Whitepaper

# The Lucky Cat

## \$NEKO

- A wallet co-developed with a leading blockchain security company.
- A cross chain NFT marketplace integrated with The Neko wallet.

theneko.io

# Wallet

- The Neko will be co-developing and manufacturing a wallet and dapp for the future of defi.
- The goals of the wallet will be **MAXIMUM** security and easily viewable and organized collections regardless of blockchain.
- Some features of the wallet will be easy cross chain cold storage for tokens and NFTS.

# NFT Marketplace

- The NFT market place will be integrated with The Neko wallet and Dapp.
- In the “user profile” NFTS from all chains will be present and viewable.

# Token Integration

There will be multiple tiers of native token holding requirements to perform certain actions within the NFT marketplace. Actions such as listings, top of search, ads, and featured galleries will all be performable with a relatively small minimum holding of the Neko token.
