is a deflationary token with an initial burn of 50% of the supply and successive burns of 2% on each transaction.

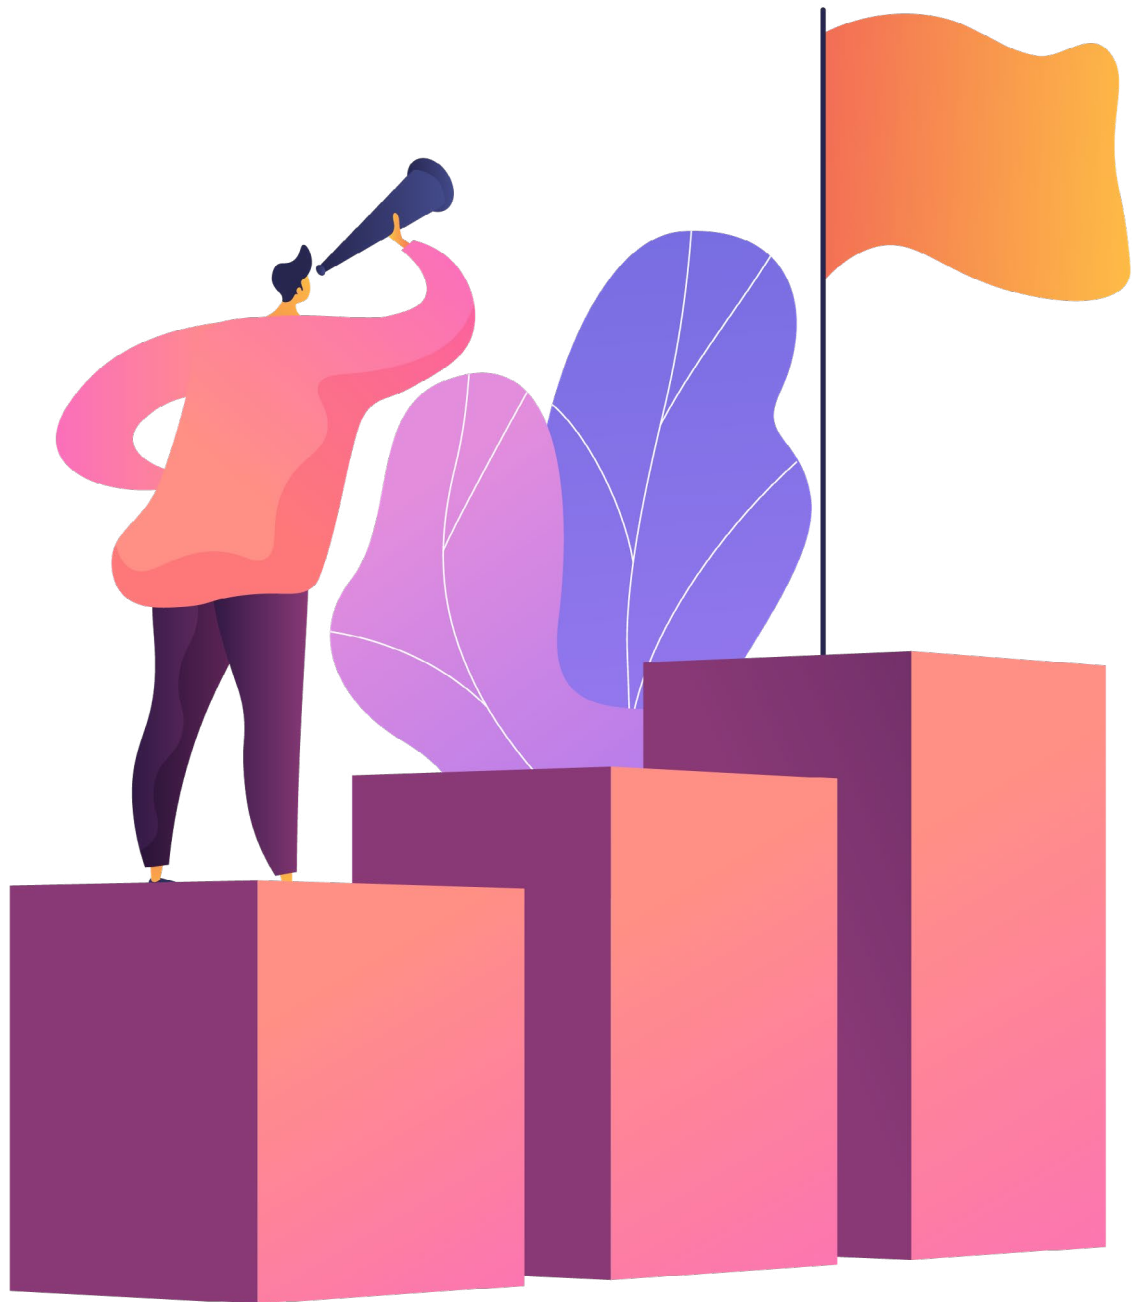

LUFFY has built a solid foundation based on transparency and communication to assist all investor concerns by providing regular updates and responding to all project-related questions.

LUFFY has consistently delivered on each promise since its launch. Our goal is to establish a credible token with real-world utilities. Our dedication is unmatched. We will not relinquish our efforts and continuously update our roadmap as new innovations occur.

MISSION

Become the leader of anime and meme tokens

- Luffy Token -

We aim to create a safe and exciting space for investors and fans alike with modernized tooling, advanced DeFi platforms, education, P2E gaming, metaverse, and world-class artwork as well as to help underpaid anime and manga artists.

VALUES

COMMUNITY

Our team is 100% committed to helping its community. Our project is built upon transparency, respect, and educating investors, whether you are a novice investor or a veteran in the crypto world; we are all here to help.

Our team takes a proactive approach to keep our investors up to date with our development progress and marketing plans. We believe in fostering a positive & healthy community environment that is welcoming and friendly for everyone. We are dedicated to serving the community and educating all investors.

TRANSPARENCY

Luffy is a registered company with an experience team that has been fully disclosed. Our goal is to provide incredible utility and tooling to the crypto space as we aim for a presence on all of the top cryptocurrency exchanges.

TOKENOMICS

Deflationary Token

Luffy has a creative burning mechanism; more than 54% of the total supply has been burnt and the burning rate is expected to reach 70% by the end of 2022, thanks to the successive burns of 2% on each transaction.

2% Marketing

We are currently spending more than \$100,000 per month on marketing.

3% Rewards

Every holder will get 3% distribution of each transaction.

2% Liquidity

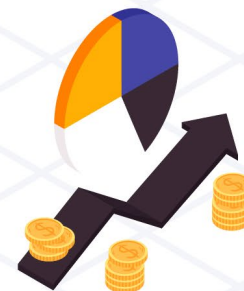

Our liquidity pool is fed with every transaction which prevents whale manipulation.

54% burnt
46% circulating

2% Burn

With burning 2% of each transaction we reduce the circulating supply and support new price levels.
