### **Key information**

The ROOBEE token is the main token of the Roobee project. The token is actively used within the Roobee community and in various DeFi apps. With the help of the ROOBEE token, users can participate in the development of the project by casting their votes during voting rounds on Roobee DAO.

Below, you'll find all the information you need on the ROOBEE token.

### Web resources:

- CoinMarketCap: https://coinmarketcap.com/currencies/roobee/
- CoinGecko: https://www.coingecko.com/en/coins/roobee

### **Blockchains:**

A portion of ROOBEE tokens was locked in the Ethereum smart contract and then transferred to BNB Chain, Polygon, Avalanche, Optimism, and Arbitrum blockchains.

The transfer of the aforementioned portion of ROOBEE tokens beyond the Ethereum network enabled ROOBEE users to interact with various DeFi apps on other popular blockchains.

### The token's smart contracts:

- Ethereum: https://etherscan.io/token/0xa31b1767e09f842ecfd4bc471fe44f830e3891aa
- BNB Chain (ROOBEE): https://bscscan.com/address/0xf77351d8f4ee853135961a936bb8d2e4ffa75f9d
- BNB Chain (bROOBEE)\*: https://bscscan.com/token/0xe64f5cb844946c1f102bd25bbd87a5ab4ae89fbe
- Polygon: https://polygonscan.com/address/0xfafa220145dfa5c3ec85b6fa8a75aee2451cde5e

- Avalanche: https://snowtrace.io/address/0x4036f3d9c45a20f44f0b8b85dd6ca33005ff9654
- Optimism: https://optimistic.etherscan.io/address/0xb12c13e66ade1f72f71834f2fc5082db8c091358
- Arbitrum https://arbiscan.io/address/0x3bd2dfd03bc7c3011ed7fb8c4d0949b382726cee

The transfer of ROOBEE tokens to the BNB Chain, Polygon, Avalanche, Optimism, and Arbitrum networks is a strategic move aimed at attracting new users to the Roobee platform, and thus increasing our user base and the number of ROOBEE holders.

() \*bROOBEE is a token that is used on Roobee DAO (on BNB Chain) for voting. Users can stake their bROOBEE tokens on Roobee DAO and earn rewards (the APR is 6%).

### **Bridges**

Please carefully read the information below.

- Please be careful when sending your tokens: if you want to send ROOBEE to an exchange, be sure to check what blockchains are supported by the exchange for ROOBEE deposits.
- Important note: at the moment, exchanges only support ROOBEE deposits made via the Ethereum network. Please keep this in mind if you want to transfer your tokens to an exchange.

Below you'll find links to bridges that allow you to transfer tokens to various networks.

### A bridge for ROOBEE tokens Supported networks: Ethereum, BNB Chain, Polygon, Avalanche, Optimism, Arbitrum.

### How to set up Metamask for Optimistic Ethereum

In order to work with the Optimistic Ethereum, you will need to use the MetaMask wallet. You can install MetaMask on your Chrome browser or install the Metamask app on your phone.

Once installed, please follow the guide below to connect your MetaMask wallet to the Optimistic network.

### Step 1:

© Cottening

Click on the network dropdown. Next, select "Custom RPC" (as shown on the screenshot).

A form will appear where you'll need to enter certain parameters to connect to the Optimistic Ethereum network.

In this form, enter the following:

- Network name: Optimistic Ethereum
- New RPC URL: https://mainnet.optimism.io/
- ChainID: 10
- Symbol: OETH
- Block Explorer: https://optimistic.etherscan.io/

#### Step 3:

Once the Optimistic Ethereum network is added to your MetaMask, switch from Mainnet Ethereum Network to Optimistic Ethereum

### \* How to set up Metamask for Binance Smart Chain

In order to work with the Binance Smart Chain network, you will need to use the MetaMask wallet. You can install MetaMask on your Chrome browser or install the Metamask app on your phone.

### Once installed, please follow the guide below to connect your MetaMask wallet to the BSC network

Step 1:

Click on the network dropdown. Next, select "Custom RPC" (as shown on the screenshot).

#### Step 2:

A form will appear, where you need to enter certain parameters to connect to the Binance Smart Chain network.

In this form, enter the following:

- Network name: Binance Smart Chain
- New RPC URL: https://bsc-dataseed1.binance.org:443
- ChainID: 56
- Symbol: BNB
- Block Explorer: https://explorer.binance.org/smart

Step 3:

Once the BSC network is added to your MetaMask, switch from Mainnet Ethereum Network to Binance Smart Chain.

Unlike the Ethereum network, where-in the transaction fees are paid in ETH, Binance Smart Chain charges fees in the BNB token. Once you've switched from the Ethereum network to BSC, BNB will be displayed as the main token, instead of ETH.

Please note:

- Metamask works with the BSC network in the same way as it does with the Ethereum network. The fees on the BSC network are paid with BNB (i.e., ETH is replaced with BNB, whereas ETH, with rare exceptions, is not used by the network)
- In some cases, MetaMask may display the BNB tokens in your wallet as ETH (but always keep in mind that they are not)
- Your wallet address on both the Ethereum and BSC networks is the same. If you've previously used the Ethereum network and you have assets stored there, these assets will not be displayed after you switch to BSC (because your assets are stored on the other blockchain). The assets will show up again after you switch back to Ethereum.
- Ethereum network's token standard is ERC20
- BSC network's token standard is BEP20
- The Binance exchange supports both ERC20 and BEP20 tokens withdrawals. Before withdrawing BNB, don't forget to select the right network (BEP20)

### **IMPORTANT!**

Do NOT transfer tokens from one blockchain to another directly. For instance, if you send ROOBEE tokens from the Ethereum network to a wallet address on the BSC network, the tokens will be lost forever. The same applies to when you send ROOBEE from the BSC blockchain to a wallet address on the Ethereum blockchain.

You can send tokens within the same blockchain without any problem.

### You can send:

- ROOBEE (ERC20) to a ROOBEE (ERC20) wallet address
- bROOBEE (BEP20) to a bROOBEE (BEP20) wallet address

### Do NOT send:

- ROOBEE (ERC20) to a bROOBEE (BEP20) wallet address
- bROOBEE (BEP20) to a ROOBEE (ERC20) wallet address

# How to use Multichain's bridge for transferring ROOBEE

:

Roobee's new partner Multichain is synonymous with convenience and advanced technologies for interaction with the user. With the help of Multichain, you can transfer \$ROOBEE tokens between different blockchains literally in a few clicks!

### Multichain's official website: multichain.org

Which networks does Multichain support? The Multichain protocol supports a great number of popular networks for making token transfers. Literally in a few clicks Roobee users can transfer their ROOBEE tokens from the Ethereum network to BNB Chain, Polygon, Avalanche, Optimism, and Arbitrum blockchains.

Multichain bridge supports all possible transfer directions. For example, Multichain allows users to transfer ROOBEE from BNB Chain to Polygon, Avalanche, Optimism, or Arbitrum.

Below we will show you how, with the help of Multichain's bridge, you can transfer ROOBEE from one blockchain to another.

(i) Via the steps below, we'll be sending ROOBEE from BNB Chain to Polygon. If you want to transfer ROOBEE within a different pair of networks, simply select the desired network pair during Step 3 – the rest of the steps are the same for all transfer directions.

Step 1.

Connect your wallet to https://app.multichain.org/

Step 2.

Find and select the ROOBEE token for both the 'from' and 'to' directions

### Step 3.

Select the blockchains you want to transfer ROOBEE from and to (for our example, we chose sending ROOBEE from BNB Chain to Polygon).

### Step 4.

Enter the amount of ROOBEE you want to transfer and confirm the transaction by hitting 'Swap'.

Step 5.

Review the swap details, click 'Confirm' and confirm the transaction in your wallet.

From	Cross-chain Router X	Balance: 4,503.86
4000	Please review and confirm the details	mainnet
	From BNB CHAIN - 4000 ROOBEE	+ Send To
То	Address:0x4636369Fd19438dD621EAA7D5671688	Balance: 3,239.25
2,239.251	To Polygon + 2,239.251 ROOBEE Address:0x4636369Fd19438dD621EAA7D5671688	Polygon v mainnet v
<ul> <li>Reminder:</li> <li>Crosschain Fee is 0.1 %, Minimum Cr</li> <li>Minimum Crosschain Amount is 3,52</li> <li>Maximum Crosschain Amount is 1,76</li> <li>Estimated Time of Crosschain Arriva</li> </ul>	Crosschain Fee: ③ 1760.749 ROOBEE (0.1 %) Estimated time of arrival: 3-30 min Confirm	XOBEE
Crosschain amount larger than 352.)	Swap	

### Step 6.

The status of your transaction will be displayed in real time. The transfer won't take longer than 5 minutes.

From 0.0	Transaction Details	- 4,000 RO		Balance: 4,503.86 BNB CHAIN CHAIN CHAIN CHAIN
<sup>то</sup> 0.0	From: BNB CHAIN Status To Polygon	0x4636369Fd19438dD621	nding	Balance: 3,239.25 Polygon mainnet
<ul> <li>Reminder:</li> <li>Crosschain Fee is 0.1 %, Minimum Cr</li> <li>Minimum Crosschain Amount is 3.52</li> <li>Maximum Crosschain Amount is 1.76</li> <li>Estimated Time of Crosschain Arriva</li> <li>Crosschain amount larger than 352,</li> </ul>	Tx hash: Receive: Polygon Status			XOBEE
		Swap		

Once the transfer is completed, you'll see the following information:

Image: BNB CHAIN         - 4,0           Tx hash:         0x58da2e8d77382403	00 ROOBEE
Tx hash: 0x58da2e8d77382403	
	85c 🖒
From: 0x4636369Fd19438dE	0621 6
BNB CHAIN Status (	♂ Success
То	
Polygon + 2,239.	25 ROOBEE
Tx hash: 0xff19a18fe750332dec	c4b6 🖒
Receive: 0x4636369fd19438dd	621e 🖒

That's it! ROOBEE will be added to your wallet balance on the target blockchain.

() Please note: Multichain's bridge supports only the ROOBEE token.

If you want to transfer bROOBEE tokens, you'll need to use the bridge on Roobee.finance. Alternatively, you can swap bROOBEE for ROOBEE on BSC and then use the bridge on Multichain.

# BNB chain)

After making the ROOBEE token compatible with BNB Chain, we faced the task of making it possible for our users to swap bROOBEE for ROOBEE on the said network.

 Our swap solution is already here and available via the link: https://roobee.finance/broobee-roobeebsc-bridge

Now, via Roobee.finance, you can swap bROOBEE for ROOBEE (1:1) on BNB Chain.

Please note: you don't have to swap bROOBEE for ROOBEE – you can still use bROOBEE for all the interactions with BNB Chain, be it making swaps, casting your votes or staking bROOBEE on Roobee DAO.

### How to swap bROOBEE for ROOBEE or vice versa:

Step 1.

Connect your wallet to Roobee.Finance

### Step 2.

Go to the token swap page: https://roobee.finance/broobee-roobee-bsc-bridge

### Step 3.

Enter the amount of tokens you want to swap

### Step 4.

Click 'Approve' to allow your wallet to interact with the smart contract and confirm the transaction in the wallet

### Step 5.

Now, after the transaction is confirmed, you can swap your bROOBEE for ROOBEE. To do so, click 'swap' and confirm via your wallet.

Done! Your ROOBEE will be added to your wallet balance once the transaction is confirmed.

# BEP20

:

### **Ethereum: ERC20**

ROOBEE Contract address - 0xa31b1767e09f842ecfd4bc471fe44f830e3891aa

### **Binance Smart Chain: BEP20**

• bROOBEE Contract address - 0xe64f5cb844946c1f102bd25bbd87a5ab4ae89fbe

To transfer ROOBEE from the Ethereum blockchain to BSC, we'll be using the burgerswap.org bridge.

The BurgerSwap bridge allows users to easily convert any ERC20 token to a wrapped bToken (BEP20) issued on Binance Smart Chain. This wrapped bToken can then be listed on BurgerSwap for trading and liquidity provision.

The BurgerSwap bridge can issue a bToken from any ERC20 asset and list it on BurgerSwap. bTokens are collateralized cross-chain assets issued on Binance Smart Chain.

If you haven't used BurgerSwap or any other Binance Smart Chain application before with MetaMask, you should set up your MetaMask wallet for the Binance Smart Chain network first.

Follow the steps below in order to transfer ROOBEE from the Ethereum blockchain to BSC and further work with it.

Connect MetaMask to the Ethereum network. Next, go to the "Bridge" tab, select ROOBEE, and enter the

Step 1:

amount you want to convert.

In our next guide, we will learn how to transfer ROOBEE from BSC to the Ethereum blockchain.

# How to convert BEP20 ROOBEE to ERC20

### **Ethereum: ERC20**

• ROOBEE Contract address - 0xa31b1767e09f842ecfd4bc471fe44f830e3891aa

**Binance Smart Chain: BEP20** 

• bROOBEE Contract address - 0xe64f5cb844946c1f102bd25bbd87a5ab4ae89fbe

To transfer ROOBEE from the Binance Smart Chain to the Ethereum blockchain, we'll be using the burgerswap.org bridge.

### Follow the steps below in order to transfer ROOBEE from BSC to the Ethereum blockchain and further work with it.

Step 1:

First, you'll need to connect your MetaMask wallet on the BSC network to BurgerSwap. Next, go to the "Bridge" tab, select ROOBEE, and enter the amount you want to convert.

In our next guides, we will show you how to provide liquidity and trade bROOBEE on BurgerSwap.

## Integrate your products into Roobee.finance!

Today, we are opening up the opportunity for projects to integrate their products into Roobee.finance. If you have a bridge, a wallet service, or a token, you can submit a request to add your product to Roobee.finance.

Roobee.finance already supports 6 blockchains, 7 wallets, and 29 tokens in the 'Invest' section, and 800+ products are available via our Dashboard. We have also established partnerships with many leading projects like ApeSwap, O3 Labs, Multichain, BitKeep, and more.

Each product will be integrated into Roobee.finance through a voting round on Roobee DAO. Before your product is added to the platform, ROOBEE holders will get familiarized with the product and learn the integration details, and then vote on the integration.

### How to integrate your product:

- If you want to add your token, please fill out this form: https://forms.gle/tqU1gY88YndKewC39
- If you'd like to integrate a bridge or a wallet service, fill out this one: https://forms.gle/z29tV34j94bQiZRL8

### About Roobee.finance

Roobee.finance is a decentralized platform built on Binance Smart Chain.

With the help of Roobee.finance, users will be able to perform the entire set of actions needed for interaction with BSC — make cross-chain transfers, trade and swap assets, or earn interest on them on BSC!

To interact with Roobee.finance, you'll only need to connect your wallet to the platform.

The platform is available via this link: https://www.roobee.finance

The main sections of Roobee.finance:

- Exchange crypto swaps
- Save an aggregator of yield farming opportunities for liquidity providers
- Bridge the official Binance bridge
- Roobee Bridge our own bridge for transferring ROOBEE tokens from the Ethereum network to BSC

### **Creating a wallet**

To start working with Roobee.finance, you'll first need to set up a wallet that supports Binance Smart Chain (BSC).

When setting up your wallet, please carefully follow each step of the guide article and be sure to store the backup seed phrase in a safe place.

We recommend the wallets below. They are very user-friendly and easy to get set up on.

### Desktop

🦊 MetaMask - (Set up guide)

### **Mobile devices**

Trust Wallet - (Set up guide)

🔒 SafePal - (Set up guide)

Please remember: you should NEVER share your private key or backup seed phrase with anyone under any circumstances.

### **Getting BEP20 tokens**

BEP20 is the native token standard of Binance Smart Chain. To use the BSC network, you'll need to have a small amount of BNB tokens (BEP20) to pay gas fees.

And, of course, in order to do swaps or deposit tokens & earn yields via Roobee.finance, you'll need BSCbased tokens.

There are several ways to get your first tokens on BSC. Here are some options that we recommend:

SafePal – you won't need to create an account to use the app. Cross-chain swap tokens directly in your wallet.

Here's a quick guide on how to use the SafePal wallet

Binance Bridge — no need to sign up too.

A quick guide on Binance Bridge

Roobee Bridge is our own bridge for transferring ROOBEE tokens from the Ethereum network to BSC and vice versa.

How to use Roobee Bridge

**Binance.com** – if you use Binance, you can withdraw tokens as BEP20 tokens via your Binance account.

A guide on how to withdraw crypto on Binance

### **Connect Your Wallet to Roobee.finance**

Connecting a wallet to Roobee.finance

Once you've created a wallet and got BEP20 tokens, you can jump to Roobee.finance – your wallet will get connected to the platform automatically.

Now you are ready to use Roobee.finance!

Please remember: you should NEVER share your private key or backup seed phrase with anyone under any circumstances.

### How to swap tokens

To swap tokens on Roobee.finance, just connect your wallet to the platform and go to 'Exchange'.

<b>bee</b> finance	Exchange			@ 0x43e2F3FB31

You can withdraw the tokens back to your wallet by clicking 'Withdraw'.

### (!) Please note:

- Due to the load on the BSC network, it may take from 10 seconds to 10 minutes for a transaction to get processed Roobee.finance uses Venus pools.
- The Venus platform can take a small fee from your deposit. The APYs displayed are subject to change and may vary from time to time

### Marketplace

We have prepared a step-by-step guide on how to interact with the Marketplace section on Roobee.finance.

Follow this guide to effortlessly interact with the Marketplace on Roobee.finance.

### **Description of the Marketplace Section**

Through the Marketplace section, users can acquire cryptocurrencies in just a few clicks. Thanks to the shopping cart feature, users can make purchases in a single transaction. They need to add the desired tokens to the cart beforehand. Within the cart, users can specify the quantity of tokens to purchase and select a payment method. After that, they can confirm the transaction. Additionally, within this section, users can explore the project on the product card before purchasing the token.

The Marketplace section is accessible through this link: https://app.roobee.finance/invest

### Step-by-Step Guide to Purchasing Tokens Using the Marketplace Section

### **Step 1. Preparation**

Firstly, you need to connect your wallet to app.roobee.finance.

### Step 2. Marketplace

Once you have connected your wallet to the platform, navigate to the Marketplace section.

(r) r	<b>oobee</b> finance

### Step 3. Asset Selection and Adding to Cart

To demonstrate the full capabilities of the Marketplace and the cart, let's choose a few tokens for purchase. Specifically, we've added the tokens 1inch, ROOBEE, and UNI to the cart on the BNB Chain network.

To add tokens to the cart, simply click on "Add to cart."

#### Step 4. Proceed to Cart

Once you've selected the assets for purchase, you can proceed to the cart by clicking the "Checkout" button.

In the cart, you can specify the quantity of tokens you intend to purchase. You can do this in the "Token amount" field.

Farming	🔶 ETH	0 ETH	1.01 %	O ETH	Save	Withdraw
(Old Roobee Finance)	Ł LTC	0 LTC	0.63 %	O LTC	Save	Withdraw

Save is an aggregator of yield farming opportunities for liquidity providers. Users can deposit tokens to earn yields. Currently, the aggregator utilizes Venus pools (we plan to connect it to more pools in the future).

You can deposit any amount of tokens for any period. Plus, you can withdraw the deposited tokens and claim the rewards whenever you wish. Rewards are accrued with each block mined on BSC (every 3 seconds).

Asset	APY	Lock-up period
BNB	~1,57%	No lock-up
BUSD	~23,59%	No lock-up
USDT	~22,48%	No lock-up
USDC	~13,44%	No lock-up
BTCB	~1,09%	No lock-up
ETH	~1,01%	No lock-up
LTC	~0,63%	No lock-up

At the moment, you can earn yields by depositing the following assets:

(i) Please note:

- APYs are subject to change
- Yields are accrued in the same tokens as the deposit

In the future, we'll connect additional pools so that our users can earn more yields on more assets.

### Roobee DAO

Roobee DAO is a BSC-based decentralized platform for staking and governance proposal creation. To use Roobee DAO, you'll need a web3 wallet (for example, MetaMask, Safepal, TrustWallet, etc) and bROOBEE tokens.

:

Roobee DAO governance overview

Proposal creation and voting on Roobee DAO

Staking on Roobee DAO

### **Roobee DAO governance overview**

Every user who has at least 2,000,000 xROOBEE delegated to their address can put forward governance proposals on Roobee DAO and thus start voting sessions. Users can make proposals on changes to ROOBEE staking rewards on Roobee DAO, platform parameter changes on app.roobee.io and roobee.finance or, for example, propose adding new products to these platforms.

The purpose of this overview article is to familiarize you with the key features of Roobee DAO.

Please note: the Roobee DAO platform is built on Binance Smart Chain. In order to vote, a user must have bROOBEE tokens on their wallet balance.

Before we dive into the overview, let's take a brief look at the current requirements for creating governance proposals:

- In order to use Roobee DAO, you will need a web3 wallet (MetaMask, Safepal, TrustWaillet, etc).
- To take part in a voting session, you will need xROOBEE tokens (you can get them by staking ROOBEE).
- Proposals can be made by only those users who have at least 2,000,000 xROOBEE delegated to their address.
- Voting is considered successful if at least 51% of users have voted for or against the proposal.
- All proposals put forward on Roobee DAO are subject to a voting period. Users can cast their votes only during this period.

### **Roobee DAO interface**

- Go to dao.roobee.finance
- When you first visit Roobee DAO, you will see a pop-up window that will prompt you to connect your web3 wallet. We recommend using MetaMask it's the most popular crypto wallet browser extension.
- Once you've connected your wallet, you will see the main elements of the interface (on the left side of the window): the 'Voting' and 'Staking' tabs.
- The number of votes delegated to the connected wallet is displayed in the 'Staking' tab as xROOBEE tokens.
- If you have at least 2,000,000 xROOBEE, you will be able to make a proposal by clicking on the 'Create Proposal' button.

roobee dao	Voting

	20.00	1. J. S. M.	1.00.00		1.000	B4 164

e	You can create Proposal	Create Proposal
	Past Proposals	

### The 'Staking' page

- The 'Staking' page consists of several sections: DAO stats, your wallet balance (bROOBEE and xROOBEE), and information on bROOBEE that you've staked.
- On this page, you can stake your bROOBEE tokens to receive xROOBEE.

### There are two staking options on Roobee DAO:

No-fixed-period ROOBEE staking.	365 days ROOBEE staking.
With this option, you can stake bROOBEE tokens for any period and withdraw them at any time. However, once you unstake and withdraw your bROOBEE, the granted xROOBEE tokens will be removed from your balance.	If you choose this option and stake bROOBEE for 365 days, you will receive xROOBEE tokens that you can keep and use for voting for an unlimited time.

### How xROOBEE tokens are accrued

- You receive 1 xROOBEE token for every 10 bROOBEE tokens staked.
- Also, you can earn rewards in bROOBEE for staking xROOBEE on the Roobee DAO. At the moment, the staking reward is 4% (subject to change in the future).

If you want to learn how to stake bROOBEE and receive xROOBEE governance tokens, you can check out our guide:

### Staking on Roobee DAO

Please note: xROOBEE tokens can be used only for voting on Roobee DAO and cannot be traded.

### The 'Voting' page and proposal creation

On the 'Voting' page, you can delegate xROOBEE, create proposals and vote on them.

- By clicking the 'Delegate' button, you can delegate xROOBEE to yourself or a certain user for proposal creation or participation in voting. To take part in voting, you will need to delegate xROOBEE to your wallet address. After voting, xROOBEE will return to your wallet.
- If you have at least 2,000,000 xROOBEE delegated to your address, you will be able to make a proposal by clicking on the 'Create Proposal' button. If you have less than 2,000,000 xROOBEE, the button will not be available.

• The main part of the page is the list of active and former proposals. You can choose an active proposal and cast your vote or view info on former Roobee DAO proposals.

We've prepared an article where you can learn how to delegate xROOBEE, create proposals and vote in more detail:

Proposal creation and voting on Roobee DAO

### Proposal creation and voting on Roobee DAO

You can make governance proposals and cast your votes via the 'Voting' section of Roobee DAO. Before you start using this section, you'll need to get xROOBEE tokens on the 'Staking' page. We have a guide on staking and getting xROOBEE, which is available via this link.

:

This step-by-step guide will take you through the processes of creating proposals and voting on Roobee DAO.

#### Step 1

When you first visit Roobee DAO, you will see a pop-up window that will prompt you to connect your web3 wallet. We recommend using MetaMask - the most popular crypto wallet browser extension.

#### Step 2

Go to the 'Voting' section.

In the pop-up window, enter your wallet address, then click 'Delegate Votes' and confirm the transaction via your wallet.

Own	Delegate Voting	×
Oper	Delegate Address Enter address	
You c	Delegate Votes	
Past F	Proposals	

### Step 4

Every user who has at least 2,000,000 xROOBEE delegated to their address can put forward governance proposals on Roobee DAO and thus start voting sessions. Users can make proposals on changes to ROOBEE staking rewards on Roobee DAO, platform parameter changes on app.roobee.io and roobee.finance or, for example, propose adding new products to these platforms.

If you have enough xROOBEE on your balance, you can create a governance proposal.

Details		
Test Roobee		

That's it! Voting is considered successful if at least 51% of users have voted for or against the proposal. Once a proposal has been put forward, users will have a certain amount of time where they will be able to cast their votes. Voting will close automatically when the voting period has expired.

If you don't have enough tokens to create a proposal, you can vote on proposals made by other users. To do so, you need to delegate xROOBEE to your own address as explained in this guide, choose an active proposal and cast a vote for or against.

### **Staking on Roobee DAO**

On the 'Staking' page, you can stake bROOBEE to receive xROOBEE tokens.

This quick guide will take you through the process of staking ROOBEE on Roobee DAO.

#### Step 1

When you first visit Roobee DAO, you will see a pop-up window that will prompt you to connect your web3 wallet. We recommend using MetaMask - the most popular crypto wallet browser extension.

### Step 2

Once your wallet is connected, go to 'Staking'.

roobee DAO	DAO Staking			
⊭∠ Voting	Staking Manager			Unstake
D FAQ	DAO Stats		Wallet Holdings	
< Co to Roobee Finance	Total Staked Staked by user Your voting power	10000000 0 0.00%	ROOBEE ×ROOBEE	40000000 0
	ROOBEE At Stake			
	Locked ROOBEE Unlocked ROOBEE Total ROOBEE			0 0 0

#### Step 3

On the 'Staking' page, you can view all the info and statistics on staking. To stake your bROOBEE and get xROOBEE tokens, hit the 'Stake' button.

bobee DAO	DAO Staking			
Voting	Staking Manager			Unstake
FAQ	DAO Stats		Wallet Holdings	
Go to Roobee Finance	Total Staked	1000000	ROOBEE	40000000
	Staked by user	o	<b>xROOBEE</b>	o
	Your voting power	0.00%		
	ROOBEE At Stake			
	Locked ROOBEE			o
	Unlocked ROOBEE			0

Total ROOBEE	0	

### Step 4

In the pop-up window, enter the amount of bROOBEE you want to stake and choose one of the following staking options:

### **Basic: no-fixed-period bROOBEE staking.**

With this option, you can stake bROOBEE tokens for any period and withdraw them at any time. However, once you unstake and withdraw your bROOBEE, the granted xROOBEE tokens will be removed from your balance.

### ✓ Year: 365 days bROOBEE staking.

If you choose this option and stake bROOBEE for 365 days, you will receive xROOBEE tokens that you can keep and use for voting for an unlimited time.

### Step 5

Now that you've entered the amount of bROOBEE for staking and selected a staking option, click on 'Approve' and confirm the transaction via your wallet.

IKI			
	Amount of ROOBEE	Max: 40000000	
C	4000000		
al	Lock Type		
<¢	Basic	<b>N</b> P	
r	Аррг	rove	
0			

### Step 6

Once the transaction is confirmed, you can stake your bROOBEE tokens. To do so, hit the 'Stake' button and confirm the transaction.

Stak	e Your Tokens	×
>	Amount of ROOBEE Max: 40000000	4000000
ũ.	Lock Type	
:€	Basic	
2	Stake	

### Step 7

If you have completed the process successfully, the 'Staking' page will display the updated information on

staking.

The 'DAO stats' section shows the amount of bROOBEE currently staked by a user. In the 'Wallet Holdings' section, you can check the amount of xROOBEE that you can use for voting.

DAO Stats		Wallet Holdings	
Total Staked Staked by user Your voting power	50000000 40000000 80.00%	ROOBEE xROOBEE	0 4000000
ROOBEE At Stake			
Locked ROOBEE Unlocked ROOBEE Total ROOBEE			0 40000000 40000000
Governance Reward ROOBEE			0 Harvest

At the bottom of the page, you will see the amount of bROOBEE you've earned so far as staking rewards (Governance Reward bROOBEE).

() Please note:

- Roobee DAO is built on Binance Smart Chain. In order to stake bROOBEE or vote, you will need to transfer bROOBEE from the Ethereum blockchain to BSC.
- xROOBEE tokens can be used only for voting on Roobee DAO and cannot be traded.
- If you stake your bROOBEE tokens for 365 days, you won't be able to withdraw them until the staking period has ended.

Once you've received xROOBEE, you can use them for voting on the 'Voting' page. To learn more about the process of voting, please check out our guide via the link

Proposal creation and voting on Roobee DAO

### Pancakeswap.finance

We and our rabbit friends at PancakeSwap have prepared for you lots of opportunities for farming \$ROOBEE and \$CAKE on BSC 🚀

### **Here's what we've got:**

If you have bROOBEE and BNB tokens:

• You can add them to a liquidity pool and start farming \$CAKE tokens.

If you don't have bROOBEE:

• You can start farming \$bROOBEE tokens via the SYRUP pool (works similarly to Binance Launchpool).

### 📝 What is PancakeSwap?

PancakeSwap is the number one decentralized exchange on the Binance Smart Chain. The PancakeSwap team has seen continuous support from Binance, including the listing of the CAKE token on the world's largest crypto exchange. PancakeSwap allows you not only to farm CAKE tokens for providing liquidity but also to farm other projects' tokens by using CAKE that you've farmed.

We have prepared for you several guides where you can learn how to farm ROOBEE and CAKE tokens on PancakeSwap.

- Farming bROOBEE in the SYRUP pool
- CAKE farming
- How to add liquidity on Pancakeswap

If you have ROOBEE tokens on the Ethereum network and want to join the farming on PancakeSwap, you'll first need to set up your MetaMask and transfer ROOBEE from Ethereum to BSC. You can do this by following the guides below:

- How to set up MetaMask for Binance Smart Chain
- How to convert ERC20 ROOBEE to BEP20

### Farming ROOBEE in the SYRUP pool

We and our rabbit friends at PancakeSwap have prepared for you lots of opportunities for farming \$ROOBEE and \$CAKE on BSC 🚀

All CAKE holders are now able to farm ROOBEE tokens.

### Here are all the details of the bROOBEE farming campaign:

Stake CAKE tokens to start farming bROOBEE on BSC

- Total tokens: 25,000,000 bROOBEE
- Farming period: 60 days
- Reward start block: 6609400 (~April 16, at 10:00 UTC+3)
- Reward end bock: 8337400 (~June 15, at 10:00 UTC+3)
- Reward per block: 14.4675 bROOBEE

Also, you are able to farm CAKE tokens with 1x CAKE reward for providing bROOBEE/BNB liquidity on pancakeswap. You can find the details here: https://app.gitbook.com/@roobee/s/roobee-eng/pancakeswap.finance/cake-farming

**W** You will be getting x2 rewards for the first 48 hours after the \$CAKE farming pool goes live and x1 rewards afterward.

### A quick guide on how to farm ROOBEE via the SYRUP pool

If you have CAKE tokens, congratulations! You can start farming ROOBEE via the SYRUP pool.

#### To start farming ROOBEE:

- Go to this page: https://pancakeswap.finance/syrup
- Find bROOBEE and click the "Approve CAKE" button
- Click on the "Deposit CAKE Tokens" button
- Enter the amount of CAKE and confirm the transaction
- Confirm the transaction in your MetaMask or TrustWallet

That's it, now you're farming bROOBEE on pancakeswap!

### **CAKE farming**

### Please pay attention!

On Friday, April 23, 2021, 10:00 am (UTC+3) the migration to the version 2.0 will start at PancakeSwap, and smart contracts will be transferred to new, upgraded contracts. After the migration, PancakeSwap will stop giving out rewards for the old type of LP Tokens, and start giving rewards for the new type of LP Tokens. PancakeSwap will also make a new set of farms with the same rewards and token pairs as the old ones. The old farms will stop giving out rewards, so you'll need to transfer to the new ones to keep farming yield. In order to get the new LP Tokens you'll need to:

- 1. Unstake your LP tokens from old farms
- 2. Remove liquidity from old type of LP
- 3. Add liquidity to the new type of LP
- 4. Restake in new farms

In order to prepare for the farming, you'll need to add liquidity on pancakeswap.finance.

 You can find our guide on adding liquidity via the link: https://app.gitbook.com/@roobee/s/roobeeeng/pancakeswap.finance/how-to-add-liquidity-on-pancakeswap

#### How to start farming CAKE for providing BNB/bROOBEE liquidity

#### Step 1:

Once you've added CAKE/BNB liquidity, go to the "Farm" tab and select bROOBEE/BNB

Step 2:

Add your bROOBEE/BNB liquidity tokens to farm CAKE

### Step 3:

Confirm the transaction

CAKE farming will start after confirmation.

That's it! You can withdraw your reward by clicking on the "Harvest" button.

# How to add liquidity on Pancakeswap (bROOBEE/BNB)

### Please pay attention!

On Friday, April 23, 2021, 10:00 am (UTC+3) the migration to the version 2.0 will start at PancakeSwap, and smart contracts will be transferred to new, upgraded contracts. After the migration, PancakeSwap will stop giving out rewards for the old type of LP Tokens, and start giving rewards for the new type of LP Tokens. PancakeSwap will also make a new set of farms with the same rewards and token pairs as the old ones. The old farms will stop giving out rewards, so you'll need to transfer to the new ones to keep farming yield. In order to get the new LP Tokens you'll need to:

- 1. Unstake your LP tokens from old farms
- 2. Remove liquidity from old type of LP
- 3. Add liquidity to the new type of LP
- 4. Restake in new farms

In this step-by-step guide, you will learn how to add bROOBEE tokens to the liquidity pool on pancakeswap.finance.

1. First, you need to go to this page and connect your wallet.

2. Go to the "Liquidity" tab and click "Add Liquidity"

3. Select the bROOBEE token and BNB and enter the amount you want to add to the liquidity pool. You need to provide bROOBEE and BNB in a 50/50 ratio (for example, \$10 in bROOBEE and \$10 in BNB).

÷	Add Liquidity	(
Input	B	alance: 0.805316

### How to swap ROOBEE on BurgerSwap

	SO UNIQUE BEP-721 TO GIVE AWAY	€ • ₩
Swap Pool Governand	e Bridge	
From		
🔶 BNB 0.286699	~	MAX
То	23	
U BROOBEE 0.000000	~ ] [	
Price 0.0 BNB per bROOBEE 🙆		
	Swap	

To swap ROOBEE (BEP20) on BurgerSwap, go to the "Swap" tab and select the ROOBEE token.

If you can't find bROOBEE by search, you'll need to add the token manually.

In order to add bROOBEE manually, enter the ROOBEE smart contract address on the BSC network, as shown in the screenshot below.

NF Select a	a token	×
:b844946	i6c1f102bd25bbd87a5a	ab4ae89fbe
Swap Token Nam	me 🗸	V
rom 😂 BURG	:GER 0.0000	000 BURGER

ROOBEE smart contract address on the BSC network: 0xe64f5cb844946c1f102bd25bbd87a5ab4ae89fbe

Next, select the token that you want to swap for ROOBEE. In our case, we've chosen BNB.

Swa	p Pool Governance	Bridge	
From			
*	BNB 0.286699	~ 0,1  MAX	
То		.63	
C	bROOBEE 0.000000	✓ 440,447792696630640000	
Price	0.000227 BNB per bROOBEE 🏾 🧔		
	Sw	ap	

Please note: the transaction fee is charged in BNB, and usually is between \$0,01 and \$0,05 (in contrast to the fees on the Ethereum network).

That's it. ROOBEE will show up in your MetaMask wallet.

In the next guide, we will talk about how to add BNB/ROOBEE liquidity on BurgerSwap to earn interest on trades done by other traders.

# BurgerSwap

:

To add liquidity on BurgerSwap, go to the "Pool" tab and select "Add Liquidity"

	<b>114,948</b> 24H Total Volume (BNB)	450,518 Total Liquidity (BNB)	
	BurgerSv NFT Can NFT Airdrop for Lice	vap XXL npaign puidity Providers	
	Swap <u>Pool</u> Governance	Bridge	
	Add Liqu	idity	
-	Your Liquidity ⑦	V1 V2	
	Loadin	9	

Select the pair you want to provide bROOBEE liquidity to. In our case, we've chosen the BNB token.

Burg NF NFT Airdr	gerSwap XXI T Campaign op for Liquidity Provi	ders	
Swap <mark>Pool</mark> Gove	rnance Bridge		
< Add Liquidity ⑦			
♦ BNB 0.122256	∽ 0,1	MAX

Prices and pool share			
0.0003	3837.8894	11.63331738%	
BNB per bROOBEE	bROOBEE per BNB	Share of Pool	

Next, specify the amount of bROOBEE/BNB in a 50-50 ratio to provide liquidity and confirm the transaction.

Swap	Pool	Governance	Bridge			
		Add Liqu	idity			
Your Liquid	ity (?)			V1	V2	

Once confirmed, you'll be able to access information on your liquidity pool. **Here's what the terms in the screenshot mean**:

- APR (Annual Percentage Rate) is the annual yield of the pool
- Pooled BNB is the amount of BNB in your pool
- Pooled bROOBEE is the amount of ROOBEE in your pool
- Liquidity mining is the rewards that you earn for providing liquidity
- Pool fees are the fees that you earn from trades done by other traders. You can choose to earn fees in BURGER, USDT, or BNB
- Your pool share is the share of your tokens in the total amount of tokens in the pool

# How to withdraw ROOBEE from a liquidity pool on BurgerSwap

In order to withdraw ROOBEE tokens from a liquidity pool on BurgerSwap, go to the "Pool" tab. Next, select a pool with ROOBEE liquidity, click "Remove", and confirm the transaction.

Swap <u>Pool</u> Govern	ance Bridge	
	Add Liquidity	
Your Liquidity ⑦	۲۷	V2
	(APR: 13.52%)	^
Pooled BNB:		0.104224
Pooled bROOBEE: Liquidity mining: (APR: 0.00%)	0.000	00.000000 000 <b>Claim</b>
Pool fees: (APR: 13.52%)	🤤 0.000000 🗸	Claim
Your pool share :		12.07%
Add	Remove	

ROOBEE and BNB will return to your wallet.

Also, in this tab, you can click "Add", which will allow you to add more ROOBEE tokens to the liquidity pool.
