About Us

Lil Floki is the latest token to envelope the BSC space which is based upon Elon Musk's influential Shiba Inu Puppy called Floki.

The strategic decision to call the project Lil Floki was made as Elon Musk, being the trendsetter that he is, every time he tweets about his dog it would create more hype.

Lil Floki rewards in different 2 ways: by increasing the market-cap of our token (and individual token price) thanks to a sound and sustainable marketing plan and by also rewarding Lil Floki holders with BNB Rewards automatically

Our Mission

To provide a safe space on Binance Smart Chain.

Our token has been designed appropriately with low buy and sell tax with tokenomics that contribute towards the longevity of the project.

With the combination of harvesting on the meme-type crypto world of Elon Musk and a project with a good cause (contributing towards New Zealand Dog Shelters), we believe that Elon Musks influence in the Crypto space will continue to provide free advertising whenever he mentions his new puppy, Floki.

Goals

To become a house-hold name in the Meme tokenspace by utilizing the latest trend of social influence.

To provide regular donations to New Zealand dog shelters that lack funding by the New Zealand Government.

7% of every buy and sell transaction goes into a Marketing & Charity Wallet which we will use for Donations and to keep the project running!

Create a sustainable, profitable, transparent, and safe environment.

Why Lil Floki?

We will be posting regular updates and photos of our donation side of the Lil Floki project on our Instagram. There are thousands of tokens on BSC but the one thing that sets us apart is our transparency that you can see where your money is going towards!

As well as this, the association of being part of the Shiba Inu family and with Elon Musk having bought his own Shiba Inu Puppy that he himself called Floki, we will harvest and ride on the wave of every one of his tweets that mention his Dog.

No doubt Elon Musk will be posting photos and updates of his puppy all over his twitter so we will be creating marketing campaigns and seizing every opportunity around this free and powerful marketing.
