

WHITEPAPER

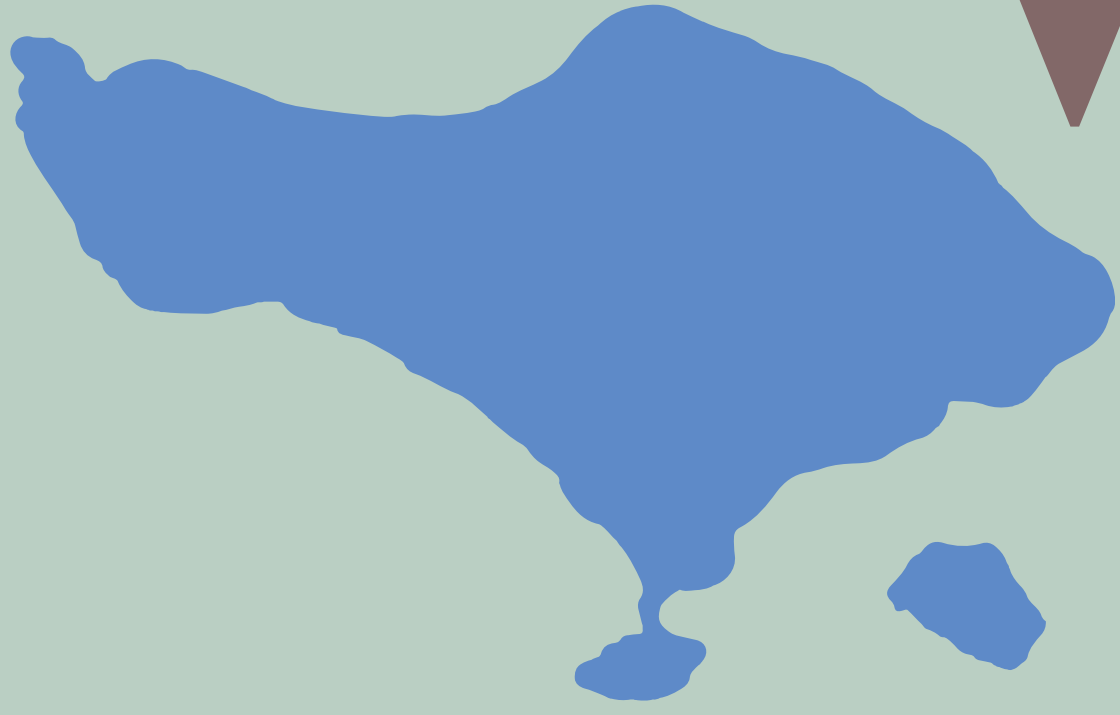

We are the first token to combine these 4 super elements at once.

We chose the tourism sector as a priority in this project, especially Bali tourism. We believe that with our innovations, we can contribute to revitalizing Bali's tourism sector after the pandemic.

We're also very sure, that with the vaccination program being intensively carried out in Indonesia, the heyday of Bali tourism will soon be repeated. And when that happens, then Baby Bali products will be perfectly in the right time, and in the right place.

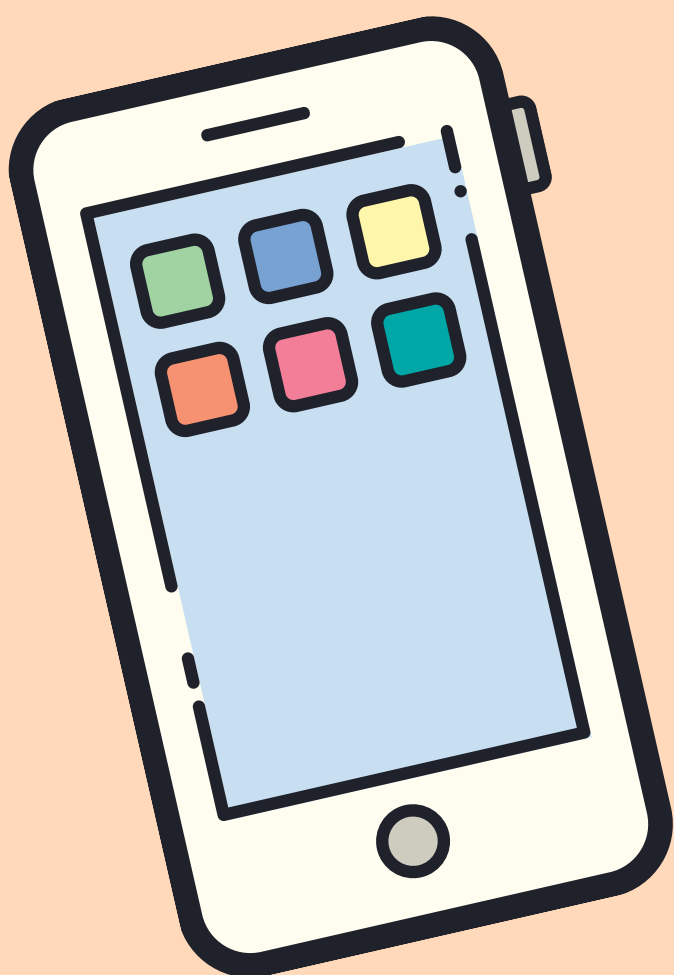

WHITEPAPER

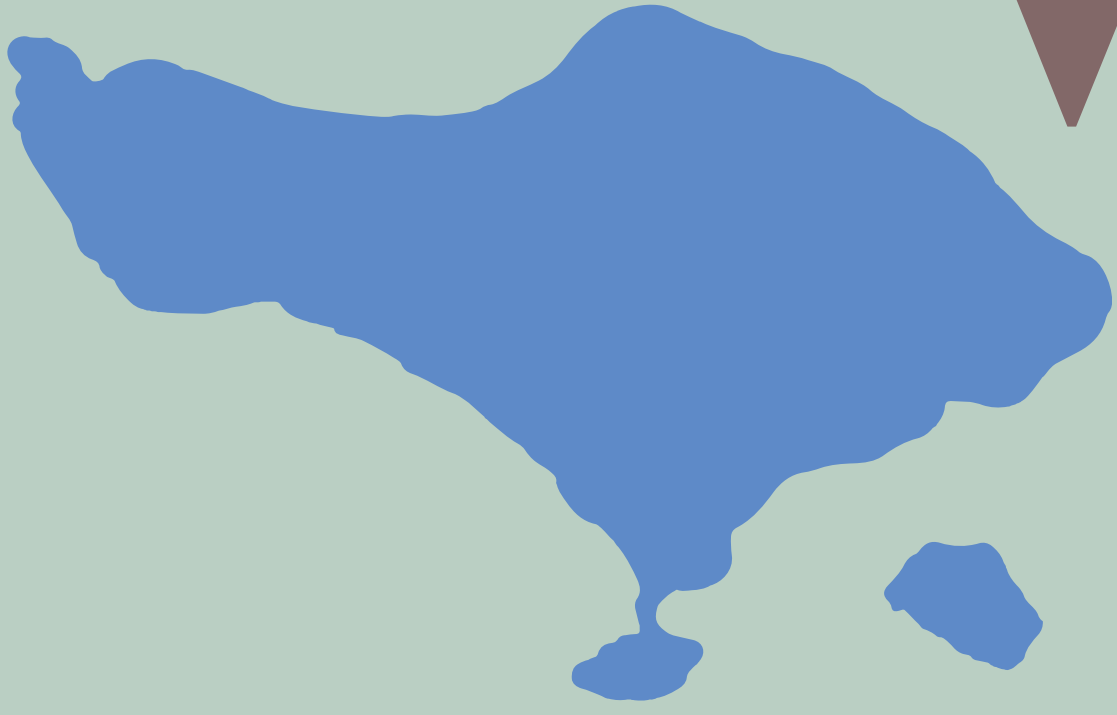

Currently, we are focusing on creating a marketplace, which will be a one stop solution for everyone who wants to go to Bali.

You can search for villas, hotels, spas, car rentals, motorbike rentals, travel agents, food, and even various ongoing promos in Bali.

And not only that, we are preparing a scheme that allows you to transact using Baby Bali tokens in our marketplace without violating the rules that apply in Indonesia.

Meanwhile, we provide games as entertainment for our holders.

A simple game, but makes everyone want to play it again and again.

We will make tournaments for this game regularly, and of course the winners will be rewarded!

Soon it will be available on Google Play Store.
