Pitch Deck

What is

**Wolfiland** is a new innovation to combine Defi, Game and NFT technology with digital market in one **Metaverse system**. Moreover, it provides **passive income** for Token and NFT holders in a unique way and a new method.

Our best version is to open the **metaverse marketplace** where everyone around the world can see **3D** items before buying and give interactions what has been purchased into items in the **metaverse**.

#### Value Proposition

##### Easy to Use

as a Standard Token **Wolfiland** is very adaptable to SmartContract so that it can be combined into many crypto projects.

##### Value project & Investor Focus

Prioritizing projects & investors, with perfect technology, our team believes the value of **Wolfiland** will not decrease because it has been calculated by experts in seeing current trends juxtaposed with reality..

##### What make a different ?

Buying an NFT is commonplace, and it will be great when they get a real product at a **lower price** than other markets and **free shipping** worldwide also provides an easy **shopping experience** in the digital metaverse marketplace.

# PROBLEM

## E-commerce.

Buying goods or products is a necessity, there will be problems if the shipping costs exceed the price of the items.

## NFTs.

1. How can we know if a link really belongs to the original artist.
2. If the operator of a company or website goes bankrupt, the files will also be lost.

## GameFi

Many play to earn products this year experienced drastic price drops, it made many people waste their money in buying NFT products.

## Cryptocurrency.

Cryptocurrency trading can be used for criminal activities, tax evasion, and money laundering. Yes, they can do the same with cash, but this makes it a little too easy for them.

## Trader.

95% of traders lose money, the average trader has no more profit than saving BNB.

## DeFi ( Dexentralized Finance ).

One of the main sources of problems is the vulnerability of smart contracts. Regardless of programmatic intent, if a contract is released into the ecosystem with a flaw in its code, it could result in a loss of funds.

# Why should you choose WOLFILAND?

## Platform.

Wolfible Land stands for WOLFILAND, is a stable platform that can be used in all aspects of dapps..

## Revenue.

Being a part of WOLFILAND has a great opportunity for long term investment, because we offer profit sharing to all WOLFILAND holders after opening our Store and several branches around the world, 30% of the income for 1 year will be distributed to investors.

## Secure

Project security is a priority, by using the blockchain system all transactions will be publicly recorded and can be known by all investors.

## Partnership.

This is a platform that accepts all cooperation, of course our cooperation registration will be taxed for platform maintenance and this will make our platform last forever.

## Strategic

With strategic thinking in marketing and economic management, WOLFILAND will become a multifunctional token and keeping prices high is our main goal, Wolfiland will do marketing throughout the year without stopping at various media partners.

# MARKETING STRATEGY

## Additional marketing methods will include :

- **Influencer marketing** : We will reach out to celebrities, icons and big businesses for partnerships and fan base leveraging. Current partnerships include Metaverse, Reseller, Game, and e-Sport industries with more to come.
- **Content Marketing and Inbound Marketing**: The creation of unique valueadded content to utilize on YouTube, Telegram, Tiktok, Reddit, and others to maximize customer engagement.
- **Community** engagement activities and rewards (airdrops and bounty programs).
- **Ask me anything (AMA)** sessions on top platforms.
- Industry **events**, exhibitions, press releases, etc.
- **CEX and DEX** exchange listings.
- **Active Ads throughout the year.** running non-stop promotional ads throughout the year on the Coinzilla + a-Ads.com platform.
