Dear Community!

As always we are continuously looking for those solution, which can give further benefits to CorionX community and the #MoneyInTheRightDirection Movement.

Our aim is to provide a long-term solution to our cherished community.

In line with this goal, we plan to start our lock-up staking, liquidity providing and yield farming opportunities on Binance Smart Chain. We will announce further details soon about these topics.

To implement our plans we had to change our CorionXb contract address on BSC.

Everyone who owns the old CorionXb token is entitled to swap to the new CorionXb token in 1:1 ratio via PancakeSwap.Finance V2.

CORXb (BSC), old contract address is:
0x36184181fa321e350aaaf88dad723e281365c1ac

https://bscscan.com/token/0x36184181fa321e350aaaf88dad723e281365c1ac

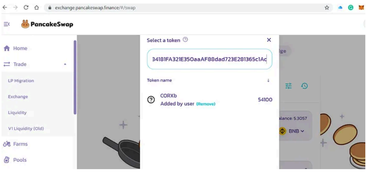

CORX (BSC), the new contract address is:
0x141383CDB8158982fB3469C3e49cC82F8026d968

https://bscscan.com/token/0x141383CDB8158982fB3469C3e49cC82F8026d968

Swap your old CORXb (BSC) to the new CORX (BSC) as soon as you can.

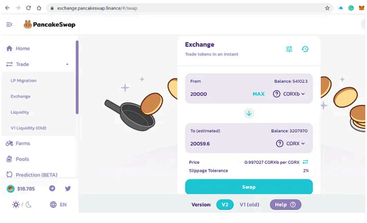

Copy contract addresses in the Select box in the Trade menu.

Do the Swap in V2

From: CORXb, 0x36184181fa321e350aaaf88dad723e281365c1ac

To: CORX, 0x141383CDB8158982fB3469C3e49cC82F8026d968

The old CorionXb token can not be minted via our official bridge https://bscbridge.corion.io/ anymore, but you still can trade it on PancakeSwap. Everyone who wants to bridge the CORX token from ERC-20 will automatically get the new version of CorionXb token on the BSC network.

Stay tuned, a new product release will be coming soon.

Be aware of Fraudulent Tokens sold on Uniswap and PancakeSwap. Scammers are impersonating CorionX token.

To avoid scams, always check our official announcements on our official social media platforms and blog.
