

MetaDoge Migration FAQ

Last Updated: 3rd February 2022

What is the new contract address?
0x9953170dcaac530ad7d6949c7295207c6ec5669d

When will the relaunch be?
We will be relaunching at 11am UTC on Monday 31st January.

Will trading be disabled?
Yes. We will disable trading (including the purchase of lootboxes/trading NFTs on our marketplace) at 4pm UTC on Sunday 30th January, to allow the team time to deploy the new contract and airdrop the tokens.

Will I lose tokens?
No you will not lose any tokens.

Will I have to send my tokens anywhere?
No, we will airdrop every holder their tokens on the new contract.

Will the price change?
No, the price will be the same. If you are holding 1 BNB worth of MetaDoge before the relaunch, you will also hold 1 BNB worth of MetaDoge after relaunch.

Why are you migrating?
Currently we have a transfer tax, if we want to list on big exchanges they do not accept transfer tax.

Will there be a tax change?
Yes. We will be adding an additional 2% tax to sells which will go into our staking pools.

MetaDoge Migration FAQ

Will there be any anti-snipe/anti-dump measures in the new contract?
There will be an anti-snipe function in the new contract. We will also add an additional 8% tax to sells (20% in total) for the first 24hrs, after which it will revert

Will there be a token burn on launch?
Yes. We will burn 30% of the supply. An additional 10% will be added to our staking wallet

Will the Certik score increase?
Yes we will get a much better Certik score as we have fixed everything they pointed out in the audit.

Will you market the relaunch?
Yes we will market the relaunch very heavily you've seen the marketing wallet balance, still have a large marketing wallet!

Is the team still active?
Yes the team is working their hearts out to make this project a success. Always coming up with new ideas for marketing and development. We're actually in the process of expanding!

What will happen to my nfts?
Nothing the nft contracts will be the same and the contracts will be redirected to the new MetaDoge contract so nothing will change.

Will I lose staking rewards?
No. You will not be able to claim these whilst trading is paused, but you will be able to withdraw the staking rewards with the new MetaDoge token.

MetaDoge Migration FAQ

Will the contract be updated on CMC/CG or will there be new listings?
We will update to new listings. The v1 listings will be updated to ‘old’ once the v2 listings are updated

What will the new tokenomics be?

Buys 10%	Sells 12%
5% Marketing	5% Marketing
5% Liquidity	5% Liquidity
	2% Staking

POST-MIGRATION QUESTIONS:

Why can’t I sell the old (v1) tokens?
As part of the migration process, the liquidity in the old contract was moved to the new contract (this is standard for contract migrations). You merely need to trade under the new contract with your tokens that were airdropped to you.

I purchased v1 after migration, what should I do?
We will refund these purchases in BNB.

When will I be able to trade on the exchange (BKEX, ZT, LAToken) again?
They will update you via their website once trading is resumed under the new contract, and we will also announce it on our Telegram.

Why can’t I see the new tokens in my wallet?
You will need to add the new contract address to your wallet:
0x9953170dcaac530ad7d6949c7295207c6ec5669d
