KUB
@KUBChain

Dear Bitkub Chain Community, 💚

It's been a long journey since day one, back in 2021.

Bitkub Chain has been developing a lot of things, like Bitkub NEXT, Bitkub NFT, and Bitkub Metaverse. We've encouraged millions of users, achieving a total of 5 billion in transactions last year. Now, it's time to go beyond, into a new era for the Bitkub Chain—one the world needs to see.📷

We're thrilled to announce that we'll be rebranding.

“BITKUB CHAIN” IS NOW “KUB”

With the new vision

“To become the leading blockchain network that democratizes access to technology and increases economic value for everyone equally, with transparency, security, and efficiency.”

KUB will be a public blockchain that everyone can connect with seamlessly, increasing opportunities for all and aiming to be a leader in the Thai and global blockchain industry.
