Totem Media overview

Totem Media is the founder of the Dolz.io platform.

Totem Media is a pioneer in relation to large-scale and continuous distribution of high-quality adult content.

Totem Media has also established itself as a notorious competitor in the Virtual Reality gaming industry, by developing one of the very first and most successful erotic VR video games in 2018.

Since the availability of adult content online and to this day, Totem Media plays a major role in the adult industry, with more than 20 years of experience in this continuously expanding market.

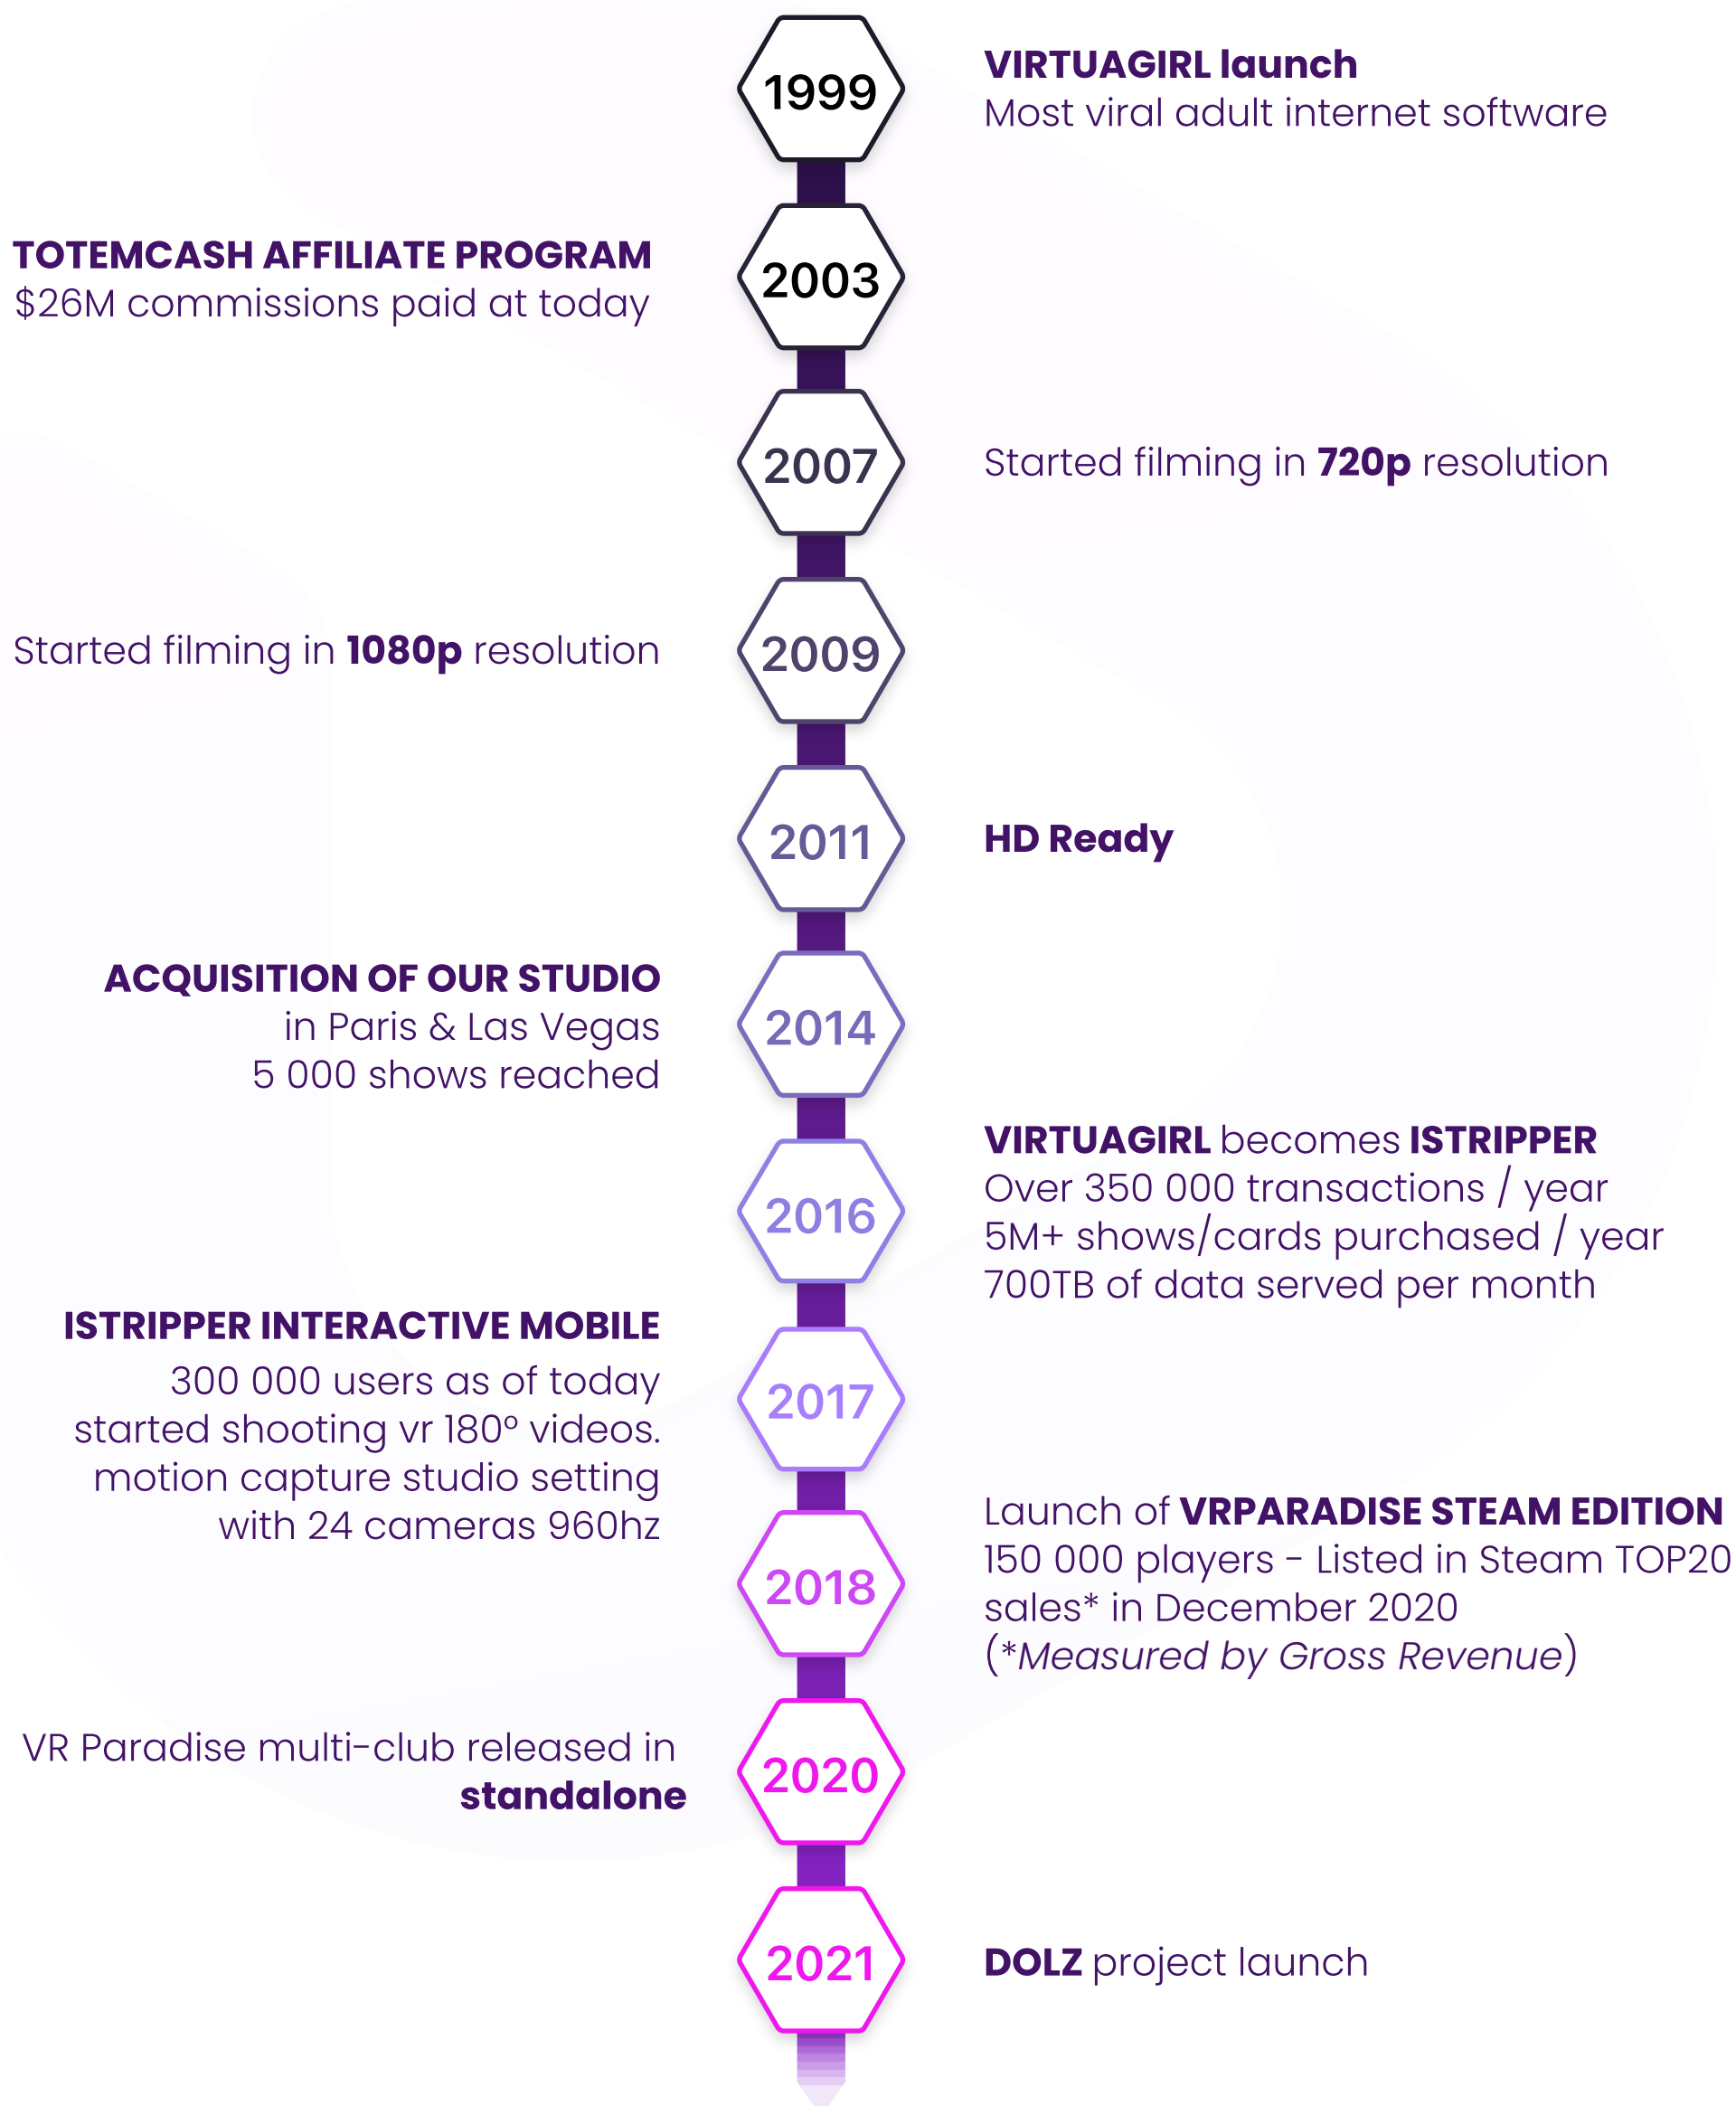

Totem Media history

In 1998, mixing the best parts of video games with adult online entertainment, Totem founders came up with a totally new concept of inlaid video stripteases played directly onto computer taskbars, without background: VirtuaGirl, renamed iStripper in 2016.

20 years later, we built our own motion capture studio and created the first 3D VR strip club on earth: VR Paradise. Once again at the crossroads of adult entertainment and gaming, which opened the doors to Steam, the largest community of gamers in the world.

Totem Media has always anticipated technological evolutions to maintain and develop its activity and client base:

Today, Totem Media's products have reached a super high quality of content and services.

iStripper

iStripper consists in buying shows/cards individually thru a virtual money named « credits ». Our members collect shows/cards and get rewarded by a great VIP program that delivers permanent discounts at each step of their collection process; we propose them amazing gamified promotions and every member makes his voice heard thanks to our loyal and tight-knit community of members who collect absolutely all what we release and are with us for over 15 years...

iStripper records retention ratios and customer values among the best of the market!

VR Paradise

VR Paradise benefits from the same quality of service. Clients can enjoy several clubs, each with a specific atmosphere; we regularly add content (dancers and outfits), schedule special events, offer the possibility to purchase items inside the clubs, like outfits, accessories, tatoos, new private dances, to tip dancers or offer them some drinks (as well as to other clients and friends, as soon as the multiplayer version will be ready!). Its community is loyal and involved at each step of our developments.

As a major actor of the adult entertainment sphere, we have already worked with the biggest companies:

Adult entertainment

Ever since its beginning, the adult entertainment industry business has been growing at an admirable rate.

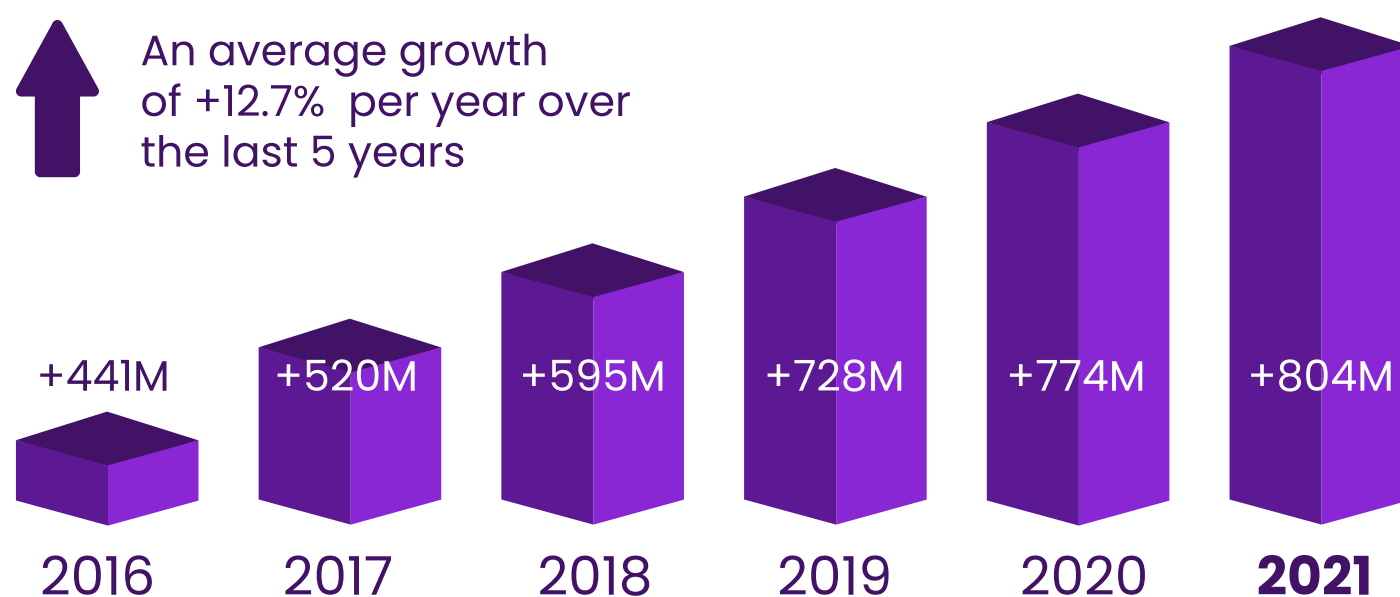

The fast development of new and innovative technology has made adult content even more accessible than ever before. It may not be common knowledge for many, but porn has fueled a lot of the technological advancements we have the pleasure of using today. Without the popularity of adult content, we might still be using VCRs to this day. Its influence is much more essential than just servicing human pleasure.

The adult entertainment industry is a booming market. Between 2016 and 2021, the US adult and pornographic websites industry has grown by **12.7% per year**, on average. According to Yahoo Finance, the adult entertainment industry has generated **more than 15 billion dollars in 2021**. It rivals and even outshines renowned entertainment titans such as Netflix, Amazon, or even the NBA.

The role the adult industry plays in the global economy is non-negligible.

We believe that adult content and its industry have not reached their full potential. **By 2025, the adult market value is predicted to increase by 9.71 billion dollars.**

Virtual Reality gaming

Since the release of the next generation VR headsets around 2010, **the number of weekly VR users multiplied by 10 in 5 years** and the number of VR headsets sold worldwide is expected to **exceed 500 million by 2025**, with the number of weekly VR users reaching 171M worldwide.

The VR adult gaming market has been valued at \$716 million this year and is expected to increase to \$19 billion in 2026. **The adult VR industry will represent 22% of the worldwide digital adult material industry by 2026.**

With major tech companies already facilitating the adoption of the VR headset, the market has already shown signs of immense success and its development is only expected to increase significantly in the coming years.

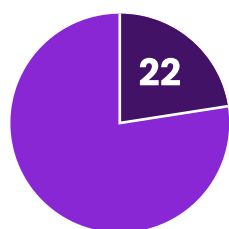

Porn and games are the biggest drivers of VR revenue, with global VR gaming revenue **cashing in 23 billion**, and adult VR games contributing to a major part of the global market share.

By mastering the adult entertainment and adult VR gaming industry, being two very lucrative and successful markets, Totem Media is one step ahead of other gaming and porn companies.
